*Reusability of Facemasks During an Influenza Pandemic* Institute of Medicine,Board on Health Sciences Policy,Committee on the Development of Reusable Facemasks for Use During an Influenza Pandemic,2006-08-24 Any strategy to cope with an influenza pandemic must be based on the knowledge and tools that are available at the time an epidemic may occur. In the near term, when we lack an adequate supply of vaccine and antiviral medication, strategies that rely on social distancing and physical barriers will be relatively more prominent as means to prevent spread of disease. The use of respirators and facemasks is one key part of a larger strategy to establish barriers and increase distance between infected and uninfected individuals. Respirators and facemasks may have a role in both clinical care and community settings. Reusability of Facemasks During an Influenza Pandemic: Facing the Flu answers a specific question about the role of respirators and facemasks to reduce the spread of flu: Can respirators and facemasks that are designed to be disposable be reused safely and effectively? The committee-assisted by outstanding staff-worked intensively to review the pertinent literature; consult with manufacturers, researchers, and medical specialists; and apply their expert judgment. This report offers findings and recommendations based on the evidence, pointing to actions that are appropriate now and to lines of research that can better inform future decisions.

Each miniature book faithfully reproduces its title painting on the front cover, and is packaged in a handsome slipcase that doubles as a picture frame. The frame can stand up on a desk or tabletop or be hung on the wall to display the book cover's striking painting. A final two-page spread presents a timeline capsule biography that lists significant events in the painter's life. Van Gogh--Starry Night shows and discusses Vincent Van Gogh's masterpiece, which is a mystically glowing nighttime landscape, and ranks today as one of the artist's most popular and beloved paintings.

**How to Make Tiny Paper Mache Dogs** Jonni Good, 2014-05 The author makes it easy for you to create a tiny paper mache dog of your own. You only need a few basic tools and some materials that you may already have lying around the house. The only thing you may need to purchase is a few feet of aluminum wire for the armature -- or use some wire you already have on hand. First, choose a pattern from the 27 breeds included in the book. Then build your armature by bending the wires, using the pattern for a guide. This makes sure that your finished sculpture will have the right proportions for your breed. Add a few bits of crumpled aluminum foil to round out the forms, with the pattern guiding you, and then twist and bend your little dog into any position you desire. With these simple steps it's easy to create a lively original sculpture of your own design. When your armature is finished, the author shows you how to make the two layers of paper mache as smooth as you want it to be. You can add wrinkles, fur, happy mouths and other details after the paper mache is dry. If you would like to paint your dog, you can use the author's recipe for an inexpensive home-made gesso to add interesting textures. Then the author gives you suggestions for painting your sculpture, including an easy way to paint brindled spots, how to give an all-white dog an interesting coat, how to emphasize heavily-textured fur with acrylic glazing liquid, and more. The author is a well-known paper mache artist who has written several popular books on the subject. She also writes tutorials

and creates videos for her blog, at UltimatePaperMache.com.
