**Drawing Futures** Bob Sheil,Frédéric Migayrou,Luke Pearson,Laura Allen,2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture.Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie.Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

The first edition, published in 2007, won a James Beard Award. Now updated with newly discovered recipes and historical information, this new edition includes the origins of the first American drink, the Mint Julep (which Wondrich places before the American Revolution), and those of the Cocktail itself. It also provides more detail about 19th century spirits, many new and colorful anecdotes and details about Thomas's life, and a number of particularly notable, delicious, and influential cocktails not covered in the original edition, rounding out the picture of pre-Prohibition tippling. **Troy: Lord of the Silver Bow** David Gemmell,2006-10-31 With this first masterly volume in an epic reimagining of the Trojan War, David Gemmell has written an ageless drama of brave deeds and fierce battles, of honor and treachery, of love won and lost. He is a man of many names. Some call him the Golden One; others, the Lord of the Silver Bow. To the Dardanians, he is Prince Aeneas. But to his friends, he is Helikaon. Strong, fast, quick of mind, he is a bold warrior, hated by his enemies, feared even by his Trojan allies. For there is a darkness at the heart of the Golden One, a savagery that, once awakened, can be appeased only with blood. Argurios the Mykene is a peerless fighter, a man of unbending principles and unbreakable will. Like all of the Mykene warriors, he lives to conquer and to kill. Dispatched by King Agamemnon to scout the defenses of the golden city of Troy, he is Helikaon's sworn enemy. Andromache is a priestess of Thera betrothed against her will to Hektor, prince of Troy. Scornful of tradition, skilled in the arts of war, and passionate in the ways of her order, Andromache vows to love whom she pleases and to live as she desires. Now fate is about to thrust these three together—and, from the sparks of passionate love and hate, ignite a fire that will engulf the world.
