*Twelve Years a Slave* Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

One barrier remains before he can strike for Terra and lay waste to the Emperor's dream. The Beta Garmon system occupies the most direct and only viable route to the Solar System and Terra. To break it, Horus assembles a war host of incredible proportions and Titans in untold numbers. To lose here is to lose the war and Horus has no intention of turning back. But the Imperium understands the importance of Beta Garmon too. A massive army is arrayed, comprised of near numberless Army cohorts and a mustering of Titans to challenge even the martial might of the Warmaster. Titans fight against Titans as the God Machines of Loyalists and Traitors alike go to war. This conflict will be like no other before it, a worldending battle that will determine the next phase of the war.

Overcoming School Refusal Joanne Garfi,2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development.

Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

*Black Ops* Guy Bowers,2015-10-20 Black Ops is a skirmish wargame of tactical espionage combat that recreates the tension and excitement of modern action-thrillers such as the Bond and Bourne films. The fast-play rules keep all the players in the thick of the action, while the mission generator provides a wide range of options for scenarios – from stealthy extraction or surveillance missions to more overt raids and assaults. Stealth, combat, and technical expertise all have a role to play, and players may recruit a number of different operative types – spies, mercenaries, criminals, hackers, special forces, and many more – to recruit the best possible team for the job. Players may also choose to join a faction – powerful organizations, intelligence agencies, criminal syndicates, militaries, or rebel groups, each with a stake in international affairs. By doing so, their team may receive certain benefits, but may also find itself limited at a crucial time. With the variety offered by the characters, factions, and scenarios, no two games of Black Ops should ever be the same!

*Battletech Technical Readout 3085* Catalyst Game Labs,2010-10-13 In December 3076, Devlin Stone marshaled the nations of the Inner Sphere and began Operation SCOUR. The two-year final push to Terra was the bloodiest fighting seen in centuries. In the end, Terra had been freed with the Word of Blake scattered to the darkest corners of the universe. Stepping into that vacuum, Stone forged a new Terran Hegemony in The Republic of the Sphere. With the end of the Jihad, the survivors are rebuilding their shattered armies, introducing new machines to replace those whose factories ceased to exist in the fires of the Jihad. BattleTech Technical Readout: 3085 gives a detailed look at the machines introduced during the waning days of the Jihad and into the founding days of Devlin Stones Republic of the Sphere. This book includes the latest Mechs, battle armor, aerospace and vehicles as well as new late-Jihad support vehicles. In addition, this sourcebook heralds the long-awaited update of Technical Readout: Project Phoenix, featuring brand-new art and additional variants. Conventional infantry make their Technical Readout debut with fifty-six individual infantry formations from classic foot infantry to xeno-planetary soldiers. And finally, after more than twenty years of silence, Land-Air BattleMechs explode back into a Technical Readout with a look at the original four LAMs and their Star League history.

**Tacky** Rax King,2021-11-02 An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column Store-Bought Is Fine” Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to good taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, Sex and the City, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her

father; in You Wanna Be On Top, Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. **Wolves on the Border** Robert N. Charrette,1996 Minobu Tetsuhara, a warrior-servant of the devious Warlord Grieg Samsonov, is forced to betray his former colleague, Jaime Wolf, and Wolf's mercenary Dragoons, after the mercenaries refuse to renew their contract with Samsonov and the warlord orders their deaths. Original.

*Prince of Havoc* Michael A. Stackpole,1998 Trained to be the Inner Sphere's finest warrior, Prince Victor-Steiner Davion has only known one enemy in battle: the Clans. A year earlier he had led a massive counter-strike against the Smoke Jaguar Clan, pursuing them all the way to their homeworld. He then faced all of the Clans in one last battle for supremacy. But for a man of war like Prince Victor, can there ever be peace? When he returns home he finds the Inner Sphere in tatters, with a new order in power, leaving him a hero without a home.

**Warrior** Michael A. Stackpole,1998 Stripped of his rank, exiled Justin Allard is given one last chance to save his honor--by risking his life in the gladiatorial arenas of Solaris VII. But his newest Game World opponent--more skilled at 'Mech-to-Mech' combat than any other rival--raises the stakes even higher. It's Justin's own half brother, Daniel, lance commander in the dreaded Kell Hounds mercenary battalion. But Daniel has more serious worries than dealing with his estranged and bitter brother. Princess Melissa Steiner, heir apparent of the Lyran Commonwealth, has been hijacked--and the future of the Inner Sphere depends on her fate. Both Daniel and Justin face fierce battles, but in the Inner Sphere, where nobles have schemed for centuries to win the ultimate power, those who interfere with the Successor Lords are sometimes called heroes, and sometimes called victims.
