One eye was destroyed by the whip, the other branded and scarred with a sickle and hammer. Though blind, the Tiger learns how to see with the aid of his friend, a raven. The Tiger is unwittingly drawn into a larger conflict over the control of the Taiga (the great northern forest of Russia). The Tribe of the Wolf and the Clan of the Boar both vie for control and the Tiger becomes the tipping point and must choose the fate of the Taiga.

Perfect Pairs Melissa Stewart,Nancy Chesley,2014 A teacher's guide to using fiction and nonfiction picture books to teach life sciences.

Perfect Pairs, K-2 Melissa Stewart,Nancy Chesley,2023-10-10 Hands-on lessons can be fun and compelling, but when it comes to life science, they aren't always possible, practical, effective, or safe. Children can't follow a lion as it stalks a gazelle, visit the exotic kapok tree in a rain forest, or swim alongside the underwater life in a pond. But they can explore a whole world of animals, plants, and ecosystems through the pages of beautifully illustrated, science-themed picture books. Perfect Pairs , which marries fiction and nonfiction picture books focused on life science, helps educators think about and teach life science in a whole new way. Each of the twenty-two lessons in this book is built around a pair of books that introduces a critical life science concept and guides students through an inquiry-based investigative process to explore that idea;-from animal/environment interactions to the role of structure in plant and animal survival, from inheritance of traits to variation of species. Each lesson starts with a Wonder Statement- and comprises three stages. Engaging Students- features a hands-on activity that captures student interest, uncovers current thinking, and generates vocabulary. The heart of the investigative process, Exploring with Students,- spotlights the paired books as the teacher reads aloud and helps students find and organize information into data tables. Encouraging Students to Draw Conclusions- shows students how to review and analyze the information they have collected. Bringing high-quality science-themed picture books into the classroom engages a broad range of students, addresses the Performance Expectations outlined in the Next Generation Science Standards, and supports the goals of the Common Core State Standards for English Language Arts. Even if you are science shy,Perfect Pairs can help you become a more confident teacher whose classroom buzzes with curious students eager to explore their natural world.

Magazine Photo Collage: A Multicultural Assessment And Treatment Technique Helen B. Landgarten,2017-07-05 In this volume, a noted art therapist describes the Magazine Photo Collage MPC projective test and demonstrates its value for therapists working with adults and children of all ages. A highly effective assessment and treatment technique, the MPC is simple to administer and easy for patients to produce, even if they are uncomfortable

creating images through drawing, painting, or sculpture. Moreover, unlike most projective tests, the MPC is not culture-bound: by matching the photos provided with the patient's ethnicity, the therapist can enable the patient to reveal conflicts more easily.; The book includes 26 case studies of patients from various ethnic and age groups and 96 full-page examples of MPC, reproduced and analyzed. The cases cover obsessive-compulsive disorder, anorexia and bulimia nervosa, post-traumatic stress disorder, suicidal ideation, acting-out behaviour, attention deficit disorder, drug abuse, schizophrenia, sexual problems, and other difficulties.

On Beyond Zebra! Dr. Seuss,2013-10-22 If you think the alphabet stops with Z, you are wrong. So wrong. Leave it to Conrad Cornelius o'Donald o'Dell (with a little help from Dr. Seuss) to create an entirely new alphabet beginning with Z! This rhyming picture book introduces twenty new letters and the creatures that one can spell with them. Discover (and spell) such wonderfully Seussian creations as the Yuzz-a-ma-Tuzz and the High Gargel-orum. Readers young and old will be giggling from beginning to end . . . or should we say, from Yuzz to Hi!

Peerless Images Vice-President Eleanor G Sims,Eleanor Sims,Boris Illich Marshak,Ernst J. Grube,Boris Marshak, I.,2002-01-01 This book is the first survey of the figural arts of the Iranian world from prehistoric times to the early twentieth century ever to consider themes, rather than styles. Analyzing primarily painting - in manuscripts and albums, on walls and on lacquered, painted pen boxes and caskets - but also the related arts of sculpture, ceramics, and metalwork, the author finds that the underlying themes depicted on them through the ages are remarkably consistent. Eleanor Sims demonstrates that all these arts display similar concerns: kingship and legitimacy; the righteous exercise of princely power and the defense of national territory; and the performance of rituals and the religious duties called for by the paramount cult of the day. She describes a variety of superb works of art inside and outside these categories, noting not only how they illustrate archetypal themes but also what it is about them that is unique. She also discusses the ways that Iranian art both influenced and was influenced by invaders and neighboring lands. Boris I. Marshak discusses pre-Islamic and also Central Asian art, in particular the earliest Iranian wall paintings and their pictorial parallels in rock carvings and metalwork, and the richly painted temples and houses of Panjikent. Ernst J. Grube considers religious imagery, and provides an informative bibliography.
