You'll even glimpse the future of air travel with prototypes of commercial airliners yet to be produced by Airbus and Boeing.

China Monika Chansoria,2011 China's strides towards the creation of a formidable military posture, backed by strong economic growth, demonstrate a resolve to assert its claim towards becoming an Asian superpower. By opting to showcase its military prowess to the world, the Chinese armed forces have signalled that they have come a long way from what was essentially a rustic and bucolic 'Red Army' that waged a 'People's War' six decades ago. The modernisation programme undertaken by the People's Liberation Army (PLA) can be interpreted as the foundation of deterrence to attain the objectives of military strategy. Today, the Chinese armed forces are preparing to fight small-scale, high-intensity, regional combat and military operations in the future. At the same time, China seeks to deter or prevent their outbreak decisively through the possession of an adequate deterrent force and the determination to use that force. Robust military modernisation of the PLA represents a contrasting facet to the tall claims made by China, in so far as its 'peaceful rise' campaign is concerned. It is difficult to reconcile these rather opposing, while equally reinforcing, ideas. As a consequence, the entire debate on the impending China threat (Zhongguo weixie) theory has progressively gained significance within the Asian continent and beyond.

The Watery Maze Bernard Fergusson,1961 During Britain's darkest hour, in 1940, extraordinary measures were necessary for survival. This bleak period of defense against the Axis led to the formation of Combined Operations, a semi-independent unit composed of admirals, generals, and air marshals. It became Britain's offensive team which, in the end, was instrumental in the successful invasions of North Africa, Sicily, and Normandy. Here is the complete story of the creation of that unit, beginning with a series of daring raids on the coasts of Norway, France, Africa, and Madagascar. These

raids often resulted in great loss of life, but the lessons they taught the command led to dramatic successes. Combined Operations grew up with the war and played a part in the ultimate Allied victory in Europe and also in the Suez campaign of 1956--Taken from the book jacket flap.
