Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, *The Art of the Fold* is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of

preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

The Complete Story of Sadako Sasaki Masahiro Sasaki, Sue DiCicco, 2020-04-07 **Independent Publisher Book Award (IPPY) Winner** **Middle School Book of the Year-- Northern Lights Book Awards** **Skipping Stones Honor Award Winner** For the first time, middle readers can learn the complete story of the courageous girl whose life, which ended through the effects of war, inspired a worldwide call for peace. In this book, author Sue DiCicco and Sadako's older brother Masahiro tell her complete story in English for the first time--how Sadako's courage throughout her illness inspired family and friends, and how she became a symbol of all people, especially children, who suffer from the impact of war. Her life and her death carry a message: we must have a wholehearted desire for peace and be willing to work together to achieve it. Sadako Sasaki was two years old when the atomic bomb was dropped on her city of Hiroshima at the end of World War II. Ten years later, just as life was starting to feel almost normal again, this

athletic and enthusiastic girl was fighting a war of a different kind. One of many children affected by the bomb, she had contracted leukemia. Patient and determined, Sadako set herself the task of folding 1000 paper cranes in the hope that her wish to be made well again would be granted. Illustrations and personal family photos give a glimpse into Sadako's life and the horrors of war. Proceeds from this book are shared equally between The Sadako Legacy NPO and The Peace Crane Project.

Mind-Blowing Modular Origami Byriah Loper, 2016-10-11 Modular origami is the latest craze in paper folding! These three-dimensional models are created from a number of small pieces of paper that are easily folded and then cleverly fit together to form a spectacular shape. They range from paper polyhedra to bristling buckyballs that are reminiscent of sea urchins—to ornate flower-like spheres. Each piece of paper is held by the tension of the other papers—demonstrating the remarkable hidden properties of paper, which is at the same time flexible but also strong! Author Byriah Loper has been creating modular origami sculptures for just five years, but in that time, he's pushed the upper limits of the art form with some of the largest, most complex geometric paper constructions ever assembled. While many geo-modular origami artists focus on creating dense floral spheres, Byriah has pioneered the open, linear wire frame approach, which results in a very complex-looking model that reveals the interior of its form. He exhibits his sculptures annually at the Origami USA convention in New York, and was recently a featured artist at the Surface to Structure exhibition at the Cooper Union gallery in the East Village. A great way to learn origami, the easy-to-follow diagrams and step-by-step instructions in this book show you how to fold the paper components and then assemble them to create 22 incredible models. Each model is a new challenge, and the paper sculptures you create look fantastic on your desk or shelf!

In Praise of Shadows Junichiro Tanizaki, 2019-11-07 A fully illustrated, beautifully produced edition of Junichiro Tanizaki's wise and evocative essay on Japanese culture. 'We find beauty not in the thing itself but in the patterns of shadows, the light and the darkness, that one thing against another creates... Were it not for shadows, there would be no beauty.' This book is in fact a portal. Reading it, you will be led by Junichiro Tanizaki's light touch into a mysterious and tranquil world of darkness and shadows, where gold flashes in the gloom and a deep stillness reigns. If you are accustomed to equate light with clarity, the faded with the worthless and the dim with the dreary, prepare for a courteous but powerful realignment of your ideas. In *Praise of Shadows* is a poetic paean to traditional Japanese aesthetics – in a free-ranging style that moves from architecture to No theatre, and from cookery to lighting, Tanizaki teaches us to see the beauty in tarnished metal, the sombre dignity in unglazed pottery, the primacy of organic materials that bear witness to the regular touch of human hands. It is also astonishingly prescient, offering a gentle warning against the quest for airbrushed perfection, and reminding us that too much light can pollute and obscure our natural world. In this special edition, the text is accompanied by specially selected images to complement Tanizaki's reflections and further illustrate the pattern and beauty of shadows.

Patterns of Fashion Janet Arnold, Jenny Tiramani, Santina M. Levey, 2008 No one interested in the history of dress, from art historians to stage designers, from museum curators to teachers of fashion and costume, can function effectively without Janet Arnold's *Patterns of Fashion* series,

published by Macmillan since 1964. Since her untimely death in 1998, admirers of her work have been waiting, with increasing impatience, for the promised volume devoted to the linen clothes of the Elizabethan and early Stuart periods, a companion to her previous volume on tailored clothes of the same era. Planned and partly prepared by Janet herself, and completed by Jenny Tiramani, Janet's last pupil, no other book exists that is dedicated to the linen clothes that covered the body from the skin outwards. It contains full colour portraits and photographs of details of garments in the explanatory section as well as patterns for 86 items of linen clothing which range from men's shirts and women's smocks, from superb ruffs and collars to boot hose and children's stomachers. Beautifully produced, it is an invaluable guide to both the history and the recreation of these wonderful garments.
