I Heart Design Steven Heller,2011-03-01 I Heart Design is a collection of "favorite" designs as selected by 80 prominent graphic designers, typographers, teachers, scholars, writers and design impresarios. Designers have preferences, like modern over postmodern, serif over sans serif, decorative over minimal, but designers could not be engaged in design practice if they did not love design. The reasons for such a charged emotion varies from individual to individual, but there are certain commonalities regarding form, function, outcome, and more. Design triggers something in all of us that may be solely aesthetic or decidedly content-driven, but in the final analysis, we are drawn to it through the heart. Designs featured include the iconic CBS eye, the stark Kodak identity, the Coca-Cola bottle, and, of course, The Rolling Stones' Sticky Fingers album cover.

Formula One John Smailes,2021-11-02 Since 1950, fifteen Australians and nine New Zealanders have raced in world championship Formula One, the pinnacle of motor racing. Three - Jack Brabham, Denny Hulme and Alan Jones - have won the world title. Two have died in the attempt without ever facing the world championship starters' lights. So few drivers make it to Formula One. Ever fewer succeed in the fastest and most challenging four-wheeled sport of all. Now John Smailes, author of the bestselling *Climbing the Mountain*, *Race Across the World*, *Mount Panorama* and *Speed Kings*, gives us the definitive story of our involvement with Formula One, from the pioneer days in the aftermath of World War II, to the championship glory of Brabham, Hulme and Jones, the grit and determination of Mark Webber, and Australia's current Formula One star, the irrepressible Daniel Ricciardo, all the way to potential champions of the future like Oscar Piastri. With over 150 stunning photographs, and interviews with drivers past and present, as well as the engineers, managers and team owners behind the scenes, this is the must-have book for every Australian and New Zealand fan of Formula One.

When the Gods Were Born Carolina López-Ruiz,2010-06-15 With admirable erudition, Lopez-Ruiz brings to life intimacies and exchanges between the ancient Greeks and their Northwest Semitic neighbors, portraying the ancient Mediterranean as a fluid, dynamic contact zone. She explains networks of circulation, shows creative uses of traditional material by peoples in motion, and radically transforms our understanding of ancient cosmogonies.---Page duBois, author of *Out of Athens: The New Ancient Greeks* --

The Black Hand Chris Blatchford,2009-10-06 THE BLACK HAND is the true story of Rene Enriquez, aka Boxer, and his rise in a secret criminal organization, a new Mafia, that already has a grip on all organized crime in California and soon all of the United States. This Mafia is using a base army of an estimated 60,000 heavily armed, loyal Latino gang members, called Sureños, driven by fear and illicit profits. They are the most dangerous gang in American history and they wave the flag of the Black Hand. Mafioso Enriquez gives an insider's view of how he devoted his life to the cause--the Mexican Mafia, La Familia Mexicana, also known as La Eme--only to find betrayal and disillusionment at the end of a bloody trail of violence that he followed for two decades. And now, award-winning investigative journalist Chris Blatchford, with the unprecedented cooperation of Rene Enriquez, reveals the inner workings, secret meetings, and elaborate murder plots that make up the daily routine of the Mafia brothers. It is an intense, never-before-told story of a man who devoted his life to a bloody cause only to find betrayal and disillusionment. Based on years of research and investigation, Chris Blatchford has delivered a historic narrative of a nefarious organization that will go down as a classic in mob literature.

Lost in Summerland Barrett Swanson,2023-07-25 Barrett Swanson embarks on a personal quest across the United States to uncover what it means to be an American amid the swirl of our post-truth climate in this collection of critically acclaimed essays and reportage. A trip with his brother to a New York psychic community becomes a rollicking tour through the world of American spiritualism. At a wilderness retreat in Ohio, men seek a cure for toxic masculinity, while in the hinterlands of Wisconsin, antiwar veterans turn to farming when they cannot sustain the heroic myth of service. And when his best friend's body washes up on the shores of the Mississippi River, he falls into the gullet of true crime discussion boards, exploring the stamina of conspiracy theories along the cankered byways of the Midwest. In this exhilarating debut, Barrett Swanson introduces us to a new reality. At a moment when grand unifying narratives have splintered into competing storylines, these critically acclaimed essays document the many routes by which people are struggling to find stability in the aftermath of our country's political and economic collapse, sometimes at dire and disillusioning costs.

Babylon, Memphis, Persepolis Walter Burkert,2007-04-30 At the distant beginning of Western civilization, according to European tradition, Greece stands as an insular, isolated, near-miracle of burgeoning culture. This book traverses the ancient world's three great centers of cultural exchange--Babylonian Nineveh, Egyptian Memphis, and Iranian Persepolis--to situate classical Greece in its proper historical place, at the Western margin of a more comprehensive Near Eastern-Aegean cultural community that emerged in the Bronze Age and expanded westward in the first millennium B.C. In concise and inviting fashion, Walter Burkert lays out the essential evidence for this ongoing reinterpretation of Greek culture. In particular, he points to the critical role of the development of writing in the ancient Near East, from the achievement of cuneiform in the Bronze Age to the rise of the alphabet after 1000 B.C. From the invention and diffusion of alphabetic writing, a series of cultural encounters between Oriental and Greek followed. Burkert details how the Assyrian influences of Phoenician and Anatolian intermediaries, the emerging fascination with Egypt,

and the Persian conquests in Ionia make themselves felt in the poetry of Homer and his gods, in the mythic foundations of Greek cults, and in the first steps toward philosophy. A journey through the fluid borderlines of the Near East and Europe, with new and shifting perspectives on the cultural exchanges these produced, this book offers a clear view of the multicultural field upon which the Greek heritage that formed Western civilization first appeared.

Echo of Distant Water J B Fisher, 2019-08-05 In December 1958, Ken Martin, his wife Barbara, and their three young daughters left their home in Northeast Portland to search for Christmas greens in the Columbia River Gorge—and never returned. The Martins' disappearance spurred the largest missing persons search in Oregon history and the mystery has remained perplexingly unsolved to this day. For the past six years, JB Fisher (Portland on the Take) has pored over the case after finding in his garage a stack of old Oregon Journal newspaper articles about the story. Through a series of serendipitous encounters, Fisher obtained a wealth of first-hand and never-before publicized information about the case including police reports from several agencies, materials and photos belonging to the Martin family, and the personal notebooks and papers of Multnomah County Sheriff's Detective Walter E. Graven, who was always convinced the case was a homicide and worked tirelessly to prove it. Graven, however, faced real resistance from his superiors to bring his findings to light. Used as a trail left behind after his 1988 death to guide future researchers, Graven's personal documents provide fascinating insight into the question of what happened to the Martins—a path leading to abduction and murder, an intimate family secret, and civic corruption going all the way to the Kennedys in Washington, DC.

Musical Movie Posters Richard Allen, Bruce Hershenson, 1999 While the subject of this book, movie musicals, is one of the most popular genres of film, it is difficult to describe exactly what constitutes a musical. Most films have soundtracks. And many include a few musical numbers, but how much musical content does a film need before it is officially a musical? Since there are no clear-cut rules, I based this book on a few simple guidelines. First, I excluded all silent films, for obvious reasons. Second, I excluded movies where the musical numbers were not performed by the stars of the film, or movies that are basically comedies or dramas, but include a little music. Third, I excluded concert films or any films that did not have a plot. Finally, since this is a book of images, I tried to always give preference to posters that depict people singing or dancing. It is clear that early movies were dominated by a relatively small group of wonderful performers such as Alice Faye, Betty Grable, and, of course, Fred Astaire and Ginger Rogers. -- Taken from the Introduction by Bruce Hershenson.
