**Horror after 9/11** Aviva Briefel,Sam J. Miller,2012-08-24 Horror films have exploded in popularity since the tragic events of September 11, 2001, many of them breaking box-office records and generating broad public discourse. These films have attracted A-list talent and earned award nods, while at the same time becoming darker, more disturbing, and increasingly apocalyptic. Why has horror suddenly become more popular, and what does this say about us? What do specific horror films and trends convey about American society in the wake of events so horrific that many pundits initially predicted the death of the genre? How could American audiences, after tasting real horror, want to consume images of violence on screen? Horror after 9/11 represents the first major exploration of the horror genre through the lens of 9/11 and the subsequent transformation of American and global society. Films discussed include the Twilight saga; the Saw series; Hostel; Cloverfield; 28 Days Later; remakes of The Texas Chainsaw Massacre, Dawn of the Dead, and The Hills Have Eyes; and many more. The contributors analyze recent trends in the horror genre, including the rise of 'torture porn,' the big-budget remakes of classic horror films, the reinvention of traditional monsters such as vampires and zombies, and a new awareness of visual technologies as sites of horror in themselves. The essays examine the allegorical role that the horror film has held in the last ten years, and the ways that it has been translating and reinterpreting the discourses and images of terror into its own cinematic language.

**Papertoy Monsters** Brian Castleforte,2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that’s hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

**Tortured Cardboard** Philip E. Orbanes,2019-07-23 The term “tortured cardboard” sums up what happens to cardboard when making a board game (bound, cut, folded, punched). And, as you’ll learn, great board games often reflect whatever “tortures” culture. Each gained immortality after a chaotic beginning and a chance survival. Why? Because—be it chess, backgammon, Clue®, Monopoly®, Scrabble®, Settlers of Catan®, or one of ten others featured in this book—each is replete with “lessons” applicable to achievement in your life. As the twenty-first century gathers momentum, our love affair with board games continues to strengthen. They involve us, they refine social skills, and they teach great lessons applicable in real life. “Tortuous” is the journey of every great board game, from birth in chaotic times, through survival by mere chance, to raging popularity and eventual immortality. Tortured Cardboard reveals how the great ones came to endure and—all fun aside—how each teaches us something about our own behavior while providing “rules” that can work in your life.

*The Lurker's Guide to Pak'ma'ra* Bryan Steele,J. Michael Straczynski,2007-05 One of the most infamous races of the Babylon 5 universe, the Pak'ma'ra are known as widespread lurkers, carrion eaters, foul-smelling yet consistently present everywhere in the galaxy. They are despised by many races due to others' views on their eating habits and hygiene, with millions of people from dozens of races refusing to know anything but their own stereotypes about the Pak'ma'ra. With this book, we hope to change that image. The Pak'ma'ra may be carrion eaters and religiously-driven invaders of privacy on a galactic scale, but they have a very in depth society and government that this book delves into. Showing the many unique processes found in the hierarchy of the Pak'ma'ra Civility, readers learn the true tenets of the Great Library of Melat and exactly why there is a massive defence fleet waiting in orbit around the Pak'ma'ra homeworld. New feats, prestige classes, and equipment that is focussed on the Pak'ma'ra's mastery of plasma technology can be found within these pages, not to mention a small collection of new starships that gives these otherwise ignored drifters an interesting new role in the Babylon 5 universe. You might just be surprised what you find. That is, if you can get past the smell.
