Red Sky at Night Elly MacKay,2018-05-01 A memorable collection of weather sayings, beautifully arranged in story form and

illustrated by renowned paper artist Elly MacKay. Red sky at night, sailor's delight. And, the next morning, when the dew is on the grass, no rain will come to pass. These are the perfect conditions for a grandfather to take his grandchildren out on a fishing trip. Especially since, as the saying goes, when the wind is from the West, then the fishes bite the best. The family takes a boat out on the lake, fishing and swimming and eventually camping out on a nearby island, taking full advantage of the gorgeous weather. But the next day . . . red sky in the morning, sailors take warning! The family ventures back home just in time to avoid a rainstorm. But not to worry -- the more rain, the more rest. Fair weather's not always best. Acclaimed paper artist Elly MacKay illustrates a lovely family narrative through the use of weather aphorisms, creating a beautiful and informational story which will appeal to children's timeless fascination with the natural world.

The Shadow 1941 Dennis O'Neil, 2013 On Easter Sunday of April 1941, a young woman pushes through the holiday crowds, racing for her life through the streets of Manhattan. It's a chase that leads from the bustling American metropolis all the way to Berlin, the dark heart of the Nazi regime... a chase of screeching taxis and motorcycle escapes, of a fantastic battle between a German U-boat and an autogyro over Coney Island! Like marionettes dangling from invisible hands, neither Allies nor Axis agents can tell if they are the puppeteers... or the dolls whose

strings get cut! Behind it all, The Shadow looms, a master of men with cold, hollow laughter and blazing .45 pistols! The acclaimed, complete Shadow 1941: Hitler's Astrologer collaboration of Batman scribe Denny O'Neil and artist Mike Kaluta, available for the first time in over two decades, completely remastered!

Embroiderers' Guild Transfers Collection Dr. Annette

Collinge, 2021-04-06 An important collection of beautiful, historically significant iron-on transfer designs from the Embroiderers' Guild.

The use of hot iron transfers in embroidery has a long and fascinating history, but they've often been looked down upon by serious embroiderers and have therefore been largely overlooked. They were, however, produced in large numbers and much of the work created from them was of a very high quality. An important though largely forgotten part of the Embroiderers' Guild legacy is the huge collection of hot iron transfers dating back to the early 20th century that were created by members of the Guild. They fell out of favour in the 1960s and the Guild stopped producing them. Many transfers were stored away and haven't been seen since those times; others were simply thrown away. This publication, which consists of one booklet of transfers and one booklet of

worked examples, showcases specially chosen examples worked in specific ways as an inspiration to readers to either follow, or work in their own way. This is a massively important collection of beautiful embroidery transfers that will excite embroiderers, textile artists, historians and lovers of traditional and vintage embroidery everywhere.

The Abandoned Boudoir ,2010

Take a Tea Towel Jemima Schlee,2015-08-23 Clean, crisp and practical. That sums up the classic linen tea towel, and also this innovative new title. Take a tea towel contains 16 projects, four for each of the main four areas in the home: bathroom, kitchen, laundry and workroom, all using hardwearing Irish linen tea towels. Embellishing the pieces with different techniques such as dip dying, embroidery, fabric painting, and photo transfers each project has an aesthetic simplicity and is practical and hardwearing. Linen is a very durable, strong fabric. The author, Jemima Schlee, has used the beautiful, timeless Irish linen glass cloth because the nostalgic, striped glass cloth sits comfortably in any interior as simple, practical and timeless. But, of course any natural-fibre cloth in linen, cotton or a linen-cotton mix, and of roughly the same dimensions, can be substituted to make the reader's projects more

personal. The humble tea towel is a wonderful thing. Classic gingham or striped cloths, bright French jacquard, kitsch maps of childhood holiday destinations - whether made from cotton or linen they are hard wearing and iron to a crisp fresh finish. The book will appeal to people who want to learn to sew, those who want to develop their sewing skills, for those with a love of simple, clean design and an appreciation of the utilitarian simplicity of Shaker design. This multi-craft project book teaches machine- and hand-sewing techniques and also includes different ways of adorning fabrics: dying, embroidery, fabric painting, photo transfers, Dorset button making, and many more.

Soul-Strung Rachel Hobbs, 2021-11-07 Ruby and Drayvex are back and better than ever in Soul Strung! - Goodreads 
Battleworn Ruby is putting her darkest days behind her, and where better to start again than the bustling Callien city? And she's bound to him tighter than ever before. He's done playing games. Power-starved Saydor is on the run. Converting to his cause one underdog at a time, his eyes and ears are everywhere. You can't kill what you can't find, and Saydor's covert talent is deadly. The bigger you are, the harder you fall. And he's just getting started. The Book of Great American Firecrackers Jack

Nash,2016-08-28 Including 183 color and black-and-white images of vintage photos and packaging, plus values for American firecracker collectibles, this is the first book to focus on US firecrackers. Many pyroabilia guides cover Chinese firecrackers, but the US's history is just as colorful, from fireworks' inception into American celebrations as a replacement for dangerous celebratory gun and cannon fire, until the final federal ban with the Child Protection Act of 1966. Fireworks made the 4th of July the best holiday ever, for generations of boys especially. Beginning with a brief history of the firecracker and how it came to America, the

book details the types the US produced a wide array, from Cherry Bombs and Silver Salutes to Ash Cans and Torpedoes. Also covered are how the US Industrial Revolution impacted fireworks, as well as the innovations throughout the American industry, from its successes to the factory disasters.

A Conspiracy of Ravens Samuel Fanous, 2014 A Conspiracy of Ravens presents readers with a compendium of collective bird nouns from the distant and not-so-distant past. Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of

a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
