*Tank Hunter* Craig Moore,2017-11-08 The First World War's fierce battles saw the need to develop military technology beyond anything previously imagined: as exposed infantry and cavalry were mowed down by relentless machine-gun attacks, so tanks were developed. Here author Craig Moore presents every First World War tank, from the prototype 'Little Willie', through the French heavy tanks to the German light tank. He gives a focused history of the development of this game-changing vehicle and the engagements it was used in – vital battles such as the Somme and Cambrai. Stunningly illustrated in full colour throughout, *Tank Hunter: World War One* provides historical background, facts and figures for each First World War tank as well as the locations of any surviving examples, giving you the opportunity to become a Tank Hunter yourself.

The Leatherback Turtle James R. Spotila,Pilar Santidrián Tomillo,2015-10-30 The most comprehensive book ever written on leatherback sea turtles. Weighing as much as 2,000 pounds and reaching lengths of over seven feet, leatherback turtles are the world's largest reptile. These unusual sea turtles have a thick, pliable shell that helps them to withstand great depths—they can swim more than one thousand meters below the surface in search of food. And what food source sustains these goliaths? Their diet consists almost exclusively of jellyfish, a meal they crisscross the oceans to find. Leatherbacks have been declining in recent decades, and some predict they will be gone by the end of this century. Why? Because of two primary factors: human redevelopment of nesting beaches and commercial fishing. There are only twenty-nine index beaches in the world where these turtles nest, and there is immense pressure to develop most of them into homes or resorts. At the same time, longline and gill net fisheries continue to overwhelm waters frequented by leatherbacks. In *The Leatherback Turtle*, James R. Spotila and Pilar Santidrián Tomillo bring together the world's leading experts to produce a volume that reveals the biology of the leatherback while putting a spotlight on the conservation problems and solutions related to the species. The book leaves us with options: embark on the conservation strategy laid out within its pages and save one of nature's most splendid creations, or watch yet another magnificent species disappear.

Tracking and Disrupting the Illicit Antiquities Trade with Open Source Data Matthew Sargent,James V. Marrone,Alexandra T. Evans,Bilyana Lilly,Erik Nemeth,Stephen Dalzell,2020-05-12 The illicit antiquities market is fueled by a well-documented rise in looting at archaeological sites and a fear that the proceeds of such looting may be financing terrorism or rogue states. In this report, the authors compile evidence from numerous open sources to outline the major policy-relevant characteristics of that market and to propose the way forward for developing policies intended to disrupt illicit networks.

**Migration and Remittances During the Global Financial Crisis and Beyond** Ibrahim Sirkeci,Jeffrey H. Cohen,Dilip Ratha,2012-05-30 During the 2008 financial crisis, the possible changes in remittance-sending behavior and potential avenues to alleviate a probable decline in remittance flows became concerns. This book brings together a wide array of studies from around the world focusing on the recent trends in remittance flows. The authors have gathered a select group of researchers from academic, practitioner and policy making bodies. Thus the book can be seen as a conversation between the different stakeholders involved in or affected by remittance flows globally. The book is a first-of-its-kind attempt to analyze the effects of an ongoing crisis on remittance flows globally. Data analyzed by the book reveals three trends. First, The more diversified the destinations and the labour markets for migrants the more resilient are the remittances sent by migrants. Second, the lower the barriers to labor mobility, the stronger the link between remittances and economic cycles in that corridor. And third, as remittances proved to be relatively resilient in comparison to private capital flows, many remittance-dependent countries became even more dependent on remittance inflows for meeting external financing needs. There are several reasons for migration and remittances to be relatively resilient to the crisis. First, remittances are sent by the stock (cumulative flows) of migrants, not only by the recent arrivals (in fact, recent arrivals often do not remit as regularly as they must establish themselves

in their new homes). Second, contrary to expectations, return migration did not take place as expected even as the financial crisis reduced employment opportunities in the US and Europe. Third, in addition to the persistence of migrant stocks that lent persistence to remittance flows, existing migrants often absorbed income shocks and continued to send money home. Fourth, if some migrants did return or had the intention to return, they tended to take their savings back to their country of origin. Finally, exchange rate movements during the crisis caused unexpected changes in remittance behavior: as local currencies of many remittance recipient countries depreciated sharply against the US dollar, they produced a “sale” effect on remittance behavior of migrants in the US and other destination countries.

*Walled Up to Heaven* Aaron Burke, 2018-07-17 As the first comprehensive study of fortification systems and defensive strategies in the Levant during the Middle Bronze Age (ca. 1900 to 1500 B.C.E.), this book is an indispensable contribution to the study of early warfare in the ancient Near East.

**Migration and Islamic Ethics**, 2019-11-11 Migration and Islamic Ethics, Issues of Residence, Naturalization and Citizenship addresses how Islamic ethical and legal traditions can contribute to current global debates on migration and displacement; how Islamic ethics of mu’akha, ḍiyāfa, ijāra, amān, jiwār, sutra, kafāla, among others, may provide common ethical grounds for a new paradigm of social and political virtues applicable to all humanity, not only Muslims. The present volume more broadly defines the Islamic tradition to cover not only theology but also to encompass ethics, customs and social norms, as well as modern political, humanitarian and rights discourses. The first section addresses theorizations and conceptualizations using contemporary Islamic examples, mainly in the treatment of asylum-seekers and refugees; the second, contains empirical analyses of contemporary case studies; the third provides historical accounts of Muslim migratory experiences. Contributors are: Abbas Barzegar, Abdul Jaleel, Dina Taha, Khalid Abou El Fadl, Mettursun Beydulla, Radhika Kanchana, Ray Jureidini, Rebecca Gould, Said Fares Hassan, Sari Hanafi, Tahir Zaman.

**The Business Year: Dubai 2020** Peter Howson, 2020—the turn of decade, the intended year of Expo, and the eve of the UAE's 50th anniversary—is indeed an opportune time. Even as shockwaves from a truly unexpected disruption, known colloquially as coronavirus and officially COVID-19, resonate around the world, Dubai's diversification as well as its orientation toward innovation will undoubtedly help the Emirate lead the way through a challenging time. The Business Year's country-specific publications, sometimes featuring over 150 face-to-face interviews, are among the most comprehensive annual economic publications available internationally. This 244-page publication covers green economy, banking, capital markets, insurance, energy, industry, telecoms and IT, transport and logistics, maritime, real estate, construction, health, education, and tourism.

**Plastics in the Aquatic Environment - Part I** Friederike Stock, Georg Reifferscheid, Nicole Brennholt, Evgeniia Kostianaia, 2021-10-29 This book offers a comprehensive review of how plastic pollution is affecting fresh and marine waters, and what the current challenges in plastic waste assessment and management in the aquatic environment are. Plastic waste comprises particles with heterogeneous physicochemical properties such as large size-range, different shapes and polymer types with various additives determining their environmental fate and risk. This complexity raises several open research questions which are explored in this book. Examples are the plastic uptake by aquatic organisms, degradation processes as well as sources and sinks in the environment. Readers will discover real case studies of plastic pollution detection and management in different parts of the world, including Asia, America and Europe, which provide an integrated overview of the global scope of this issue. This book and the companion volume *Plastics in the Aquatic Environment - Part II: Stakeholders' Role Against Pollution* are valuable resources to students, researchers, policymakers and environmental managers interested in plastic pollution and working towards its reduction.

**Social Media in Politics** Bogdan Pătruț, Monica Pătruț, 2014-05-05 This volume sets out to analyse the relation between social media and politics by investigating the power of the internet and more specifically social media, in the political and social discourse. The volume collects original research on the use of social media in political campaigns, electoral marketing, riots and social revolutions, presenting a range of case studies from across the world as well as theoretical and methodological contributions. Examples that explore the use of social media in electoral campaigns include, for instance, studies on the use of Face book in the 2012 US presidential campaign and in the 2011 Turkish general elections. The final section of the book debates the usage of Twitter and other Web 2.0 tools in mobilizing people for riots and revolutions, presenting and analysing recent events in Istanbul and Egypt, among others.

**Your Sons Are at Your Service** Aaron Y. Zelin, 2020-02-11 Tunisia became one of the largest sources of foreign fighters for the Islamic State—even though the country stands out as a democratic bright spot of the Arab uprisings and despite the fact that it had very little history of terrorist violence within its borders prior to 2011. In *Your Sons Are at Your Service*, Aaron Y. Zelin uncovers the longer history of Tunisian involvement in the jihadi movement and offers an in-depth examination of the reasons why so many Tunisians became drawn to jihadism following the 2011 revolution. Zelin highlights the longer-term causes that affected jihadi recruitment in Tunisia, including the prior history of Tunisians joining jihadi organizations and playing key roles in far-flung parts of the world over the past four decades. He contends that the jihadi group Ansar al-Sharia in Tunisia was able to take advantage of the universal prisoner amnesty, increased openness, and the lack of governmental policy toward it after the revolution. In turn, this provided space for greater recruitment and subsequent mobilization to fight abroad once the Tunisian government cracked down on the group in 2013. Zelin marshals cutting-edge empirical findings, extensive primary source research, and on-the-ground fieldwork, including a variety of documents in Arabic going as far back as the 1980s and interviews with Ansar al-Sharia members and Tunisian fighters returning from Syria. The first book on the history of the Tunisian jihadi movement, *Your Sons Are at Your Service* is a meticulously researched account that challenges simplified views of jihadism's appeal and success.

**Migration and Remittances** John Connell, Richard P. C. Brown, 2015 In this title, the editors draw together key articles by leading scholars which investigate the significance and role of remittances in economic and social development. They examine topics including reflections on methodology, the motives and determinants of remittances, their socio-economic impacts (especially at the household level), the role of community organisations and social remittances, and the broad social and cultural impacts of remittances. Special attention is given to small island and Central Asian states, where remittances are of particular significance. The collection traces the recent historical evolution of remittances and concludes with an examination of policy implications in both sending and receiving countries.

*The Indo-Aryan Controversy* Edwin Francis Bryant, Edwin Bryant, Laurie L. Patton, 2005 The articles in this survey of the Indo-Aryan controversy address questions such as: are the Indo-Aryans insiders or outsiders?

**Places of Memory and Legacies in an Age of Insecurities and Globalization** Gerry O'Reilly, 2020-12-03 In this book, practitioners and students discover perspectives on landscape, place, heritage, memory, emotions and geopolitics intertwined in evolving citizenship and democratization debates. This volume shows how memorialization can contribute to wider inclusive interpretations of history, tourism and human rights promoted by the European Project. It's geographies of memories can foster cooperation as witnessed throughout Europe during the 2014-18 WWI commemorations. Due to new world orders, geopolitical reconfigurations and ideals that emerged after 1918, many countries ranging from the Baltic and Russia to the Balkans, Turkey and Greece, eastern and central Europe to Ireland are continuing with commemorations regarding their specific memories in the wider Europe. Shared memorial spaces can act in post conflict areas as sites of reconciliation; nonetheless 'the peace' cannot be taken for granted with insecurities, globalization, and nationalisms in the USA and Russia; the UK's Brexit stress and populist movements in Western Europe, Visegrád and Balkan countries. Citizen-fatigue is reflected in socio-political malaise mirrored in France's Yellow Vest movement and elsewhere. Empathy with other peoples' places of memory can assist citizens learn from the past. Memory sites promoted by the EU, Council of Europe and UNESCO may tend to homogenize local memories; nevertheless, they act as vectors in memorialization, stimulating debate and re-evaluating narratives. This textbook combines geographical, inter-cultural and inter-disciplinary approaches and perspectives on spaces of memory by a range of authors from different countries and traditions offers the reader diverse and holistic perspectives on cultural geography, dynamic geopolitics, globalization and citizenship.
