Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Typographic Systems of Design Kimberly Elam, 2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In *Typographic Systems*, Kim Elam, author of our bestselling books, *Geometry of Design* and *Grid Systems*, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. *Typographic Systems* is the seventh title in our bestselling *Design Briefs* series, which has sold more than 100,000 copies worldwide.

Fractured Realms Horrified Press,2014-06-15 Extraordinary people marked 'not normal' come from all different walks of life. For far too long, a shroud of darkness was thrown over those who've had boundless potential to transcend greatness; shunned and cast out through the misjudgment forced upon them. People enduring isolation from being trapped inside their own minds. People labeled with an ASD-Autism Spectrum Disorder. Seeds of greatness cannot be cultivated through judgment and condemnation. Imagine a world never having heard the music of Wolfgang Amadeus Mozart? Never seeing the extraordinary art of Michelangelo? What if Sir Isaac Newton hadn't discovered gravity, and laws of motion that would be relevant 300 years later? And for all the writers out there...were you aware that Lewis Carroll-author of 'Alice in Wonderland'-fell under the umbrella of Autism? So to all of you, who are reading this, ask yourself... Is Autism a disorder, or is it a gift? Through their short stories and poetry, a collection of talented authors have tackled that question.

The Return of the Mother Andrew Harvey, 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. *The Return of the Mother* offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups

of mutually supportive guides and friends. *The Return of the Mother* is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

Herakut Herakut, Jasmin Siddiqui, Falk Lehmann, 2008 For four remarkably productive years, the graffiti loving and street art affiliated storytellers, Hera and Akut, have combined their artistic skills and individual specialties in order to create one odd but always exquisitely beautiful, instantly recognizable style: Herakut. It's an extremely contradictory mix of ingredients - Akut's autodidactic but top-level photorealism and Hera's classically educated though Don't-Give-A-Shit-roughness - that results in a surprisingly well-balanced fusion of respect for each other's qualities and the shared urge to capture life's anecdotes with brush and spray can. For the first time this book explores the interpersonal and creative processes behind the duo's murals and canvas paintings, which have attracted the attention of the international art scene.
