Kamandi Archives Jack Kirby, 2007 Kamandi is a young hero living in a post-apocalyptic world ruled by highly intelligent animals that came about following a planet-changing event known as The Great Disaster. Written and pencilled by comics legend Jack King Kirby and inked by his able associates Mike Royer and D. Fundamentals of Modern Unsteady Aerodynamics Ülgen Gülçat, 2015-10-31 In this book, the author introduces the concept of unsteady aerodynamics and its underlying principles. He provides the readers with a comprehensive review of the fundamental physics of free and forced unsteadiness, the terminology and basic equations of aerodynamics ranging from incompressible flow to hypersonics. The book also covers modern topics related to the developments made in recent years, especially in relation to wing flapping for propulsion.

The book is written for graduate and senior year undergraduate students in aerodynamics and also serves as a reference for experienced researchers. Each chapter includes ample examples, questions, problems and relevant references. The treatment of these modern topics has been completely revised and expanded for the new edition. It now includes new numerical examples, a section on the ground effect, and state-space representation.

Sun of Suns Karl Schroeder, 2007-07-31 In Karl Schroeder's sci-fi thriller, Hayden Griffin has come to the city of Rush with one thing in mind: to take murderous revenge for his parents' deaths. It is the distant future. The world known as Virga is a fullerene balloon three thousand kilometers in diameter, filled with air, water, and aimlessly floating chunks of rock. The humans who live in this vast environment must build their own fusion suns and towns that are in the shape of enormous wood and rope wheels that are spun for gravity. Young, fit, bitter, and friendless, Hayden Griffin is a very dangerous man. He's come to the city of Rush in the nation of Slipstream with one thing in mind: to take murderous revenge for the deaths of his parents six years ago. His target is Admiral Chaison Fanning, head of the fleet of Slipstream, which conquered Hayden's nation of Aerie years ago. And the fact that Hayden's spent his adolescence living with pirates doesn't bode well for Fanning's chances . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Batman Begins Christopher Nolan, David S. Goyer, Bob Kane, 2005 Extensive reading improves fluency and there is a real need in the ELT classroom for motivating, contemporary graded material that will instantly appeal to students. Teacher Trouble Alexander McCall Smith, 2006-01-01 A tale involving madness and mayhem.

Attack of the 50 Foot Blockchain David Gerard, 2017-07-24 An experimental new Internet-based form of money is created that anyone can generate at home; people build frightening firetrap computers full of video cards, putting out so much heat that one operator is hospitalised with heatstroke and brain damage. A young physics student starts a revolutionary new marketplace immune to State coercion; he ends up ordering hits on people because they might threaten his great experiment, and is jailed for life without parole. Fully automated contractual systems are proposed to make business and the law work better; the contracts people actually write are unregulated penny stock offerings whose fine print literally states that you are buying nothing of any value. The biggest crowdfunding in history attracts \$150 million on the promise that it will embody “the steadfast iron will of unstoppable code”; upon release it is immediately hacked, and \$50 million is stolen. How did we get here? David Gerard covers the origins and history of Bitcoin to the present day, the other cryptocurrencies it spawned including Ethereum, the ICO craze and the 2017 crypto bubble, and the attempts to apply blockchains and smart contracts to business. Plus a case study on blockchains in the music industry. Bitcoin and blockchains are not a technology story, but a psychology story. Remember: if it sounds too good to be true, it almost certainly is. “A sober riposte to all the upbeat forecasts about cryptocurrency” – New York Review of Books “A very convincing takedown of the whole phenomenon” – BBC News

Pure Trance Junko Mizuno, 2024-02-15 Following the Third World War, humankind left the toxic surface of the Earth and built an underground city

to survive. A serious social problem has emerged in this new society: hyperorexia, or severe overeating, a side effect of the Pure Trance life-sustaining pill. The story begins in a hospital which has been ruined by a tyrannical director, Keiko Yamazaki. The nurses who toil under Keiko's whip are regular girls, just like your friends and co-workers. Yet this is no soap opera! It is a dreamy science fiction fantasy -- a twisted story of catfights, alien safari adventures, evil experimentation, and a girl in love with a pop idol singer.

Gurren Lagann Kotaro Mori, 2009 Simon and Kamina, who come from deep underground, reach the surface, along with the robot Gurren Lagann, where they find new freedom in a world that is dominated by monsters, which they battle along with a heavily-armed woman called Yoko.

Immortal Coil Jeffrey Lang, 2002-03-21 He is perhaps the ultimate human achievement: a sentient artificial life-form -- self-aware, self-determining, possessing a mind and body far surpassing that of his makers, and imbued with the potential to evolve beyond the scope of his programming. Created by one of the most brilliant and eccentric intellects the Federation has ever known, the android Data has always believed he was unique, the one true fulfillment of a dream to create children of the mind. But is he? Investigating the mysterious destruction of a new android created by Starfleet, Data and the crew of the U.S.S. Enterprise™ uncover startling secrets stretching back to the galaxy's dim past. That knowledge is coveted by beings who will stop at nothing to control it, and will force Data to redefine himself as he learns the hidden history of artificial intelligence.
