Titan #1: Taking Wing Michael A. Martin, Andy Mangels, 2005-04-01 William Riker, former first officer of the USS Enterprise in Star Trek: The Next Generation, takes command of the new USS Titan in this white-knuckled adventure perfect for longtime and new Star Trek fans. After almost a decade of strife against foes such as the Borg, the Cardassians, the Klingons, and the Dominion, the United Federation of Planets is at the dawn of a new era. Starfleet is renewing its mission of peaceful exploration, diplomacy, and the expansion of knowledge. Among the starships spearheading

that endeavor is the USS Titan, commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of Star Trek: Nemesis, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may destabilize. To restore order to the region, Titan's long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the Titan crew become the last hope to prevent the quadrant from falling into chaos.

**Star Trek Nerd Search** Glenn Dakin, 2020-09-01 Think you know Star Trek, the original series like no fan has done before? Well boldly go and take up our unique puzzle challenge! The perfect holiday gift for the Star Trek fan in your life! It's a puzzle book, Jim, but not as we know it. This is no conventional 'search-and-find.' Each of its detailed, full-color pages is packed with out-of-context items and cosmic continuity errors that only a true fan can spot. It would be illogical to resist this challenge, when the accuracy of the whole Trek universe is at stake. Captain Kirk, Mr Spock and the Enterprise crew have discovered that a series of exploding tribbles have been hidden by the Klingons in locations visited by the

Enterprise. Kirk and his crew must seek and find each exploding tribble. At the same time, fans must spot items from every story in The Original Series, also concealed in the pictures. This is next-level Where's Waldo for adult fans, plus a chance to save the galaxy into the bargain! The book opens with an article exploring the grand tradition of fans spotting continuity gaffes in the world of Star Trek. Then this is followed by an explanatory spread telling the reader how to use the book. A feedback session at the back clears up all quibbles with tribbles and debates about the non-interference directive! Three levels of engagement: TRIBBLE TREK: SPOT the all-important EXPLODING TRIBBLE NERD ALERT: Spot five continuity errors, mistakes within the featured episode itself. THE ARTEFACT INCIDENT: Find the out-of-context items from other episodes, ten to a spread.

Treconomics, the premier book in financial journalist Felix Salmon's imprint PiperText, approaches scarcity economics by coming

**Live Long And . . .** William Shatner, David Fisher, 2018-09-04 Star Trek legend and veteran author William Shatner discusses the meaning of life, finding value in work, and living well

whatever your age. I have always felt, William Shatner says early in his newest memoir, that like the great comedian George Burns, who lived to 100, I couldn't die as long as I was booked. And Shatner is always booked. Still, a brief health scare in 2016 forced him to take stock. After mulling over the lessons he's learned, the places he's been, and all the miracles and strange occurrences he's witnessed over the course of an enduring career in Hollywood and on the stage, he arrived at one simple rule for living a long and good life: don't die. It's the only one-size-fits-all advice, Shatner argues in *Live Long and...What I Learned Along the Way*, because everyone has a unique life—but, to help us all out, he's more than willing to share stories from his unique life. With a combination of pithy humor and thoughtful vulnerability, Shatner lays out his journey from childhood to peak stardom and all the bumps in the road. (Sometimes the literal road, as in the case of his 2,400-mile motorcycle trip across the country with a bike that didn't function.) William Shatner is one of our most beloved entertainers, and he intends never to stop entertaining. His funny, provocative, and poignant reflections offer an unforgettable read about a remarkable man.
