Linked Gordon Korman,2021-07-20 An unforgettable novel from the New York Times bestseller Gordon Korman Link, Michael, and Dana live in a quiet town. But it's woken up very quickly when someone sneaks into school and vandalizes it with a swastika. Nobody can believe it. How could such a symbol of hate end up in the middle of their school? Who would do such a thing? Because Michael was the first person to see it, he's the first suspect. Because Link is one of the most popular guys in school, everyone's looking to him to figure it out. And because Dana's the only Jewish girl in the whole town, everyone's treating her more like an outsider than ever. The mystery deepens as more swastikas begin to appear. Some students decide to fight back and start a project to bring people together instead of dividing them further. The closer Link, Michael, and Dana get to the truth, the more there is to face-not just the crimes of the present, but the crimes of the past. With Linked, Gordon Korman, the author of the acclaimed novel Restart, poses a mystery for all readers where the who did it? isn't nearly as important as the why?

The Unteachables Gordon Korman,2019-01-08 A hilarious new middle grade novel from beloved and bestselling author Gordon Korman about what happens when the worst class of kids in school is paired with the worst teacher—perfect for fans of Ms. Bixby’s Last Day. A good choice for summer reading or anytime! The Unteachables are a notorious class of misfits, delinquents, and academic train wrecks. Like Aldo, with anger management issues; Parker, who can’t read; Kiana, who doesn’t even belong in the class—or any class; and Elaine (rhymes with pain). The Unteachables have been removed from the student body and isolated in room 117. Their teacher is Mr. Zachary Kermit, the most burned-out teacher in all of Greenwich. He was once a rising star, but his career was shattered by a cheating scandal that still haunts him. After years of phoning it in, he is finally one year away from early retirement. But the superintendent has his own plans to torpedo that idea—and it involves assigning Mr. Kermit to the Unteachables. The Unteachables never thought they’d find a teacher who had a worse attitude than they did. And Mr. Kermit never thought he would actually care about teaching again. Over the course of a school year, though, room 117 will experience mayhem, destruction—and maybe even a shot at redemption.

The Crane Wife CJ Hauser,2023-06-27 A memoir in essays that expands on the viral sensation “The Crane Wife” with a frank and funny look at love, intimacy, and self in the twenty-first century. From friends and lovers to blood family and chosen family, this “elegant masterpiece” (Roxane Gay, New York Times bestselling author of *Hunger*) asks what more expansive definitions of love might

offer us all. A BEST BOOK OF THE YEAR: TIME, THE GUARDIAN, GARDEN & GUN Hauser builds their life's inventory out of deconstructed personal narratives, resulting in a reading experience that's rich like a complicated dessert—not for wolfing down but for savoring in small bites. —The New York Times “Hauser’s wry, introspective investigation of their assumptions about love will likely free readers to examine their own personal narratives as well ... ‘The rare happy ending I appreciate is one that makes room for the whole painful fact of the world at the same time it offers the reader some joy,’ they write. The Crane Wife embraces this philosophy again and again as Hauser excavates their past loves and losses, thoughtfully examines them and declares the pain of love to be worth the risk.”

—BookPage Ten days after calling off their wedding, CJ Hauser went on an expedition to Texas to study the whooping crane. After a week wading through the gulf, they realized they’d almost signed up to live someone else's life. Hauser releases themselves from traditional narratives of happiness and goes looking for ways of living that leave room for the unexpected, making plenty of mistakes along the way. They kiss Internet strangers and officiates at a wedding. They reread Rebecca in the house their boyfriend once shared with his ex-wife and rewinds Katharine Hepburn in *The Philadelphia Story* to learn how not to lose yourself in a relationship. They think about Florence Nightingale at a robot convention and grief at John Belushi’s rock and roll gravesite, and the difference between those stories we’re asked to hold versus those we choose to carry. Told with the late-night barstool directness of your wisest, most bighearted friend, *The Crane Wife* is a book for everyone whose life doesn't look the way they thought it would; for everyone learning to find joy in the not-knowing; for everyone trying, if sometimes failing, to build a new sort of life story, a new sort of family, a new sort of home, to live in.

The Third Industrial Revolution Jeremy Rifkin, 2011-10-04 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful Third Industrial Revolution. He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an energy internet, just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental

reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. *The Third Industrial Revolution* is an insider's account of the next great economic era, including a look into the personalities and players — heads of state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world.

The Montessori Toddler Simone Davies, 2019-03-19 Announcing that rare parenting book that will not only help you become a more effective parent but actually change how you see your children. Written by Montessori educator Simone Davies, this book shows you how to bring the educational values of a Montessori classroom into your home—while turning the whole idea of the “terrible twos” on its head. Here is how to set up Montessori-friendly spaces in your home. Principles for fostering curiosity in your child—and in yourself. Specific Montessori skills—the winter coat flip; getting your toddler to pour his or her own water and clean up whatever spills might occur. And it goes much deeper, showing how a parent can really be present, be the child’s guide, and handle tantrums and problematic behavior without resorting to bribes, threats, or punishment and truly celebrate every stage. It’s also that rare parenting book that’s beautiful to look at, with a bright, airy design and simple color illustrations and photographs.

Discovering the Brain National Academy of Sciences, Institute of Medicine, Sandra

Ackerman,1992-01-01 The brain ... There is no other part of the human anatomy that is so intriguing. How does it develop and function and why does it sometimes, tragically, degenerate? The answers are complex. In *Discovering the Brain*, science writer Sandra Ackerman cuts through the complexity to bring this vital topic to the public. The 1990s were declared the Decade of the Brain by former President Bush, and the neuroscience community responded with a host of new investigations and conferences. *Discovering the Brain* is based on the Institute of Medicine conference, Decade of the Brain: Frontiers in Neuroscience and Brain Research. *Discovering the Brain* is a field guide to the brain—an easy-to-read discussion of the brain's physical structure and where functions such as language and music appreciation lie. Ackerman examines: How electrical and chemical signals are conveyed in the brain. The mechanisms by which we see, hear, think, and pay attention—and how a gut feeling actually originates in the brain. Learning and memory retention, including parallels to computer memory and what they might tell us about our own mental capacity. Development of the brain throughout the life span, with a look at the aging brain. Ackerman provides an enlightening chapter on the connection between the brain's physical condition and various mental disorders and notes what progress can realistically be made toward the prevention and treatment of stroke and other ailments. Finally, she explores the potential for major advances during the Decade of the Brain, with a look at medical imaging techniques—what various technologies can and cannot tell us—and how the public and private sectors can contribute to continued advances in neuroscience. This highly readable volume will provide the public and policymakers—and many scientists as well—with a helpful guide to understanding the many discoveries that are sure to be announced throughout the Decade of the Brain.

Overloaded and Underprepared Denise Pope, Maureen Brown, Sarah Miles, 2015-07-27 Praise for *Overloaded and Underprepared* “Parents, teachers, and administrators are all concerned that America’s kids are stressed out, checked out, or both—but many have no idea where to begin when it comes to solving the problem. That’s why the work of Challenge Success is so urgent. It has created a model for creating change in our schools that is based on research and solid foundational principles like communication, creativity, and compassion. If your community wants to build better schools and a brighter future, this book is the place to start.” —Daniel H. Pink, author of *Drive* and *A Whole New Mind* “Challenge Success synthesizes the research on effective school practices and offers concrete tools and strategies that educators and parents can use immediately to make a difference in their communities. By focusing on the day-to-day necessities of a healthy schedule; an engaging,

personalized, and rigorous curriculum; and a caring climate, this book is an invaluable resource for school leaders, teachers, parents, and students to help them design learning communities where every student feels a sense of belonging, purpose, and motivation to learn the skills necessary to succeed now and in the future.” —Linda Darling-Hammond, Charles E. Ducommun Professor of Education, Stanford University “Finally, a book about education and student well-being that is both research-based and eminently readable. With all the worry about student stress and academic engagement, Pope, Brown and Miles gently remind us that there is much we already know about how to create better schools and healthier kids. Citing evidence-based ‘best practices’ gleaned from years of work with schools across the country, they show us what is not working, but more importantly, what we need to do to fix things. Filled with practical suggestions and exercises that can be implemented easily, as well as advice on how to approach long-term change, *Overloaded and Underprepared* is a clear and compelling roadmap for teachers, school administrators and parents who believe that we owe our children a better education.” —Madeline Levine, co-founder Challenge Success; author of *The Price of Privilege* and *Teach Your Children Well* “This new book from the leaders behind Challenge Success provides a thorough and balanced exploration of the structural challenges facing students, parents, educators, and administrators in our primary and secondary schools today. The authors’ unique approach of sharing proven strategies that enable students to thrive, while recognizing that the most effective solutions are tailored on a school-by-school basis, makes for a valuable handbook for anyone seeking to better understand the many complex dimensions at work in a successful learning environment.” —John J. DeGioia, President of Georgetown University

Farther Away Jonathan Franzen,2012-04-24 Jonathan Franzen's *Freedom* was the runaway most-discussed novel of 2010, an ambitious and searching engagement with life in America in the twenty-first century. In *The New York Times Book Review*, Sam Tanenhaus proclaimed it a masterpiece of American fiction and lauded its illumination, through the steady radiance of its author's profound moral intelligence, [of] the world we thought we knew. In *Farther Away*, which gathers together essays and speeches written mostly in the past five years, Franzen returns with renewed vigor to the themes, both human and literary, that have long preoccupied him. Whether recounting his violent encounter with bird poachers in Cyprus, examining his mixed feelings about the suicide of his friend and rival David Foster Wallace, or offering a moving and witty take on the ways that technology has changed how people express their love, these pieces deliver on Franzen's implicit promise to conceal nothing. On a trip to

China to see first-hand the environmental devastation there, he doesn't omit mention of his excitement and awe at the pace of China's economic development; the trip becomes a journey out of his own prejudice and moral condemnation. Taken together, these essays trace the progress of unique and mature mind wrestling with itself, with literature, and with some of the most important issues of our day. *Farther Away* is remarkable, provocative, and necessary.

Invisible Child Andrea Elliott, 2021-10-05 PULITZER PRIZE WINNER • A “vivid and devastating” (The New York Times) portrait of an indomitable girl—from acclaimed journalist Andrea Elliott “From its first indelible pages to its rich and startling conclusion, *Invisible Child* had me, by turns, stricken, inspired, outraged, illuminated, in tears, and hungering for reimmersion in its Dickensian depths.”—Ayad Akhtar, author of *Homeland Elegies* ONE OF THE TEN BEST BOOKS OF THE YEAR: The New York Times • ONE OF THE BEST BOOKS OF THE YEAR: The Atlantic, The New York Times Book Review, Time, NPR, Library Journal In *Invisible Child*, Pulitzer Prize winner Andrea Elliott follows eight dramatic years in the life of Dasani, a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. In this sweeping narrative, Elliott weaves the story of Dasani’s childhood with the history of her ancestors, tracing their passage from slavery to the Great Migration north. As Dasani comes of age, New York City’s homeless crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. Out on the street, Dasani becomes a fierce fighter “to protect those who I love.” When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? A work of luminous and riveting prose, Elliott’s *Invisible Child* reads like a page-turning novel. It is an astonishing story about the power of resilience, the importance of family and the cost of inequality—told through the crucible of one remarkable girl. Winner of the J. Anthony Lukas Book Prize • Finalist for the Bernstein Award and the PEN/John Kenneth Galbraith Award
