Medicalizing Blackness Rana A. Hogarth, 2017-09-26 In 1748, as yellow fever raged in Charleston, South Carolina, doctor John Lining remarked, There is something very singular in the constitution of the Negroes, which renders them not liable to this fever. Lining's comments presaged ideas about blackness that would endure in medical discourses and beyond. In this fascinating medical history, Rana A. Hogarth examines the creation and circulation of medical ideas about blackness in the Atlantic World during the late eighteenth and early nineteenth centuries. She shows how white physicians deployed blackness as a medically significant marker of difference and used medical knowledge to improve plantation labor efficiency, safeguard colonial and civic interests, and enhance control over black bodies during the era of slavery. Hogarth refigures Atlantic slave societies as medical frontiers of knowledge production on the topic of racial difference. Rather than looking to their counterparts in Europe who collected and dissected bodies to gain knowledge about race, white physicians in Atlantic slaveholding regions created and tested ideas about race based on the contexts in which they lived and practiced. What emerges in sharp relief is the ways in which blackness was reified in medical discourses and used to perpetuate notions of white supremacy.

Sandow the Magnificent David L. Chapman, 1994 Before Arnold Schwarzenegger, Steve Reeves, or Charles Atlas, there was Eugen Sandow, a muscular vaudeville strongman who used his good looks, intelligence, and business savvy to forge a fitness empire. The German-born Sandow (1867-1925) established a worldwide string of gyms, published a popular magazine, sold exercise equipment, and pioneered the use of food supplements. He even marketed a patented health corset for his female followers. Among the colorful figures who played a part in Sandow's life are Bernarr Macfadden, Florenz Ziegfeld, Lillian Russell, and others in sports and the theater. Sandow the Magnificent is the story of this first showman to emphasize physique display rather than lifting prowess. Sandow's is also the story of the earliest days of the fitness movement, and Chapman explains the popularity of physical culture in terms of its wider social implications. Sandow was a proponent of exercise to alleviate physical ailments, anticipating the field of physical therapy. By making exercise fashionable, he encouraged the fitness craze that still endures. As the first superstar in his field, Sandow also pried open some surprising cracks in the Victorian wall of prudery. His nude photographs, a kind of soft-core pornography, were anxiously sought by both male and female admirers, and after many of his major public events he gave private receptions wearing little more than a G-string.

Just Medicine Dayna Bowen Matthew, 2016-10-25 Offers an innovative plan to eliminate inequalities in American health care and save the lives they endanger Over 84,000 black and brown lives are needlessly lost each year due to health disparities: the unfair, unjust, and avoidable differences between the quality and quantity of health care provided to Americans who are members of racial and ethnic minorities and care provided to whites. Health disparities have remained stubbornly entrenched in the American health care system—and in Just Medicine Dayna Bowen Matthew finds that they principally arise from unconscious racial and ethnic biases held by physicians, institutional providers, and their patients. Implicit bias is the single most important determinant of health and health care disparities. Because we have missed this fact, the money we spend on training providers to become culturally competent, expanding wellness education programs and community health centers, and even expanding access to health insurance will have only a modest effect on reducing health disparities. We will continue to utterly fail in the effort to eradicate health disparities unless we enact strong, evidence-based legal remedies that accurately address implicit and unintentional forms of discrimination, to replace the weak, tepid, and largely irrelevant legal remedies currently available. Our continued failure to fashion an effective response that purges the effects of implicit bias from American health care, Matthew argues, is unjust and morally untenable. In this book, she unites medical, neuroscience, psychology, and sociology research on implicit bias and health disparities with her own expertise in civil rights and constitutional law. In a time when the health of the entire nation is at risk, it is essential to confront the issues keeping the health care system from providing equal treatment to all.

Dante's Paradiso Dante Alighieri, 2015-01-01 Paradiso is the third and final part of Italian poet Dante Alighieri's epic poem Divine Comedy and describes Dante's journey through heaven. He is now led by Beatrice, who joined him at the end of Purgatorio. Beatrice takes Dante into the nine celestial spheres of Heaven. From the First Sphere, where they find those who were good but did not keep their vows, to the Ninth Sphere and the Empyrean, the home of the angels and God, Dante experiences the blessings given to those who live a life faithful to God. Dante wrote his narrative poem between 1308 and 1321. This version is taken from a 1901 English edition, featuring British author Rev. H. F. Cary's blank verse translation and woodcut illustrations by French artist Gustave Doré.

Between Two Fires Joshua Yaffa, 2020 From a leading journalist in Moscow and correspondent for The New Yorker, a groundbreaking portrait of modern Russia and the inner struggles of the people who sustain Vladimir Putin's rule Unforgettable. . . . This is a book about Putin's Russia that is unlike any other. --Patrick Radden Keefe, author of Say Nothing In this rich and novelistic tour of contemporary Russia, Joshua Yaffa introduces readers to some of the country's most remarkable figures--from politicians and entrepreneurs to artists and historians--who have built their careers and constructed their identities in the shadow of the Putin system. Torn between their own ambitions and the omnipresent demands of the state, each walks an individual path of compromise. Some muster cunning and cynicism to extract all manner of benefits and privileges from those in power. Others, finding themselves to be less adept, are left broken and demoralized. What binds them together is the tangled web of dilemmas and contradictions they face. Between Two Fires chronicles the lives of a number of strivers who understand that their dreams are best--or only--realized through varying degrees of cooperation with the Russian government. With sensitivity and depth, Yaffa profiles the director of the country's main television channel, an Orthodox priest at war with the church hierarchy, a Chechen humanitarian who turns a blind eye to persecutions, and many others. The result is an intimate and probing portrait of a nation that is much discussed yet little understood. By showing how citizens shape their lives around the demands of a capricious and frequently repressive state--as often by choice as under threat of force--Yaffa offers urgent lessons about the true nature of modern authoritarianism.

Welcome to the Grief Club Janine Kwoh, 2022-02 Welcome to the Grief Club - a place where one human who experienced a terrible loss, Janine

Kwoh, is at the door to welcome other humans who are grieving. It is not an instruction manual, or a step-by-step playbook, or a memoir. It is, rather, a fresh, empathetic approach to all of the surprising, confusing, brutal, funny, and downright bizarre parts of grief. Combining her own experiences with grief - the author's partner died when both were in their late 20s - with what she learned from others in her 'grief club', Kwoh uses brief writings and observations, hand-drawn illustrations, and diagrams to explore all the different ways grief happens. Plus, wisdom and understanding in every line - there is no right or wrong way to grieve - and permission to grieve in whichever ways you need, for however long you need to. What to do when the world is your grief trigger. Signs you have grief brain. And gentle assurances: Grief isn't linear, but it does change and will soften over time. It is a book to put into the hands of anyone who is grieving, because from its very first page, that person will know they are no longer alone.

Ectogenesis Scott Gelfand,John R. Shook,2006 This book raises many moral, legal, social, and political, questions related to possible development, in the near future, of an artificial womb for human use. Is ectogenesis ever morally permissible? If so, under what circumstances? Will ectogenesis enhance or diminish women's reproductive rights and/or their economic opportunities? These are some of the difficult and crucial questions this anthology addresses and attempts to answer.

Notes from the Hyena's Belly Nega Mezlekia,2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, Notes from the Hyena's Belly offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.
