

Battlestar Galactica Cylon Head Papercraft.jpg

David Lister,Paul Charlton

Sentury II Syd Mead,2011-02 The long-awaited new title from Syd Mead gives us a glimpse of the future through the eyes of the legendary Visual Futurist. From vehicles to cityscapes, *Sentury II* is bursting with stunning full-colour illustrations. With images from dozens of conceptual and realized projects, this book is a treat for architects and designers, sci-fi enthusiasts and movie buffs alike.

Paper Robots Nick Knite,2013-09-15 In this book you will find 25 robots to assemble, each with a wild and unusual design and background story.

The Prop Builder's Molding & Casting Handbook Thurston James,1989-11-15 The Prop Builder's Molding & Casting Handbook & break;& break;This is the first book to contain, in one comprehensive volume, every molding and casting procedure of use to the theater props builder (no matter what his or her level or proficiency). The author demonstrates the techniques involved in using more than thirty different materials ranging from papier-mache to breakaway glass. & break;& break;While the use of some materials—plaster and polyester resins, for example—is covered to some extent in other publications, information on the selection and use of rubber materials (latex, neoprene, silicone, and the urethanes) and the procedure for making breakaway windows and bottles is available only in *The Prop Builder's Molding & Casting Handbook*. & break;& break;Written in an easy, conversational style, the book will be useful to anyone involved with theater properties, puppetry, and costuming (as professionals or amateurs). It will also serve admirably the needs of students taking classes in those subjects. & break;& break;Completing the book is a special section on designing and building a vacuum forming machine suitable for use in constructing theater props. More than 450 photographs illustrate the step-by-step procedures explained throughout the entire text.

Starfinder RPG: Tech Revolution Paizo Publishing,2021-09-07 Command the galaxy's cutting-edge technologies so sophisticated that they rival magic itself! Outfit yourself with the latest and greatest new weapons, armor, and other gear, from high-power explosives to alien relics that surpass conventional science. Or incorporate technologies directly into yourself, whether you're installing advanced cybernetic augmentations or playing *Starfinder's* newest class: the nanocyte, whose body hosts an army of robotic nanites that obey her commands! Outpace the speediest threats by customizing your own space-age vehicles, and overcome even the toughest foes by piloting powerful battle robots using the all-new mech combat system! Seize the future with additional options for every class and articles exploring every aspect of science-fantasy tech from advertising and music to virtual intelligences and security systems. Join in the *Starfinder Tech Revolution*!

Warhammer 40,000 ,2019

Battlestar Galactica 6 Glen A. Larson,Nicholas Yermakov,1982 The famous military leader, Commander Cain, suddenly appears to lead the *Galactica* in the battle against the Cylon forces, but doubts about his capabilities and sanity begin to grow

Horror after 9/11 Aviva Briefel,Sam J. Miller,2012-08-24 Horror films have exploded in popularity since the tragic events of September 11, 2001, many of them breaking box-office records and generating broad public discourse. These films have attracted A-list talent and earned award nods, while at the same time becoming darker, more disturbing, and increasingly apocalyptic. Why has

horror suddenly become more popular, and what does this say about us? What do specific horror films and trends convey about American society in the wake of events so horrific that many pundits initially predicted the death of the genre? How could American audiences, after tasting real horror, want to consume images of violence on screen? Horror after 9/11 represents the first major exploration of the horror genre through the lens of 9/11 and the subsequent transformation of American and global society. Films discussed include the Twilight saga; the Saw series; Hostel; Cloverfield; 28 Days Later; remakes of The Texas Chainsaw Massacre, Dawn of the Dead, and The Hills Have Eyes; and many more. The contributors analyze recent trends in the horror genre, including the rise of 'torture porn,' the big-budget remakes of classic horror films, the reinvention of traditional monsters such as vampires and zombies, and a new awareness of visual technologies as sites of horror in themselves. The essays examine the allegorical role that the horror film has held in the last ten years, and the ways that it has been translating and reinterpreting the discourses and images of terror into its own cinematic language.

Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Art of He-Man and the Masters of the Universe Various, 2015-04-28 In 1983, the world was introduced to He-Man and the Masters of the Universe. What followed was a cultural sensation that changed the landscape of children's entertainment forever! Join Mattel and Dark Horse in this comprehensive retrospective chronicling He-Man's decades-long epic journey from toy, to television, to film, to a true pop culture phenomenon!

The Unsettling Stars Alan Dean Foster, 2020-04-14 An original novel based on the thrilling Star Trek movies directed by J.J. Abrams! Taking place in an alternate timeline created when the Starship Kelvin was destroyed by a Romulan invader from the future, this bold new novel follows Captain James T. Kirk and an inexperienced crew commandeering a repaired U.S.S. Enterprise out of spacedock for a simple shakedown cruise. When a distress call comes in, the Enterprise must aid a large colony ship of alien refugees known as the Perenorean, who are under siege by an unknown enemy. But Kirk and his crew

will find that the situation with the peaceful Perenorean is far more complicated than they bargained for, and the answers as to why they were attacked in the first place unfold in the most insidious of ways...

Tortured Cardboard Philip E. Orbanes, 2019-07-23 The term "tortured cardboard" sums up what happens to cardboard when making a board game (bound, cut, folded, punched). And, as you'll learn, great board games often reflect whatever "tortures" culture. Each gained immortality after a chaotic beginning and a chance survival. Why? Because—be it chess, backgammon, Clue®, Monopoly®, Scrabble®, Settlers of Catan®, or one of ten others featured in this book—each is replete with "lessons" applicable to achievement in your life. As the twenty-first century gathers momentum, our love affair with board games continues to strengthen. They involve us, they refine social skills, and they teach great lessons applicable in real life. "Tortuous" is the journey of every great board game, from birth in chaotic times, through survival by mere chance, to raging popularity and eventual immortality. *Tortured Cardboard* reveals how the great ones came to endure and—all fun aside—how each teaches us something about our own behavior while providing "rules" that can work in your life.

Hover Car Racer Matthew Reilly, 2021 In the world of the near future, the most popular sport in the world is hover car racing. Super fast and dangerous, its heroes are the racers: part fighter pilot, part race - car driver, all superstar. But to get to the Pro Circuit, you must first pass through the International Race School, a brutal cauldron of wild races on even wilder courses, where only the best of the best will survive. This is the story of Jason Chaser, a talented young racer selected to attend the Race School. He's younger than the other students. He's smaller. His trusty car, the Argonaut, is older. But Jason Chaser is no ordinary racer. And as he races against the best drivers in the world he will learn that at Race School winning is everything, that not everyone in this world fights fair, and that you never ever have any friends on the track.

The Lurker's Guide to Pak'ma'ra Bryan Steele, J. Michael Straczynski, 2007-05 One of the most infamous races of the Babylon 5 universe, the Pak'ma'ra are known as widespread lurkers, carrion eaters, foul-smelling yet consistently present everywhere in the galaxy. They are despised by many races due to others' views on their eating habits and hygiene, with millions of people from dozens of races refusing to know anything but their own stereotypes about the Pak'ma'ra. With this book, we hope to change that image. The Pak'ma'ra may be carrion eaters and religiously-driven invaders of privacy on a galactic scale, but they have a very in depth society and government that this book delves into. Showing the many unique processes found in the hierarchy of the Pak'ma'ra Civility, readers learn the true tenets of the Great Library of Melat and exactly why there is a massive defence fleet waiting in orbit around the Pak'ma'ra homeworld. New feats, prestige classes, and equipment that is focussed on the Pak'ma'ra's mastery of plasma technology can be found within these pages, not to mention a small collection of new starships that gives these otherwise ignored drifters an interesting new role in the Babylon 5 universe. You might just be surprised what you find. That is, if you can get past the smell.

Forgotten Tanks and Guns of the 1920s, 1930s and 1940s David Lister, Paul Charlton, 2018-10-30 History forgets. Files are lost and mislaid. But this book seeks to shine a light, offering a collection of cutting edge pieces of

historical research detailing some of the most fascinating arms and armament projects from the 1920s to the end of the 1940s, nearly all of which had previously been lost to history. Included here are records from the UK's MI10 (the forerunner of GCHQ) which tell the story of the mighty Japanese heavy tanks and their service during the Second World War. Other chapters expand on the development of British armour, including the story of infantry tanks from the 1920s right through to the end of the Second World War and beyond. Other items placed beneath the microscope in this fascinating history include a wide variety of guns, rocket launchers, super heavy tanks and countless pieces of specialised armour. Previously overlooked, hidden under layers of dust in archives up and down the country, the histories of these objects has finally been uncovered.

The Mote in God's Eye Larry Niven, Jerry Pournelle, 1974 Science fiction-roman.

The Star Wars Sketchbook Joe Johnston, 1977-01-01 Presents sketches for the Star Destroyer, the Life Pod, the Skyhopper, and other Star Wars spacecraft, which served as the basis for models of vehicles used in the film

Junta from Brisvegas Josiah Navarro, 2021-10 Josiah Navarro's Junta artwork including contributions from 130+ artists from all over the world.

Syd Mead's Century II Syd Mead, 2010 The long awaited next book from legendary Syd Mead has finally arrived after nine years. Loyal fans and art enthusiasts will rejoice in being able to view what Syd Mead has been imagining for nearly the past decade. Having illustrated the future for us for the past 40 years, Syd Mead continues to amaze and surprise us with his stunning pieces no matter how much of the future we have seen from the start of his career to present day. Looking through his unrivaled artwork, we still find ourselves continuously waiting for his future to be in our present. Images from countless conceptual projects as well as realized ones will be included in this fantastic visual voyage into the future with the one and only Visual Futurist, Syd Mead. This first edition limited hardcover will not be available again.

Micro Tracy Gardner, Elbrie de Kock, Tech Age Kids, 2018-01-31 micro: bit in Wonderland is a coding and craft project book for the BBC micro: bit (microbit). The book guides beginners aged 9 and over through 12 projects inspired by Alice's Adventures in Wonderland. The projects develop modern skills in creative and computational thinking, computer programming, making and electronic

Verlinden Productions Francois Verlinden, 1997-02-01
