The Aral Sea Encyclopedia Igor S. Zonn, M. Glantz, Aleksey N. Kosarev, Andrey G. Kostianoy, 2009-02-08 The ‘‘Aral Sea Encyclopedia’’ is the first one in the new series of encyclopedias about the seas of the former Soviet Union. Preparing it we faced certain difficulties. The thing is that this encyclopedia is a monument to the sea that is disappearing during our lifetime. The world community considers the situation with the Aral Sea and all changes that occurred in its whereabouts in the recent decades as one of the most serious, if not disastrous anthropogenic environmental crises of the 20th century. Before 1960, this was a water-abundant sea-lake that was fourth among world lakes after the Caspian Sea (USSR, Iran), the Great Lakes (USA, Canada) and Victoria Lake (Africa). This was a real ‘‘pearl’’ among the sands of the largest deserts, the Karakums and the Kyzylkums. Navigation between the sea ports Muinak and Aralsk and fisheries famous for the Aral breams, barbel, sturgeons, shemaya, and others were developed here. One could find beautiful recreational zones and beaches here. The deltas of the Amudarya, the major river of Central Asia, and the Syrdarya bringing their waters into the Aral Sea were famous for their biodiversity, fishery, muskrat rearing, reed production. The local population found occupations related to the water infrastructure.

Woman with a Movie Camera Marina Goldovskaya, 2010-01-01 Marina Goldovskaya is one of Russia's best-known documentary filmmakers. The first woman in

Russia (and possibly the world) to combine being a director, writer, cinematographer, and producer, Goldovskaya has made over thirty documentary films and more than one hundred programs for Russian, European, Japanese, and American television. Her work, which includes the award-winning films *The House on Arbat Street*, *The Shattered Mirror*, and *Solovky Power*, has garnered international acclaim and won virtually every prize given for documentary filmmaking. In *Woman with a Movie Camera*, Goldovskaya turns her lens on her own life and work, telling an adventurous, occasionally harrowing story of growing up in the Stalinist era and subsequently documenting Russian society from the 1960s, through the Thaw and Perestroika, to post-Soviet Russia. She recalls her childhood in a Moscow apartment building that housed famous filmmakers, being one of only three women students at the State Film School, and working as an assistant cameraperson on the first film of Andrei Tarkovsky, Russia's most celebrated director. Reviewing her professional filmmaking career, which began in the 1960s, Goldovskaya reveals her passion for creating films that presented a truthful picture of Soviet life, as well as the challenges of working within (and sometimes subverting) the bureaucracies that controlled Russian film and television production and distribution. Along the way, she describes a host of notable figures in Russian film, theater, art, and politics, as well as the technological evolution of filmmaking from film to video to digital media. A compelling portrait of a woman who broke gender and political barriers, as well as the

eventful four decades of Russian history she has documented, *Woman with a Movie Camera* will be fascinating reading for a wide audience.

New Insights on Biofilm Antimicrobial Strategies Luís Melo, Nuno F. Azevedo, 2021-08-17 Over the last few decades, the study of microbial biofilms has been gaining interest among the scientific community. These microbial communities comprise cells adhered to surfaces that are surrounded by a self-produced exopolymeric matrix that protects biofilm cells against different external stresses. Biofilms can have a negative impact on different sectors within society, namely in agriculture, food industries, and veterinary and human health. As a consequence of their metabolic state and matrix protection, biofilm cells are very difficult to tackle with antibiotics or chemical disinfectants. Due to this problem, recent advances in the development of antibiotic alternatives or complementary strategies to prevent or control biofilms have been reported. This book includes different strategies to prevent biofilm formation or to control biofilm development and includes full research articles, reviews, a communication, and a perspective.

The Caspian Sea Encyclopedia Igor S. Zonn, Aleksey N Kosarev, Michael Glantz, Andrey G. Kostianoy, 2010-05-26 “The Caspian Sea Encyclopedia” is the second one in the new series of encyclo- dias about the seas of the former Soviet Union published by Springer-Verlag. The first volume – “The Aral Sea Encyclopedia” was published by Springer in 2009. The series will be continued

by "The Black Sea Encyclopedia" in 2010. Today the Caspian Sea is known to readers thanks to its oil and gas resources, sturgeon and caviar, significant sea-level variations, socio-economic and political problems. The Caucasus and Central Asia (http://eurodialogue.org/?les/fckeditor_?les/Caspian-s-map2.png) vii viii Introduction For more than 250 years the Caspian Sea was shared by two states: Russia (the Soviet Union) and Persia (Iran). After the disintegration of the USSR in 1992, the new independent states of Azerbaijan, Turkmenistan and Kazakhstan have radically changed the political and economic situation in the region. In addition to Russia and Iran, who had determined the situation on the Caspian for a long period, Azerbaijan, Turkmenistan and Kazakhstan are now interested parties, beginning a new stage in the historical development of the Caspian region. This increase in the number of the Caspian legal entities from two to five has given rise to a whole tangle of geopolitical, economic, international legal, ethnic and environmental problems, each of which demands its own approach and settlement mechanism.

LIFE 50 Years of James Bond The Editors of LIFE Books, 2012-10-02 Fifty years (and five billion dollars in ticket sales) ago, the dashing Scottish actor Sean Connery declared suavely that he was Bond, James Bond. Thus began a cinematic series unlike any other. In November 2012, Skyfall, the 23rd movie in what is seen as the authorized line of Bond films, will be released, with Daniel Craig (the sixth Bond) again in the lead role. The world will once more stream to the theaters for another dose of Bond. LIFE was on the

scene in the swinging '60s when James Bond became a cultural icon (in fact, when we put the gold-painted actress Shirley Eaton on the cover in 1964, we helped him along), and now LIFE tells the whole story in this commemorative book. Ian Fleming, a high-ranking officer in British Naval Intelligence of World War II, dreamt up his MI6 spy, code number 007, in 1953, and a decade later, with Dr. No, From Russia With Love and then the smash Goldfinger, saw his creation take on a life entirely his own. All the fun of Bond is here: The movies; the reminiscences by the stars; the LIFE photo shoots; the knockoffs and spoofs (The Man from U.N.C.L.E.; Get Smart; I Spy; the first Casino Royale); the artifacts (a model of Bond's Aston Martin DB5 was one of the best-selling toy of 1965); the trivia and inside information on M, Q and Moneypenny-anything a Bond fan would want, packed into one book and then shaken, not stirred. James Bond was, back in the day, one of those cultural phenomena tailor-made for LIFE: It was bright and colorful and vibrant. Today, it still is. Happy birthday, and welcome back, Commander Bond.

There's a Double Tongue Dirk Delabastita, 1993 The pun is as old as Babel, and inveterate punsters like Shakespeare clearly never lacked translators. This book critically examines the evergreen cliché that wordplay defies translation, replacing it by a theory and a case study that aim to come to grips with the reality of wordplay and its translation. What are the possible modes of wordplay translation? What are the various, sometimes conflicting constraints prompting translators in certain situations to go for one

strategy rather than another? Ample illustration is provided from Hamlet and other Shakespearean texts and several Dutch, French, and German renderings. The study exemplifies how theory can usefully be integrated into a description-oriented approach to translation. Much of the argument also rests on the definition of wordplay as an open-ended and historically variable category. The book's concerns range from the linguistic and textual properties of Shakespeare's punning and its translation to matters of historical poetics and ideology. Its straightforward approach shows that discourse about wordplay doesn't need to rely on stylistic bravura or abstract speculation. The book is concluded by an anthology of the puns in Hamlet, including a brief semantic analysis of each and a generous selection of diverse translations.

Catechism of a Revolutionist Sergey Nechayev, 2022-01-31 In 1869, Sergey Nechayev published *Catechism of a Revolutionist*, a program for merciless destruction of society and the state. One hundred years after the book was published, The Black Panther Party republished the book in 1969. Brought back into print again with an edition in 2020 to star off the Radical Reprints series, we are bringing in a second edition with better formatting to start off the Radical Reprints imprint.

Physical Oceanography of the Dying Aral Sea Peter O. Zavialov, 2007-03-06
Physical Oceanography of the Dying Aral Sea describes the background, present

crisis state, and possible future of this peculiar inland water body from the physical oceanographic standpoint. Based on a wide range of material, a large part of which was published in Russian and has not been previously available to the international reader, the book first provides an historical overview of this unique system, which possesses both lake and sea properties. Next, the current physical state of the lake is described, partly based on original field research and model experiments, along with the remote sensing data, model results and analyses extracted from recent literature. Next, book attempts to forecast the forthcoming state of the Aral Sea and identify plausible future scenarios. Finally, the book discusses the Aral Sea dessication viewd as a part of the global perspective.

societies is a major theme in world history. This volume explores the multifarious nature of nomadic society and its relations with China, Russia and the Middle East from antiquity into the contemporary world with emphasis on the Mongol and Turkish peoples.

Warriors of the Cloisters Christopher I. Beckwith, 2012-09-16 In this provocative book, Christopher I. Beckwith traces how the recursive argument method was first developed by Buddhist scholars and was spread by them throughout ancient Central Asia. He shows how the method was adopted by Islamic Central Asian natural philosophers - most importantly by Avicenna, one of the most brilliant of all medieval thinkers - and transmitted to the West when Avicenna's works were translated into Latin in Spain in the twelfth century by the Jewish philosopher Ibn Dā'ūd and others. -- Book jacket.

Constantine XI Dragaš Palaeologus (1404–1453) Marios Philippides, 2018-09-03 Constantine XI's last moments in life, as he stood before the walls of Constantinople in 1453, have bestowed a heroic status on him. This book produces a more balanced portrait of an intriguing individual: the last emperor of Constantinople. To be sure, the last of the Greek Caesars was a fascinating figure, not so much because he was a great statesman, as he was not, and not because of his military prowess, as he was neither a notable

tactician nor a soldier of exceptional merit. This monarch may have formulated grandiose plans but his hopes and ambitions were ultimately doomed, because he failed to inspire his own subjects, who did not rally to his cause. Constantine lacked the skills to create, restore, or maintain harmony in his troubled realm. In addition, he was ineffective on the diplomatic front, as he proved unable to stimulate Latin Christendom to mount an expedition and come to the aid of south-eastern Orthodox Europe. Yet in sharp contrast to his numerous shortcomings, his military defeats, and the various disappointments during his reign, posterity still fondly remembers the last Constantine.

Central Asia in World History Peter B. Golden, 2011-01-26 A vast region stretching roughly from the Volga River to Manchuria and the northern Chinese borderlands, Central Asia has been called the pivot of history, a land where nomadic invaders and Silk Road traders changed the destinies of states that ringed its borders, including pre-modern Europe, the Middle East, and China. In *Central Asia in World History*, Peter B. Golden provides an engaging account of this important region, ranging from prehistory to the present, focusing largely on the unique melting pot of cultures that this region has produced over millennia. Golden describes the traders who braved the heat and cold along caravan routes to link East Asia and Europe; the Mongol Empire of Chinggis Khan and his successors, the largest contiguous land empire in history; the invention of gunpowder, which allowed the great sedentary

empires to overcome the horse-based nomads; the power struggles of Russia and China, and later Russia and Britain, for control of the area. Finally, he discusses the region today, a key area that neighbors such geopolitical hot spots as Iran, Afghanistan, Pakistan, and China.
