Letters from Space Clayton C. Anderson, 2020 Astronaut Clayton Anderson lived aboard the International Space Station--and while he didn't mail letters home, imagine if he did! These letters are full of weird science, wild facts, and outrageous true stories from life in space. Backmatter includes even more information on space, astronauts, and living among the stars--

Spacewalker Jerry Lynn Ross, John Norberg, 2013 The majority of this book is an insider's account of the US Space Shuttle program, including the unforgettable experience of launch, the delights of weightless living, and the challenges of constructing the International Space Station. Ross is a uniquely qualified narrator. During seven spaceflights, he spent 1,393 hours in space, including 58 hours and 18 minutes on nine space walks. Life on the ground is also described, including the devastating experiences of the Challenger and Columbia disasters. --

The Astronaut Instruction Manual Mike Mongo, 2015-10-13 The Astronaut Instruction Manual is a fantastic and vibrant preparatory guide for today's youth — whether their futures are off in space or right here...on Earth.” — Lori Garver, Former NASA Deputy Administrator Endorsed by authors, teachers, and congressman alike, Mike Mongo's Astronaut Instruction Manual excites a new generation of space explorers. The book, designed for children between the ages of 6 and 13, is a functioning, interactive instruction manual. Using mad-lib-style fill-in-the-blanks, Mongo encourages his readers to articulate and illustrate their own vision of next-generation space travel. The Astronaut Instruction Manual captures a new era of enthusiasm for space exploration, driven in part by new space celebrities (Commander Chris Hadfield, Elon Musk), and in part by a shift in popular interest in space (SpaceX rockets, The Mars Colonial Transporter, Kerbal).

Endurance Scott Kelly, 2017-10-17 NATIONAL BEST SELLER A stunning, personal memoir from the astronaut and modern-day hero who spent a record-breaking year aboard the International Space Station—a message of hope for the future that will inspire for generations to come. The veteran

of four spaceflights and the American record holder for consecutive days spent in space, Scott Kelly has experienced things very few have. Now, he takes us inside a sphere utterly hostile to human life. He describes navigating the extreme challenge of long-term spaceflight, both life-threatening and mundane: the devastating effects on the body; the isolation from everyone he loves and the comforts of Earth; the catastrophic risks of colliding with space junk; and the still more haunting threat of being unable to help should tragedy strike at home—an agonizing situation Kelly faced when, on a previous mission, his twin brother's wife, American Congresswoman Gabrielle Giffords, was shot while he still had two months in space. Kelly's humanity, compassion, humor, and determination resonate throughout, as he recalls his rough-and-tumble New Jersey childhood and the youthful inspiration that sparked his astounding career, and as he makes clear his belief that Mars will be the next, ultimately challenging, step in spaceflight. In *Endurance*, we see the triumph of the human imagination, the strength of the human will, and the infinite wonder of the galaxy.

The Astronaut Wives Club Lily Koppel, 2013-06-11 Discover the true story of the women who stood beside some of the greatest heroes of American space travel in this New York Times bestseller that delivers a truly great snapshot of the times (Publishers Weekly) that inspired a limited TV series on ABC! As America's Mercury Seven astronauts were launched on death-defying missions, television cameras focused on the brave smiles of their young wives. Overnight, these women were transformed from military spouses into American royalty. They had tea with Jackie Kennedy, appeared on the cover of *Life* magazine, and quickly grew into fashion icons. Annie Glenn, with her picture-perfect marriage, was the envy of the other wives; JFK made it clear that platinum-blondé Rene Carpenter was his favorite; and licensed pilot Trudy Cooper arrived with a secret that needed to stay hidden from NASA. Together with the other wives they formed the Astronaut Wives Club, providing one another with support and friendship, coffee and cocktails. As their celebrity rose—and as divorce and tragedy began to touch their lives—the wives continued to rally together, forming bonds that would withstand the test of time, and they have stayed friends for over half a century.

The Dream Life of Astronauts Patrick Ryan, 2016-07-05 For readers of Tom Perrotta and Lorrie Moore, these nine unforgettable stories, all set in and around Cape Canaveral, showcase Patrick Ryan's masterly understanding of regret and hope, relationships and family, and the universal longing for love. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *St. Louis Post Dispatch* • *Refinery 29* • *Electric Literature* *The Dream Life of Astronauts* balances heartbreak with wry humor as its characters try to make sense of the paths they find themselves on. A would-be Miss America auditions for a shady local talent scout over vodka and Sunny D; a NASA engineer begins to wonder if the woman he's having an affair with is slowly poisoning her husband; a Boy Scout troop leader, recovering from a stroke, tries to protect one of his scouts from being bullied by his own sons; an ex-mobster living in witness protection feuds with the busybody head of his condo board; a grandmother, sentenced to driver's ed after a traffic accident, surprises herself by falling for her instructor. Set against landmark moments—the first moon launch, Watergate, the Challenger explosion—these private dramas unfurl in startling ways. *The Dream Life of Astronauts* ratifies the emergence of an indelible new talent in fiction. Praise for *The Dream Life of Astronauts* “[Ryan] displays a gift for excavating the dashed hopes and yearnings that lie beneath. He is especially adept at capturing the point of view of children, with a Salingeresque understanding of their alienation, their vulnerability, their keen powers of observation.”—Michiko Kakutani, *The New York Times* “Quietly commanding . . . A wry and smart collection—a beam of intelligent life from an author who clearly likes to probe the outer edges of the familiar.”—Maureen Corrigan, NPR's *Fresh Air* “Ryan is a master of that old-fashioned, captivating storytelling that deceptively reads as effortless. . . . Ryan never actually sends his characters into space; but his orbits of the human heart are enough.”—*The New York Times Book Review* “Ryan brings a wry sense of intimacy to these dreamers who are always searching for a better life, for something new.”—BBC “Patrick Ryan's short stories go down lightly—but that doesn't mean they're lightweight. In the best of them, Ryan's

transparent prose and seemingly casual tone sneakily ensnare you in tough moments and wryly rueful deflations of the heart and spirit.”—The Seattle Times “You don’t have to be a rocket scientist to appreciate this funny collection of stories set around Cape Canaveral. Moon missions and shuttle launches take a backseat to the earthly predicaments faced by the eclectic cast of Boy Scouts, gangsters, grandmothers and beauty queens.”—The Atlanta Journal-Constitution “There is humanity and heart in each one of these tales, all rendered with nuance and depth that will leave a mark on your thoughts long past the final pages.”—Refinery29 “Patrick Ryan’s characters are people who are a little more beaten down than they know. They are not introspective by default, and yet, due to circumstances, they are forced to look into themselves and find something that, in his own phrase, feels like life.”—Literary Hub “The author illuminates [his] characters with pitch-perfect dialogue and period references that capture the various decades in which the stories take place.”—Publishers Weekly

An Astronaut's Guide to Life on Earth Chris Hadfield, 2013-10-29 Travel to space and back with astronaut Chris Hadfield's enthralling bestseller as your eye-opening guide (Slate). Colonel Chris Hadfield has spent decades training as an astronaut and has logged nearly 4000 hours in space. During this time he has broken into a Space Station with a Swiss army knife, disposed of a live snake while piloting a plane, and been temporarily blinded while clinging to the exterior of an orbiting spacecraft. The secret to Col. Hadfield's success-and survival-is an unconventional philosophy he learned at NASA: prepare for the worst- and enjoy every moment of it. In *An Astronaut's Guide to Life on Earth*, Col. Hadfield takes readers deep into his years of training and space exploration to show how to make the impossible possible. Through eye-opening, entertaining stories filled with the adrenaline of launch, the mesmerizing wonder of spacewalks, and the measured, calm responses mandated by crises, he explains how conventional wisdom can get in the way of achievement — and happiness. His own extraordinary education in space has taught him some counterintuitive lessons: don't visualize success, do care what others think, and always sweat the small stuff. You might never be able to build a robot, pilot a spacecraft, make a music video or perform basic surgery in zero gravity like Col. Hadfield. But his vivid and refreshing insights will teach you how to think like an astronaut, and will change, completely, the way you view life on Earth — especially your own. Hadfield proves himself to be not only a fierce explorer of the universe, but also a deeply thoughtful explorer of the human condition. —Maria Popova, Brain Pickings

The Astronaut's Wife Stacey Morgan, 2022-03-08 A true story about making the most of your one incredible life. Stacey Morgan kissed her husband goodbye before he donned his space suit on July 20, 2019, and headed to his waiting Soyuz rocket. With an overwhelming mix of pride, excitement, and terror, she and her children held hands and watched the rocket ignite and lift off for a nine-month mission aboard the International Space Station. This is the story of the astronaut's wife—a journey full of unexpected twists and turns. While the love of her life orbited the Earth, Stacey was about to embark on a knock-your-socks-off adventure right here at home. This season would be different from any Stacey had experienced before. The risks were greater, the loneliness was deeper, and the stress was more intense. Filled with as many unique challenges as surreal opportunities, this deeply meaningful season taught her rich lessons about preparing for any mission or adventure life throws at you rediscovering your fun side when you've been trapped in survival mode too long trusting God when you feel weak or alone choosing hope in the face of fear and uncertainty Containing behind-the-scenes glimpses into a side of space flight that most of us will never experience, *The Astronaut's Wife* is a funny,

poignant, and meaningful exploration of living life to the fullest—no matter where you roam.

Astronaut Giovanni Caviezel, 2009 Titles in this new Mini People series are miniature, scaled-down versions of books from Barron's popular children's series of Little People Shape Books. Starting with the delightful front cover picture, Barron's Mini People titles feature all of the larger books' full-color illustrations as they show boys and girls in different, exciting adult roles, or in imaginative roles inspired by favorite children's stories. Each of these board books is die-cut in the shape of the happy child who appears on the front cover.

See You in the Cosmos Jack Cheng, 2017-02-28 "I haven't read anything that has moved me this much since Wonder." —Jennifer Niven, author of *All the Bright Places* A space-obsessed boy and his dog, Carl Sagan, take a journey toward family, love, hope, and awe in this funny and moving novel for fans of *Counting by 7s*, *Walk Two Moons*, and *The Curious Incident of the Dog in the Night-Time*. 11-year-old Alex Petroski loves space and rockets, his mom, his brother, and his dog Carl Sagan—named for his hero, the real-life astronomer. All he wants is to launch his golden iPod into space the way Carl Sagan (the man, not the dog) launched his Golden Record on the Voyager spacecraft in 1977. From Colorado to New Mexico, Las Vegas to L.A., Alex records a journey on his iPod to show other lifeforms what life on earth, his earth, is like. But his destination keeps changing. And the funny, lost, remarkable people he meets along the way can only partially prepare him for the secrets he'll uncover—from the truth about his long-dead dad to the fact that, for a kid with a troubled mom and a mostly not-around brother, he has way more family than he ever knew. Jack Cheng's debut is full of joy, optimism, determination, and unbelievable heart. To read the first page is to fall in love with Alex and his view of our big, beautiful, complicated world. To read the last is to know he and his story will stay with you a long, long time. Stellar. —Entertainment Weekly "Life-embracing." —The Wall Street Journal Works beautifully. —The New York Times Book Review "Irresistible." —The Chicago Tribune "The best I've read in a long, long time." —Holly Goldberg Sloan, author of *Counting by 7s* "Riveting, inspiring, and sometimes hilarious." —Kirkus, starred review "A propulsive stream-of-conscious dive." —Publishers Weekly, starred review "A gift—a miracle." —Paul Griffin, author *When Friendship Followed Me Home* "Exuberant." —Booklist Full of the real kind of magic. —Ally Condie, author of *Matched* Absorbing, irresistible. —Common Sense Media "Incredible." —BookRiot Full of innocence and unwavering optimism. —SLC Inspiring. —Time for Kids "Powerfully affirms our human capacity for grace and love and understanding." —Gary D. Schmidt, author of *Okay for Now*

Chasing Space Leland Melvin, 2017-05-23 In this revelatory and moving memoir, a former NASA astronaut and NFL wide receiver shares his personal journey from the gridiron to the stars, examining the intersecting roles of community, perseverance and grace that align to create the opportunities for success. Leland Melvin is the only person in human history to catch a pass in the National Football League and in space. Though his path to the heavens was riddled with setbacks and injury, Leland persevered to reach the stars. While training with NASA, Melvin suffered a severe

injury that left him deaf. Leland was relegated to earthbound assignments, but chose to remain and support his astronaut family. His loyalty paid off. Recovering partial hearing, he earned his eligibility for space travel. He served as mission specialist for two flights aboard the shuttle Atlantis, working on the International Space Station. In this uplifting memoir, the former NASA astronaut and professional athlete offers an examination of the intersecting role of community, determination, and grace that align to shape our opportunities and outcomes. Chasing Space is not the story of one man, but the story of many men, women, scientists, and mentors who helped him defy the odds and live out an uncommon destiny. As a chemist, athlete, engineer and space traveler, Leland's life story is a study in the science of achievement. His personal insights illuminate how grit and grace, are the keys to overcoming adversity and rising to success.
