*Bmw 3 - Still the Ultimate Driving Machine* William Frangipane,2017-10-29 This is the third and last book of a series on the BMW 3-series. It is car that defines the sport sedan. This book covers the fifth and sixth generations of cars, the E90 and F30. Both generations are very controversial. With the E90, thanks to the chief designer, Chris Bangle, there were boldly aggressive changes to the iconic design. The iDrive interactive system confused many a driver. Even the supercar, the M3, had a V8 engine, which for many folks was like putting a moustache on the Mona Lisa. Despite all of this, the 3-series grew and grew in popularity. Plus, the magic drivability of the car remained in its DNA. For the present F30 generation, BMW split the 3-series right down the middle. The everyman's cars, the sedan and wagon remained with the 3-series. The coupe and convertible, now part of the new 4-series, are closer to the roots of the brand. BMW tries to conquer all the small luxury car market with new unusual models and engines, unthought-of until very recently. As the car world awaits the seventh generation of cars, here is a review of the most review ones.

**Resurrecting Bertha** Rob Siegel,2019-09-15 To most people, cars are just appliances to be disposed of when they rust, become unreliable, or are outgrown. But to car people, it's different. Cars are like photographs that occupy physical space. They hold aromas that trigger memories, and remind us of who we once were. In addition, to some people, the relationship with the car itself is a real thing. Many enthusiasts pine for the cars of their youth, regret that they ever let them go, and yearn and search for them the way people do with old lovers, hoping to find them and rekindle that old spark. In *Resurrecting Bertha*, Rob Siegel assures you that this is normal (well, as normal as anything is with car people), and embarks on this journey himself. Writing in his trademark Hack Mechanic voice that's enthralled readers for 35 years, Rob describes his original eight-year relationship with his highly-modified 1975 BMW 2002 Bertha, selling the car to a dear friend, its 26 years of storage, and buying it back in a weak whisky-soaked moment only to experience the oh dear God what did I just do regret when he raises the long-closed garage door and comes face-to-face with the badly deteriorated car. The book details the steps Rob went through to get the car running, then driving, then sufficiently sorted to make a 2000-mile drive, and how the reconnection with the car was so much deeper than he expected. *Resurrecting Bertha* is about more than just the nuts and bolts; it's about deciding what's important, the joy of doing good, and how, if you do it right, not only can you go home again, but you can do so in the same car.

I'm the Bomb Morgan Hobbs,2020-12-24 When the most successful film studio in Hollywood is racked with failed projects, financial reversals and bizarre accidents, rumors swirl that legendary long-time studio head Nero is on

the chopping block. The notorious and increasingly erratic Nero engineers a pre-emptive strike against the studio's parent company by staging a star-studded film shoot in the desert and then orchestrating a series of increasingly traumatic accidents—prematurely triggered pyrotechnic effects, blanks switched out for live ammo, and worse—guaranteed to make the project fail so lethally that it brings down the very studio that he created. The cast and crew settle into their temporary desert home blissfully unaware that the entire location sits on top of a radioactive waste dump. As the film's magnetic lead actor Tony Billings scrounges for drugs and cheap thrills, he is stalked by an obsessive entertainment journalist, Frederick M Barclay, who pursues his ultimate objective to once and for all lay open his subject in the most gruesome possible way.
