Capitalism From Within David L. Howell, 2018-05-04 Japan's stunning metamorphosis from an isolated feudal regime to a major industrial power over the course of the nineteenth and early twentieth centuries has long fascinated and vexed historians. In this study, David L. Howell looks beyond the institutional and technological changes that followed Japan's reopening to the West to probe the indigenous origins of Japanese capitalism.

Kidding Around Hilary Bradt, James Lowen, 2019-10-24 Becoming a parent need to not put an end to wanderlust. That's the message in this new anthology from Bradt, the latest in a series of collections of real-life tales focusing on different aspects of travel. With contributions from a range of both well-known, professional travel writers and newer writers from the UK and North America, this engaging and entertaining compilation of 37 stories lifts the lid on the perils and joys of travelling with babies, toddlers and teenagers in locations spanning five continents. Contributors include renowned travel writer Dervla Murphy, National Geographic Traveller Editorial Director Maria Pieri, multi-award winning authors Adrian Phillips and Mike Unwin, and nature writers Amy-Jane Beer and Nicola Chester to name just a few. Potentially life-threatening situations, confessions of inept parenting and celebrations of derring-do are all part of the mix. There's plenty of adventurous travel, from trekking with toddlers in the Himalayas to sailing en famille across the Atlantic Ocean and the first circumnavigation of Mauritius by bicycle. Read how one mother threatens to dump her baby on jobsworth airport officials, how a father inadvertently takes his daughters to a brothel, and how one family turned up six hours early for a flight. and still managed to miss it. Join families paddling with crocodiles and getting their jeep stuck on a beach as the tide is coming in, or eleven-month-old Rory as he eats alongside marine iguanas and three-year-old Quin who befriends a family of cockroaches. At times comical, hair-raising or just plain fun, there are also magical moments with wild creatures or in wild places. For anyone who has ever travelled with children, or wondered what it must be like to head out into the unknown with little ones in tow, this is a captivating read.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Wild Women Mariella Frostrup, 2022-12-08 A collection of the greatest women's travel writing selected by journalist and presenter Mariella Frostrup. From Constantinople to Crimea; from Antarctica to the Andes. Throughout history adventurous women have made epic, record-breaking journeys under perilous circumstances. Whether escaping constricted societies back home or propelled by a desire for independence, footloose females have ventured to the four corners of the earth and recorded their exploits for posterity. For too long their triumphs have been overshadowed by those of their male counterparts, whose honourable failures make bigger news. In curating this collection of first-hand accounts, broadcaster, writer and traveller Mariella Frostrup puts female explorers back on the map. Her selection includes explorers from the 1700s to the present day, from iconic heroines to lesser-known eccentrics, celebrating 300 years of wild women and their amazing adventures over land, sea and air. Reviews for *Wild Women*: 'A stirring whistle-stop tour, led by women who often risked disapproval in leaving home to roam the world' *Vanity Fair* 'Like any

good travel book, Wild Women succeeds in casting the reader's mind off on journeys of its own, inspiring fresh plans and what the Germans call Fernweh, or a longing for faraway places' TLS 'Required reading for anyone who assumed that 'the road less travelled' was a solely masculine preserve' Sunday Independent

Conquer the Crash Robert R. Prechter, Jr.,2009-11-20 Today's financial and economic tribulations were a long time in the making. Many people ask, Why didn't someone see it coming? A New York Times bestselling book did see it coming. Over 100,000 people read it in time to protect their wealth. The book foresaw and explained the collapse in home prices, plunge in stocks, subprime debacle, liquidity crisis, the demise of Fannie and Freddie, the Federal Reserve's failure to turn the trend, and lots more. The book was Robert Prechter's Conquer the Crash, published in early 2002, when the Dow was above 10,000 and the financial world was partying around-the-clock. Fast forward to today: the average U.S. homeowner has suffered a decline of 30% to 40% in property value. Stocks and commodities had their biggest fall since 1929-1932. Fannie Mae is a zombie corporation under the government's protection. The Fed has pushed every button at its disposal (and then some), to no avail. If Prechter thought a whole new book would help, he'd have written one. But Conquer the Crash is a book-length forecast that's still coming true -- only some of the future has caught up with the specific predictions he published back then. There is much more to come. That means more danger, but also great opportunity. Conquer the Crash, 2nd edition offers you 188 new pages of vital information (480 pages total) plus all the original forecasts and recommendations that make the book more compelling and relevant than the day it published. In every disaster, only a very few people prepare themselves beforehand. Think about investor enthusiasm in 2005-2008, and you'll realize it's true. Even fewer people will be ready for the soon-approaching, next leg down of the unfolding depression. In this 2nd edition, Prechter gives a warning he's never had to include in 30 years of publishing -- namely, that the doors to financial safety are closing all over the world. In other words, prudent people need to act while they can. Conquer the Crash, 2nd Edition readers will receive exclusive online access to the Conquer the Crash Readers Page, where Prechter continually updates the book's recommended services and institutions.

Notes from the Hyena's Belly Nega Mezlekia,2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, Notes from the Hyena's Belly offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

The Tokugawa World Gary P. Leupp,De-min Tao,2021-09-20 With over 60 contributions, The Tokugawa World presents the latest scholarship on early modern Japan from an international team of specialists in a volume that is unmatched in its breadth and scope. In its early modern period, under the Tokugawa shoguns, Japan was a world apart. For over two centuries the shogun's subjects were forbidden to travel abroad and few outsiders were admitted. Yet in this period, Japan evolved as a nascent capitalist society that could rapidly adjust to its incorporation into the world

system after its forced opening in the 1850s. The Tokugawa World demonstrates how Japan's early modern society took shape and evolved: a world of low and high cultures, comic books and Confucian academies, soba restaurants and imperial music recitals, rigid enforcement of social hierarchy yet also ongoing resistance to class oppression. A world of outcasts, puppeteers, herbal doctors, samurai officials, businesswomen, scientists, scholars, blind lutenists, peasant rebels, tea-masters, sumo wrestlers, and wage workers. Covering a variety of features of the Tokugawa world including the physical landscape, economy, art and literature, religion and thought, and education and science, this volume is essential reading for all students and scholars of early modern Japan.
