The Art of Being Normal Lisa Williamson, 2016-05-31 An inspiring and timely debut novel from Lisa Williamson, *The Art of Being Normal* is about two transgender friends who figure out how to navigate teen life with help from each other. David Piper has always been an outsider. His parents think he's gay. The school bully thinks he's a freak. Only his two best friends know the real truth: David wants to be a girl. On the first day at his new school Leo Denton has one goal: to be invisible. Attracting the attention of the most beautiful girl in his class is definitely not part of that plan. When Leo stands up for David in a fight, an unlikely friendship forms. But things are about to get messy. Because at Eden Park School secrets have a funny habit of not staying secret for long , and soon everyone knows that Leo used to be a girl. As David prepares to come out to his family and transition into life as a girl and Leo wrestles with figuring out how to deal with people who try to define him through his history, they find in each other the friendship and support they need to navigate life as transgender teens as well as the courage to decide for themselves what normal really means.

Forensic Investigator Esther McKay, 2009-08-03 FORENSIC INVESTIGATOR Geoff Bernasconi had always been passionate about his job as a policeman in rural New South Wales and, from the earliest days of his career, went the extra mile, both for victims of crime and for their families. But one night in 1984, he was called to investigate the scene of an horrific car accident in which an entire family had been wiped out – and which it was impossible for him to forget. Geoff's day-to-day working life became a catalogue of tragedies, some of which involved people close to him, and he found himself spiralling downwards in the grip of post-traumatic stress disorder. When Esther McKay, fellow forensic investigator and author of the best-selling *Crime Scene*, heard that Geoff has been awarded maximum compensation for his

suffering, she knew immediately this was a story that needed to be told. This is a harrowing account of what it is like to work on the front-line of crime and tragedy as a forensic investigator. But it is also the inspiring story of someone who has been exposed to sights and experiences many of us can hardly even imagine, yet has emerged from the darkness to begin his journey to recovery.

Adastra in Africa Barry Windsor-Smith,1999-06-28 *Adastra in Africa* spotlights a young, exiled goddess traveling to an African village and striving to bring salvation to the famine-stricken area. It's a compelling tale of an outsider attempting to use her own non-traditional methods to help a defiantly proud people regain its vitality, without compromising the tribe's heritage and values. This stand-alone graphic novel features some of the most beautifully intricate and graceful drawing of Windsor-Smith's legendary career.

The Key Marianne Curley,2006-10-03 Australian teenagers Matt and Rochelle overcome their misgivings to help the other Named confront the forces of evil and chaos.

Terra Formars, Vol. 1 Yu Sasuga,2014-07-15 After humanity's first manned mission to the Red Planet was lost, a second expedition arrives. The explorers prepare to exterminate the cockroaches that were used to transform the Martian environment, but are shocked to discover that the insects have mutated into giant, aggressive humanoids with one overriding goal—exterminate the humans! However, this crew of explorers has each undergone the “Bugs Procedure,” terrifying experimental surgery designed to make them more than human... -- VIZ Media

Warchild Karin Lowachee,2002-04-01 Karin Lowachee's debut novel is the engrossing story of a young boy's coming of age amid interstellar war, a riveting saga in the tradition of Orson Scott Card's *Ender's Game*. The merchant ship *Mukudori* encompasses the whole of eight-year-old Jos's world, until a notorious pirate destroys the ship, slaughters the adults, and enslaves the children. Thus begins a desperate odyssey of terror and escape that takes Jos beyond known space to the home of the strits, Earth's alien enemies. To survive, the boy must become a living weapon and a master spy. But no training will protect Jos in a war where every hope might be a deadly lie, and every friendship might hide a lethal betrayal. And all the while he will face the most grueling trial of his life... becoming his own man.
