CDT 2022 contains new codes for: Previsit patient screenings; Fabricating, adjusting and repairing sleep apnea appliances; Intracoronaral and extracoronaral splints; Immediate partial dentures; Rebasing hybrid prostheses; Removal of temporary anchorage devices. Transtopia in the Sinophone Pacific Howard Chiang, 2021-04-06 As a broad category of identity, "transgender" has given life to a vibrant field of academic research since the 1990s. Yet the Western origins of the field have tended to limit its cross-cultural scope. Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance. Defined as the antidote to transphobia, transtopia challenges a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum. Against the backdrop of the Sinophone Pacific, Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame. At the same time, he challenges China-centrism in the study of East Asian gender and sexual configurations. Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced through one another. Grounded in an eclectic range of sources—from the archives of sexology to press reports of intersexuality, films about castration, and records of social activism—this book reorients anti-transphobic inquiry at the crossroads of area studies, medical humanities, and queer theory. Timely and provocative, *Transtopia in the Sinophone Pacific* highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity.

Great White Zeke Tim Boyle, 2020-09-20 *Great White Zeke* is a picture book about a baby raised by Great White Sharks -- like a Tarzan sort of situation, but in the Pacific. How will this mama shark help a helpless baby survive? Can a baby do anything the other sharks can't do? Written and illustrated in delicious digital watercolor in just over two weeks, this 8.5 x 11 format book helps dispel the myth that sharks are mindless killing machines, and contains shark facts written by Oceanographer Apryl Boyle. Portions of the profits go to her non-profit El Porto Shark.

Scarlett's Strike Force Aubrey Sitterson, 2019

The Battleship Yamato Janusz Skulski, 2004 The battleship Yamato was a tremendous achievement for the Imperial Japanese Navy. With the greatest displacement, biggest guns and heaviest armour of all time, Yamato and her sister Musashi were the ultimate battleships. Everything about them was gigantic – for example, each main-armament turret had a total revolving weight of over 2500 tons – and they proved very dangerous opponents to the US Pacific Fleet. Fittingly for such a subject as Yamato, this contribution to the 'Anatomy' series has twice as many drawings as a standard volume in the series. The 'Anatomy of the Ship' series aims to provide the finest documentation of individual ships and ship types ever published. What makes the series unique is a complete set of superbly executed line drawings, both the conventional type of plan as well as explanatory views, with fully descriptive keys. These are supported by technical details and a record of the ship's service history.
