The Past Within Us Tessa Morris-Suzuki,2020-07-01 Despite predictions of the death of the past and the end of history, the past refuses to go away. In fact, the start of the twenty-first century has seen an upsurge of interest in popular representations of history on the large and small screen, and of impassioned political conflicts over rival understandings of the past. Historical responsibility and apology have become contentious topics of domestic politics and of international diplomatic relations, and memory a profitable commodity for sale to mass markets. Against this background, how do historians deal with the problems of the search for historical truth? The Past Within Us approaches these issues by examining the problems of representing history in the popular media. Drawing on examples from East Asian and American as well as European history, it poses the question: What happens when accounts of history are transferred from one medium to another? How far does the medium shape the message? How can historians deploy contemporary media in ways which evoke and develop the historical imagination? From the romances of Walter Scott to Steven Spielberg blockbusters, from online Irish nationalism to Japanese revisionist comic books, The Past Within Us explores some of the more dramatic modern popular representations and reflects on the key challenges and possibilities for the communication of history in a multimedia age.

Technical Meeting,World Occam and Transputer User Group, Technical Meeting,2001 Concurrency is an integral part of everyday life. The concept is so ingrained in our existence that we benefit from it without realizing. When faced with a taxing problem, we automatically involve others to solve it more easily. Such concurrent solutions to a complex problem may, however, not be quite straightforward and communication becomes crucial to ensure the successful solution of the problem.

So the survivors of the planet Moscow, which was annihilated in just such an event, have launched a counterattack against the most likely culprit: the neighboring system of New Dresden. Militarisation and Demilitarisation in Contemporary Japan Glenn D. Hook,2003-12-16 The intertwined issues of Japanese 'identity' and 'normality' are at the centre of the tension between internal and external pressures on Japanese defence and security policies. With chapters on peace thought, the militarisation and demilitarisation of language as well as the 'hard' aspects of the Japanese military build up in the 1980s and the response to the Gulf War in the 1990s, this study challenges many of the preconceived notions on Japanese defence and security policies and the policy making process in Japan.

Media and Politics in Japan Susan Pharr,Ellis S. Krauss,1996-03-01 Japan is one of the most media-saturated societies in the world. The circulations of its big five national newspapers dwarf those of any major American newspaper. Its public service broadcasting

agency, NHK, is second only to the BBC in size. And it has a full range of commercial television stations, high-brow and low-brow magazines, and a large anti-mainstream media and mini-media. Japanese elites rate the mass media as the most influential group in Japanese society. But what role do they play in political life? Whose interests do the media serve? Are the media mainly servants of the state, or are they watchdogs on behalf of the public? And what effects do the media have on the political beliefs and behavior of ordinary Japanese people? These questions are the focus of this collection of essays by leading political scientists, sociologists, social psychologists, and journalists. Japan's unique kisha (press) club system, its powerful media business organizations, the uses of the media by Japan's wily bureaucrats, and the role of the media in everything from political scandals to shaping public opinion, are among the many subjects of this insightful and provocative book.

The Wages of Guilt Ian Buruma,2015-09-01 In this now classic book, internationally famed journalist Ian Buruma examines how Germany and Japan have attempted to come to terms with their conduct during World War II—a war that they aggressively began and humiliatingly lost, and in the course of which they committed monstrous war crimes. As he travels through both countries, to Berlin and Tokyo, Hiroshima and Auschwitz, he encounters people who are remarkably honest in confronting the past and others who astonish by their evasions of responsibility, some who wish to forget the past and others who wish to use it as a warning against the resurgence of militarism. Buruma explores these contrasting responses to the war and the two countries’ very different ways of memorializing its atrocities, as well as the ways in which political movements, government policies, literature, and art have been shaped by its shadow. Today, seventy years after the end of the war, he finds that while the Germans have for the most part coped with the darkest period of their history, the Japanese remain haunted by historical controversies that should have been resolved long ago. Sensitive yet unsparing, complex and unsettling, this is a profound study of how people face up to or deny terrible legacies of guilt and shame.
