SAS Combat Vehicles 1942–91 Gavin Mortimer,2021-05-27 A concise illustrated history of the Special Air Service's lightweight, heavily armed vehicles and their combat use. The SAS, the world's most famous special operations unit, made its name in the desert of North Africa, shooting up Axis airfields from specially modified Willys jeeps. Following the start of the El Alamein offensive in October 1942, the SAS used jeeps effectively in reconnoitring and ambushing the retreating Afrika Korps. After the conclusion of the North African campaign, the Willys underwent several small but significant changes, including the introduction of the .303 Browning machine gun. Between June and October 1944, the SAS brigade operated deep inside Occupied France, harassing Germans reinforcements heading to Normandy, calling up air strikes on installations, and carrying out reconnaissance missions - all made possible with jeeps dropped by the RAF. Jeeps were also used in the push into Germany in the spring of 1945. Transported across the Rhine in 'Buffalo' amphibious landing craft, they formed part of the vanguard of the Allied advance, and their agility, speed and firepower proved crucial in crushing fanatical pockets of Nazi resistance. 22SAS in 1952, the regiment adopted the Series 1 Land Rover - introduced in 1948 - as the successor to the Willys jeep. A decade later the Regiment updated to the Series IIA 90 Land Rover, which saw service in the Oman and Aden, where its distinctive colour led to the 'Pink Panther' nickname. In the 1970s, the SAS begin using Range Rovers for covert operations while the Land Rover 110 HCPU became the SAS's new Desert Patrol Vehicle (DPV) in the 1991 Gulf War. This book describes the successful deployment of these combat vehicles in SAS operations from the Second World War to the present day and gives a rare insight into one of the most prestigious and secret forces of modern times.

The Desert Rats Maj.-Gen. G. L. Verney,2017-07-11 The exploits of the Desert Rats, based on official records and personal accounts traces the division’s progress in North Africa, Italy, Normandy and Germany This classic and inspiring account follows the progress of the 7th Armoured Division from the sands of North Africa to the cold of wintery Holland and the mud of a German springtime, providing a unique insight into the workings of a formidable unit. The division’s reputation was born in the desert. It first went into action against the Italians in 1940 and then, subsequently, fought Rommel’s Afrika Korps in Montgomery’s successful Western Desert campaign. It was during this period of intense fighting that the division won its affectionate nickname of ‘Desert Rats’. From there the division was transported to Italy and, later, Normandy and from then on was almost constantly in battle until the end of the war. Based on official records, and written by one of the division’s key officers, The Desert Rats stands testament to the unique morale of the unit and is an enduring story of the difficulties they had to overcome.

A History of Algeria James McDougall,2017-04-24 Covering a period of five hundred years, from the arrival of the Ottomans to the aftermath of the Arab uprisings, James McDougall presents an expansive new account of the modern history of Africa's largest country. Drawing on substantial new scholarship and over a decade of research, McDougall places Algerian society at the centre of the story, tracing the continuities and the resilience of Algeria's people and their cultures through the dramatic changes and crises that have marked the country. Whether examining the emergence of the Ottoman viceroyalty in the early modern Mediterranean, the 130 years of French colonial rule and the revolutionary war of independence, the Third World nation-building of the 1960s and 1970s, or the terrible violence of the 1990s, this book will appeal to a wide variety of readers in African and Middle Eastern history and politics, as well as those concerned with the wider affairs of the Mediterranean.

The Special Operations Executive (SOE) in Burma Richard Duckett,2017-10-30 In the mountains and jungles of occupied Burma during World War II, British special forces launched a series of secret operations, assisted by parts of the Burmese population. The men of the SOE, trained in sabotage and guerrilla warfare, worked in the jungle, deep behind enemy lines, to frustrate the puppet Burmese government of Ba Maw and continue the fight against Hirohito's Japan in a theatre starved of resources. Here, Richard Duckett uses newly declassified documents from the National Archives to reveal for the first time the extent of British special forces' involvement - from the 1941 operations until beyond Burma's independence from the British Empire in 1948. Duckett argues convincingly that 'Operation Character' and 'Operation Billet' - large SOE missions launched in support of General Slim's XIV Army offensive to liberate Burma - rank among the most militarily significant of the SOE's secret missions. Featuring a wealth of photographs and accompanying material never before published, including direct testimony recorded by veterans of the campaign and maps from the SOE files, The SOE in Burma tells a compelling story of courage and struggle in during World War II

Hunting Evil Guy Walters,2010-05-04 Already acclaimed in England as first-rate (The Sunday Times); “a model of meticulous, courageous and path-breaking scholarship(Literary Review); and absorbing and thoroughly gripping... deserves a lasting place among histories of the war.” (The Sunday Telegraph), Hunting Evil is the first complete and definitive account of how the Nazis escaped and were pursued and captured -- or managed to live long lives as fugitives. At the end of the Second World War, an estimated 30,000 Nazi war criminals fled from justice, including some of the highest ranking members of the Nazi Party. Many of them have names that resonate deeply in twentieth-century history -- Eichmann, Mengele, Martin Bormann, and Klaus Barbie -- not just for the monstrosity of their crimes, but also because of the shadowy nature of their post-war existence, holed up in the depths of Latin America, always one step ahead of their pursuers. Aided and abetted by prominent people throughout Europe, they hid in foreboding castles high in the Austrian alps, and were taken in by shady Argentine secret agents. The attempts to bring them to justice are no less dramatic, featuring vengeful Holocaust survivors, inept politicians, and daring plots to kidnap or assassinate the fugitives. In this exhaustively researched and compellingly written work of World War II history and investigative reporting, journalist and novelist Guy Walters gives a comprehensive account of one of the most shocking and important aspects of the war: how the most notorious Nazi war criminals escaped justice, how they were pursued, captured or able to remain free until their natural deaths and how the Nazis were assisted while they were on the run by helpers ranging from a Vatican bishop to a British camel doctor, and even members of Western intelligence services. Based on all new interviews with Nazi hunters and former Nazis and intelligence agents, travels along the actual escape routes, and archival research in Germany, Britain, the United States, Austria, and Italy, Hunting Evil authoritatively debunks much of what has previously been understood about Nazis and Nazi hunters in the post war era, including myths about the alleged “Spider” and “Odessa” escape networks and the surprising truth about the world's most legendary Nazi hunter Simon Wiesenthal. From its haunting chronicle of the monstrous mass murders the Nazis perpetrated and the murky details of their postwar existence to the challenges of hunting them down, Hunting Evil is a monumental work of nonfiction written with the pacing and intrigue of a thriller.

Shadows of the Prophet Douglas S. Farrer,2009-06-05 This is the first in-depth study of the Malay martial art, silat, and the first ethnographic account of the Haqqani Islamic Sufi Order. Drawing on 12 years of research and practice, the author provides a major contribution to the study of Malay culture.

Raiders from the Sea John Lodwick,2018-10-15 The Special Boat Service (SBS) was a small force during World War II, never more than about 300 men. But that did not stop it from inflicting great damage on the enemy. In the Mediterranean arena and in the Aegean, which the Germans controlled after the fall of Greece and Crete, this small commando force kept up a constant campaign of harassment, thus pinning down enemy forces and preventing their joining other fronts. John Lodwick took part in the SBS Mediterranean campaign and writes from personal experience with the panache and verve of the squadron itself.

Stirling's Desert Triumph Gavin Mortimer,2015-04-20 Specially commissioned artwork, archive photographs and expert analysis combine to tell the absorbing story of the SAS's legendary raid on Sidi Haneish at the height of World War II. The night of July 26, 1942 saw one of the most audacious raids of World War II, just as the outcome of that conflict hung in the balance. In North Africa, a convoy of 18 Allied jeeps carrying Special Air Service personnel appeared out of the early-morning darkness and drove onto the Axis landing strip at Sidi Haneish in the Egyptian desert. Within the space of a few savage minutes 18 Axis aircraft were ablaze; a dozen more were damaged and scores of guards lay dead or wounded. The men responsible for the raid then vanished into the night as swiftly as they had arrived, prompting the Germans to dub the enemy leader, David Stirling, 'The Phantom Major'. Featuring full-colour artwork, gripping narrative and incisive analysis, this engaging study recounts the origins, planning, execution and aftermath of the daring raid that made the name of the SAS at the height of World War II.

Colonel Paddy Patrick Marrinan,2013-11-29 The classic story of Blair Mayne, late commanding officer of the first Special Air Service Regiment. He was an Air-Commando, a leader of the most daredevil and dangerous regiment in the British Army - the SAS. The scourge of the Nazis, Hitler ordered that he was to be shot on sight. The personification of Irish courage, he is also still the most de

Veterans Sasha Maslov,2017-05-30 Ichiro Sudan trained to be a kamikaze. Roscoe Brown was a commander in the Tuskegee Airmen, the first African American military aviators. Charin Singh, a farmer from Delhi, spent seven years as a Japanese prisoner of war and was not sent home until four years after the war ended. Uli John lost an arm serving in the German army but ultimately befriended former enemy soldiers as part of a network of veterans—people who fought in the war and know what war really means. These are some of the faces and stories in the remarkable *Veterans*, the outcome of a worldwide project by Sasha Maslov to interview and photograph the last surviving combatants from World War II. Soldiers, support staff, and resistance fighters candidly discuss wartime experiences and their lifelong effects in this unforgettable, intimate record of the end of a cataclysmic chapter in world history and tribute to the members of an indomitable generation. *Veterans* is also a meditation on memory, human struggle, and the passage of time.

Literature after 9/11 Ann Keniston,Jeanne Follansbee Quinn,2013-04-15 Drawing on trauma theory, genre theory, political theory, and theories of postmodernity, space, and temporality, *Literature After 9/11* suggests ways that these often distinct discourses can be recombined and set into dialogue with one another as it explores 9/11's effects on literature and literature's attempts to convey 9/11.

Sheba Slept Here Alan Caillou,2000-06-27 Right after World War II, a large part of the territory belonging to Ethiopia was declared a Reserved Area, under U.N. mandate until its ownership could be formally decided, and supervised by the British. Alan Caillou, still in the British army after serving in North Africa, found himself appointed its Police Commissioner. He became responsible for supervising law and order in a territory including a desert plain, mountains, two small towns, and a railroad line whose boundaries were defined as about 300 miles long and 20 feet wide. This book is the warm and amusing account of his two years there. With affection and understanding, Alan Caillou evokes the charm of this strange land, and its sometimes strange customs. Alan Caillou is an author with a thirst for adventure. During World War II he served with the British Intelligence Corps behind enemy lines in North Africa, was captured by the Italians, and escaped just before his scheduled execution. He then joined the guerillas to fight in Yugoslavia and Italy. After the war, he returned to Africa to become a safari guide. Mr. Caillou now makes his home in Arizona.

The Eyes of the Desert Rats David Syrett,2014-08-19 Made up of members of the Coldstream and Scots Guards, British Yeomanry cavalry regiments, New Zealanders, South Africans, and Indian Army men, the Long Range Desert Group was perhaps the most effective of all the special forces established by the Allies during the Second World War. It was able to go thousands of miles into enemy territory, well-armed and carrying its own supplies of petrol, food and even water to last for weeks at a time - something quite new in military history. Using experience acquired in WWI and inter-war exploration travels, the LRDG thus developed the ability to appear almost anywhere in the desert to carry out almost every type of ground reconnaissance mission possible in desert warfare, exploring and mapping the terrain, transporting agents behind enemy lines or determining the strength and location of enemy forces with an extraordinary degree of accuracy and detail and thus able to verify or hide Ultra intelligence. Equally important were their skills in the art of desert navigation, demonstrated in the outflanking of the enemy during the Allied advance from El Alamein westward to Tunisia, as led by the LRDG. Once it had teamed up with the Special Air Service (SAS), made up of British, Free French, Commonwealth and Jewish Palestinian soldiers, the LRDG perfected the art of irregular mechanized warfare conducted in the rear of the enemy's forces in the desert, attacking enemy installations of all kinds, mining roads, raiding airfields, destroying enemy aircraft on the ground and inflicting losses upon the enemy in inverse proportion to their own remarkably low rate of casualties. Through meticulous research in original archival material, this book thus tells the extraordinary story of how a relatively small number of dedicated men developed the methods and techniques for crossing by motor vehicle the depths of the then unmapped and seemingly impassable great deserts of Egypt and Libya, the Western Desert, during the British Army's North African Campaign of 1940-43. The Long Range Desert Group and the Special Air Service as a matter of course did extraordinary things - the heroic was the commonplace. Their tactics, techniques and remarkable success in desert warfare continue to make them of great interest to the student of military affairs. Likewise, as it seeks to answer how the deep desert can best be used for military purposes, this study is pertinent to today's military operations, perhaps more so than at any time since World War II. ...this study provides fresh insights into the nature of desert warfare, past, present and future... [and] reveals the peculiarities of this warfare often lost to modern armies... a virtual primer, useful to commanders and soldiers alike. At long last this book can find its rightful place in the classroom of military courses and colleges and in the hands of those interested in the intricacies, complexities and problems of military operations in desert regions. From the Foreword to the book by Colonel (Retired) David M. Glantz.

Born of the Desert Malcolm James,2015-03-19 Born of the Desert is a classic account of the early years of the SAS. The Special Air Service was formed in 1941 and quickly earned a reputation for stealth, daring and audacity in the Western Desert Campaign. This elite force utilised the endless expanse of the desert to carry out surprise attacks and hit and run raids behind the Afrika Korps' lines, sowing confusion, fear and consternation. Malcolm James served as Medical Officer with the SAS throughout 1942 and 1943, and Born of the Desert is his atmospheric account of his life in the North African desert, the bitter fighting against Italian and German targets and the forging of a remarkable elite unit. James captures the excitement of this dramatic mode of warfare and brings to life the deadly beauty of the desert, the harsh environment and the strong bonds of comradeship and interdependence which resulted. Born of the Desert was written soon after the events depicted and has an immediacy which places it above other Second World War memoirs. The original text has now been augmented by supplementary notes by David List, and appendices on SAS casualties and awards by David Buxton.

Killing Rommel Steven Pressfield,2008-05-06 A thrilling WWII tale based on the real-life exploits of the Long Range Desert Group, an elite British special forces unit that took on the German Afrika Korps and its legendary commander, Field Marshal Erwin Rommel, the Desert Fox. Autumn 1942. Hitler’s legions have swept across Europe; France has fallen; Churchill and the English are isolated on their island. In North Africa, Rommel and his Panzers have routed the British Eighth Army and stand poised to overrun Egypt, Suez, and the oilfields of the Middle East. With the outcome of the war hanging in the balance, the British hatch a desperate plan—send a small, highly mobile, and heavily armed force behind German lines to strike the blow that will stop the Afrika Korps in its tracks. Narrated from the point of view of a young lieutenant, Killing Rommel brings to life the flair, agility, and daring of this extraordinary secret unit, the Long Range Desert Group. Stealthy and lethal as the scorpion that serves as their insignia, they live by their motto: Non Vi Sed Arte—Not by Strength, by Guile as they gather intelligence, set up ambushes, and execute raids. Killing Rommel chronicles the tactics, weaponry, and specialized skills needed for combat, under extreme desert conditions. And it captures the camaraderie of this “band of brothers” as they perform the acts of courage and cunning crucial to the Allies’ victory in North Africa. Combining scrupulous historical detail and accuracy with remarkable narrative momentum, Pressfield powerfully renders the drama and intensity of warfare, the bonds of men in close combat, and the surprising human emotions and frailties that come into play on the battlefield to create a vivid and authoritative depiction of the desert war.

Behind the Lines Michael F. Dilley,2013-09-30 The array of new technologies that came on the scene in the early 20th century resulted in widely varied new forms of military special operations once civilization embarked on its greatest war. Suddenly, fighting men could be delivered by parachute, submarine, glider, jeeps, and fast amphibious craft deep into enemy territory to perform special tasks; yet others would continue to perform missions the same as their ancestors in previous wars—on foot using stealth, endurance and patience. This work contains discussions of the employment of various special purpose, special mission organizations during World War II. These units operated in Allied and Axis countries and in various theaters of war including Europe, North Africa, the Pacific, Asia, and the continental United States. Representing every major combatant, the operations include various kinds of raids, intelligence gathering missions, support to partisan/guerrilla groups, prisoner rescues, direct-action missions, and at least two where the object was simply to steal something. Some missions would have been officially denied if the operations had been caught in the act. The book is divided into two sections: Behind Enemy Lines and Behind Friendly Lines, to demonstrate that special-purpose organizations can be employed wherever needed, even in areas controlled by military units of their own or allied countries. Many of the units described run the gamut of special mission types, from commando to parachute units, reconnaissance to sabotage units, and partisan training units as well as those with combined missions. Many of the operations described in this book continue to serve as templates for modern Special Operations missions, while still others—the first attempts of their kind—continue to serve as examples of what not to try under the circumstances. Michael F. Dilley served for 20 years in the U.S. Army’s Military Intelligence branch. After retiring from the Army, the author served for about ten years as an employee of the Department of Defense, then as a contractor for various U.S. Government agencies in several fields for 15 years. Author of several books and many articles, a number of these chapters are based on his previous writings for the legendary Behind the Lines magazine.
