Mary Frances Coady

Feed M.T. Anderson,2012-07-17 Identity crises, consumerism, and star-crossed teenage love in a futuristic society where people connect to the Internet via feeds implanted in their brains. This new edition contains new back matter and a refreshed cover. A National Book Award finalist.

Understanding Media Marshall McLuhan,2016-09-04 When first published, Marshall McLuhan's *Understanding Media* made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

Artificial Hells Claire Bishop,2012-07-24 Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as social practice. Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Paweł Althamer and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

The Strange Case of Origami Yoda (Origami Yoda #1) Tom Angleberger,2012-08-07 In this funny, uncannily wise portrait of the dynamics of a sixth-grade class and of the greatness that sometimes comes in unlikely packages, Dwight, a loser, talks to his classmates via an origami finger puppet of Yoda. If that weren't strange enough, the puppet is uncannily wise and prescient. Origami Yoda predicts the date of a pop quiz, guesses who stole the classroom Shakespeare bust, and saves a classmate from popularity-crushing embarrassment with some well-timed advice. Dwight's classmate Tommy wonders how Yoda can be so smart when Dwight himself is so clueless. With contributions from his puzzled classmates, Tommy assembles this first case file in the blockbuster bestselling Origami Yoda series, written by Tom Angleberger, author of *Star Wars: Return of the Jedi: Beware the Power of the Dark Side*, and hailed by *School Library Journal* as "honest, funny, and immensely entertaining." F&P Level: T F&P Genre: RF

Done to Death Andrew Foley,2011-10-04 Fed up with receiving poorly-written Twilight knockoffs, editor Shannon Wade did what any reasonable person would: she started killing the worst of the would-be authors sending them to her! Meanwhile, a stuttering, overweight vampire has targeted those who portray vampires in a light he deems unrealistic. Not exactly novel but terribly graphic, *Done To Death* follows Andy and Shannon's paths towards a collision as darkly funny as it is ridiculously violent.

White Night Jim Butcher,2008-02-05 Wizard Harry Dresden must investigate his own flesh and blood when a series of killings strike Chicago's magic practitioners in this novel in the #1 New York Times bestselling series. Someone is targeting the members of the city's supernatural underclass—those who don't possess enough power to become full-fledged wizards. Some have vanished. Others appear to be victims of suicide. But now the culprit has left a calling card at one of the crime scenes—a message for Harry Dresden. Harry sets out to find the apparent serial killer, but his investigation turns up evidence pointing to the one suspect he cannot possibly believe guilty: his half-brother, Thomas. To clear his brother's name, Harry rushes into a supernatural power struggle that renders him outnumbered, outclassed, and dangerously susceptible to temptation. And Harry knows that if he screws this one up, people will die—and one of them will be his brother...

Pattern Recognition William Gibson,2004-06-24 'Part-detective story, part-cultural snapshot . . . all bound by Gibson's pin-sharp prose' *Arena* ----- THE FIRST NOVEL IN THE BLUE ANT TRILOGY - READ ZERO HISTORY AND SPOOK COUNTRY FOR MORE Cayce Pollard has a new job. She's been offered a special project: track down the makers of an addictive online film that's lighting up the internet. Hunting the source will take her to Tokyo and Moscow and put her in the sights of Japanese hackers and Russian Mafia. She's up against those who want to control the film, to own it - who figure breaking the law is just another business strategy. The kind of people who relish turning the hunter into the hunted . . . A gripping spy thriller by William Gibson, bestselling author of *Neuromancer*. Part prophesy, part satire, *Pattern Recognition* skewers the absurdity of modern life with the lightest and most engaging of touches. Readers of Neal Stephenson, Ray Bradbury and Iain M. Banks won't be able to put this book down. ----- 'Fast, witty and cleverly politicized' *Guardian* 'A big

novel, full of bold ideas . . . races along like an expert thriller' GQ 'Dangerously hip. Its dialogue and characterization will amaze you. A wonderfully detailed, reckless journey of espionage and lies' USA Today 'A compelling, humane story with a sympathetic heroine searching for meaning and consolation in a post-everything world' Daily Telegraph 'Electric, profound. Gibson's descriptions of Tokyo, Russia and London are surreally spot-on' Financial Times

Alphabeasts Wallace Edwards,2008-08-01 From the weird and wonderful imagination of an amazing new artist comes an alphabet book like no other. Kids will delight in discovering animals from A to Z living together in an old Victorian mansion. They'll meet an elephant in the ballroom playing with a model train, an octopus hanging from the foyer chandelier --- and even a zebra enjoying a soak in the bathtub! Using watercolours and colored pencils, Wallace Edwards has created a bizarre and luxurious world, rich in texture and detail. An engaging mix of art and alphabet book, Alphabeasts provides the basis for hours of animated discussion and quiet contemplation.

Building Web Reputation Systems Randy Farmer,Bryce Glass,2010-03-04 What do Amazon's product reviews, eBay's feedback score system, Slashdot's Karma System, and Xbox Live's Achievements have in common? They're all examples of successful reputation systems that enable consumer websites to manage and present user contributions most effectively. This book shows you how to design and develop reputation systems for your own sites or web applications, written by experts who have designed web communities for Yahoo! and other prominent sites. Building Web Reputation Systems helps you ask the hard questions about these underlying mechanisms, and why they're critical for any organization that draws from or depends on user-generated content. It's a must-have for system architects, product managers, community support staff, and UI designers. Scale your reputation system to handle an overwhelming inflow of user contributions Determine the quality of contributions, and learn why some are more useful than others Become familiar with different models that encourage first-class contributions Discover tricks of moderation and how to stamp out the worst contributions quickly and efficiently Engage contributors and reward them in a way that gets them to return Examine a case study based on actual reputation deployments at industry-leading social sites, including Yahoo!, Flickr, and eBay

Reality Hunger David Shields,2010-02-23 A landmark book, “brilliant, thoughtful” (The Atlantic) and “raw and gorgeous” (LA Times), that fast-forwards the discussion of the central artistic issues of our time, from the bestselling author of The Thing About Life Is That One Day You'll Be Dead. Who owns ideas? How clear is the distinction between fiction and nonfiction? Has the velocity of digital culture rendered traditional modes obsolete? Exploring these and related questions, Shields orchestrates a chorus of voices, past and present, to reframe debates about the veracity of memoir and the relevance of the novel. He argues that our culture is obsessed with “reality,” precisely because we experience hardly any, and urgently calls for new forms that embody and convey the fractured nature of contemporary experience.

With Bound Hands Mary Frances Coady,2003 The true story of a renowned Jesuit priest's spiritual transformation while living in Nazi captivity.

Comics and Stuff Henry Jenkins,2020-04-14 Considers how comics display our everyday stuff—junk drawers, bookshelves, attics—as a way into understanding how we represent ourselves now For most of their history, comics were widely understood as disposable—you read them and discarded them, and the pulp paper they were printed on decomposed over time. Today, comic books have been rebranded as graphic novels—clothbound high-gloss volumes that can be purchased in bookstores, checked out of libraries, and displayed proudly on bookshelves. They are reviewed by serious critics and studied in university classrooms. A medium once considered trash has been transformed into a respectable, if not elite, genre. While the American comics of the past were about hyperbolic battles between good and evil, most of today’s graphic novels focus on everyday personal experiences. Contemporary culture is awash with stuff. They give vivid expression to a culture preoccupied with the processes of circulation and appraisal, accumulation and possession. By design, comics encourage the reader to scan the landscape, to pay attention to the physical objects that fill our lives and constitute our familiar surroundings. Because comics take place in a completely fabricated world, everything is there intentionally. Comics are stuff; comics tell stories about stuff; and they display stuff. When we use the phrase “and stuff” in everyday speech, we often mean something vague, something like “etcetera.” In this book, stuff refers not only to physical objects, but also to the emotions, sentimental attachments, and nostalgic longings that we express—or hold at bay—through our relationships with stuff. In Comics and Stuff, his first solo authored book in over a decade, pioneering media scholar Henry Jenkins moves through anthropology, material culture, literary criticism, and art history to resituate comics in the cultural landscape. Through over one hundred full-color illustrations, using close readings of contemporary graphic novels, Jenkins explores how comics depict stuff and exposes the central role that stuff plays in how we curate our identities, sustain memory, and make meaning. Comics and Stuff presents an innovative new way of thinking about comics and graphic novels that will change how we think about our stuff and ourselves.

G is for One Gzonk! Tony DiTerlizzi,2006 'A twenty-six letter menagerie!'

Avengers Kurt Busiek,George Perez,2004-10 Superman, Batman, and the other members of the JLA join forces with Captain America, Iron Man, and the many other Avengers to fight a threat so immense it threatens two entire dimensions. Features introductions by Stan Lee and Julie Schwartz as well as a cover gallery by George Pérez and Tom Smith.

The Girls' Guide to Rocking Jessica Hopper,2009-06-04 Everything you need to know to turn your love of music--and desire to play it--into something real--P. [4] of cover.

As If By Design Edward A. Wasserman,2021-07-22 The eureka moment is a myth. It is an altogether naïve and fanciful account of human progress. Innovations emerge from a much less mysterious combination of historical, circumstantial, and accidental influences. This book explores the origin and evolution of several important behavioral innovations including the high five, the Heimlich maneuver, the butterfly stroke, the moonwalk, and the Iowa caucus. Such creations' striking suitability to the situation and the moment appear ingeniously designed with foresight. However, more often than not, they actually arise 'as if by design.' Based on investigations into the histories of a wide range of innovations, Edward A. Wasserman reveals the nature of behavioral creativity. What surfaces is a fascinating web of causation involving three main factors: context, consequence, and coincidence. Focusing on the process rather than the product of innovation elevates behavior to the very center of the creative human endeavor.

Laura Lamont's Life in Pictures Emma Straub,2012-09-04 A Bookpage Best Books of 2012 pick The enchanting story of a midwestern girl who escapes a family tragedy and is remade as a movie star during Hollywood's golden age. In 1920, Elsa Emerson, the youngest and blondest of three sisters, is born in idyllic Door County, Wisconsin. Her family owns the Cherry County Playhouse, and more than anything, Elsa relishes appearing onstage, where she soaks up the approval of her father and the embrace of the audience. But when tragedy strikes her family, her acting becomes more than a child's game of pretend. While still in her teens, Elsa marries and flees to Los Angeles. There she is discovered by Irving Green, one of the most powerful executives in Hollywood, who refashions her as a serious, exotic brunette and renames her Laura Lamont. Irving becomes Laura's great love; she becomes an Academy Award-winning actress—and a genuine movie star. Laura experiences all the glamour and extravagance of the heady pinnacle of stardom in the studio-system era, but ultimately her story is a timeless one of a woman trying to balance career, family, and personal happiness, all while remaining true to herself. Ambitious and richly imagined, *Laura Lamont's Life in Pictures* is as intimate—and as bigger-than-life—as the great films of the golden age of Hollywood. Written with warmth and verve, it confirms Emma Straub's reputation as one of the most exciting new talents in fiction.
