The Crooked Scythe George Ewart Evans, 2018-08-02

George Ewart Evans was one of the pioneers of oral history. This anthology is drawn from his writings about the memories of men and women of a past era -- farm labourers, shepherds, horsemen, blacksmiths, wheelwrights, sailors, fishermen, miners, maltsters, domestic servants and many others. Ewart Evans gathered this unique testimony in rural East Anglia in the 1950s, just as mechanisation was taking over every aspect of life, preserving a wealth of human history and language in this fascinating and often moving anthology.

If Anything Happens I Love You Will McCormack, Michael Govier, 2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German

armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Justice League: Last Ride (2021-) #2 Chip Zdarsky,2021-06-08 The League needs to prevent galactic upheaval by protecting a ruthless killer, and the only way to do that is to visit the scene of their greatest failure! But can Superman ignore the ghosts of the past to do what's needed?

Turtles Close Up SETH. LYNCH,2022-07-30 Turtles are so cool! From the largest--the leatherback sea turtle--to the small bog turtle, many people like to see turtles in the wild and even keep them as pets. What makes a turtle, a turtle--and not a tortoise? Their shell and habitat are part of it as emerging readers learn in this awesome volume. Full-color photographs of turtle body features close up complement the low ATOS text and aid in readers' comprehension of the subject matter.

Sky Tree Thomas Locker,Candace Christiansen,2001-08-07 A tree stands on a hill by a river. As the sky changes, so does the tree, its branches filling with clouds, stars, snow, birds, mists, and the golden spring sun. One tree can mean many things. Thomas Locker's lyrical text records the changes in the tree's world just as simply as a child might observe them, and his magnificent paintings crystallize the natural phenomena that embellish the tree on each page. Questions at the bottom of each page lead to a unique discussion in the back of the book, where art and science are intertwined, and further depth is added to the wonder of Sky Tree.

The Garfield Gallery Jim Davis,1989

Russia Under the Old Regime Richard Pipes,1992 The author traces with compelling detail the evolution of the Russian state, where the Tsar claimed to own the land and its inhabitants as if they were his own personal property. Professor Pipes analyzes the political behavior of Russia's peasantry, nobility and bourgeoisie as well as its clergy, showing why none of them could limit the absolute power of the state. He discusses how the intelligentsia challenged the Tsars' power, leading to increased repression and Russia's development as a bureaucratic police state. This sweeping epic brings Russia's turbulent history to life and helps us better understand the roots of modern Russia.
