Zupagrafika Zupagrafika

The Invisible Bridge Julie Orringer, 2010 A historical novel set in 1937 Europe tells the story of three Hungarian Jewish brothers bound by history and love, of a marriage tested by disaster, of a Jewish family's struggle against annihilation by the Nazis and of the dangerous power of art in the time of war.

Brutal London Zupagrafika, 2016 Appealing to fans of architecture, this ingeniously designed book lets you build replicas of some of London's iconic post-war concrete structures while learning about their place in the city's architectural history. In this fun and intellectually stimulating book, readers can recreate a number of London's most renowned Brutalist buildings. Opening with an informative history of the origins and philosophy of Brutalist architecture, the book then focuses on 9 buildings, including the Barbican Estate, Robin Hood Gardens, Balfron Tower and the National Theatre. The first part of the book looks at the significance of each of these buildings, with a short chapter on each, complete with texts and images. The second part of the book consists of a series of 9 pre-cut and folded buildings, printed on heavy card stock, that readers can detach and construct with easy-to-follow instructions. At once fun and informative, this unique book offers a challenging and entertaining approach to architecture.

Panelki Zupagrafika, 2019-10-24

Music for Life Fiona Maddocks, 2016-10-04 How does music reflect the key moments in our lives? How do we choose the works that inspire, delight, comfort or console? Fiona Maddocks selects 100 classical works from across nine centuries, arguing passionately, persuasively and at times obstinately for their inclusion, putting each work in its cultural and musical context, discussing omissions, suggesting alternatives and always putting the music first.

The Japanese Art of the Cocktail Masahiro Urushido, Michael Anstendig, 2021 The first cocktail book from the award-winning mixologist Masahiro Urushido of Katana Kitten in New York City, on the craft of Japanese cocktail making Katana Kitten, one of the world's most prominent and acclaimed Japanese cocktail bars, was opened in 2018 by highly-respected and award-winning mixologist Masahiro Urushido. Just one year later, the bar won 2019 Tales of the Cocktail Spirited Award for Best New American Cocktail Bar. Before Katana Kitten, Urushido honed his craft over several years behind the bar of award-winning eatery Saxon+Parole. In *The Japanese Art of the Cocktail*, Urushido shares his immense knowledge of Japanese cocktails with eighty recipes that best exemplify Japan's contribution to the cocktail scene, both from his own bar and from Japanese mixologists worldwide. Urushido delves into what exactly constitutes the Japanese approach to cocktails, and demystifies the techniques that have been handed down over generations, all captured in stunning photography.

Brutal Britain Zupagrafika Zupagrafika, 2018-11-05

Creating a Learning Society Joseph E. Stiglitz, Bruce C.

Greenwald, 2015-10-06 "A superb new understanding of the dynamic economy as a learning society, one that goes well beyond the usual treatment of education, training, and R&D."—Robert Kuttner, author of *The Stakes: 2020 and the Survival of American Democracy* Since its publication *Creating a Learning Society* has served as an effective tool for those who advocate government policies to advance science and technology. It shows persuasively how enormous increases in our standard of living have been the result of learning how to learn, and it explains how advanced and developing countries alike can model a new learning economy on this example. *Creating a Learning Society: Reader's Edition* uses accessible language to focus on the work's central message and policy prescriptions. As the book makes clear, creating a learning society requires good governmental policy in trade, industry, intellectual property, and other important areas. The text's central thesis—that every policy affects learning—is critical for governments unaware

of the innovative ways they can propel their economies forward. "Profound and dazzling. In their new book, Joseph E. Stiglitz and Bruce C. Greenwald study the human wish to learn and our ability to learn and so uncover the processes that relate the institutions we devise and the accompanying processes that drive the production, dissemination, and use of knowledge . . . This is social science at its best."—Partha Dasgupta, University of Cambridge "An impressive tour de force, from the theory of the firm all the way to long-term development, guided by the focus on knowledge and learning . . . This is an ambitious book with far-reaching policy implications."—Giovanni Dosi, director, Institute of Economics, Scuola Superiore Sant'Anna "[A] sweeping work of macroeconomic theory."—Harvard Business Review

FashionEast Djurdja Bartlett, 2010-10-08 A richly illustrated, comprehensive study of fashion under socialism, from state-sponsored prototypes to unofficial imitations of Paris fashion. The idea of fashion under socialism conjures up images of babushka headscarves and black market blue jeans. And yet, as Djurdja Bartlett shows in this groundbreaking book, the socialist East had an intimate relationship with fashion. Official antagonism—which cast fashion as frivolous and anti-revolutionary—eventually gave way to grudging acceptance and creeping consumerism. Bartlett outlines three phases in socialist fashion, and illustrates them with abundant images from magazines of the period: postrevolutionary utopian dress, official state-sanctioned socialist fashion, and samizdat-style everyday fashion. Utopian dress, ranging from the geometric abstraction of the constructivists under Bolshevism in the Soviet Union to the no-frills desexualized uniform of a factory worker in Czechoslovakia, reflected the revolutionary urge for a clean break with the past. The highly centralized socialist fashion system, part of Stalinist industrialization, offered official prototypes of high fashion that were never available in stores—mythical images of smart and luxurious dresses that symbolized the economic progress that socialist regimes dreamed of. Everyday fashion, starting in the 1950s, was an unofficial, do-it-yourself enterprise: Western fashions obtained through semiclandestine channels or sewn at home. The state tolerated the demand for Western fashion, promising the burgeoning middle class consumer goods in exchange for political loyalty. Bartlett traces the progress of socialist fashion in the Soviet Union, Czechoslovakia, Hungary, East Germany, Poland, and Yugoslavia, drawing on state-sponsored socialist women's magazines, etiquette books, socialist manuals on dress, private archives, and her own interviews with designers, fashion editors, and other key figures. Fashion, she suggests, with all its ephemerality and dynamism, was in perpetual conflict with the socialist regimes' fear of change and need for control. It was, to echo the famous first sentence from the Communist Manifesto, the spectre that haunted socialism until the end.

Modelling, Simulation and Data Analysis in Acoustical Problems Claudio Guarnaccia, Lamberto Tronchin, Massimo Viscardi, 2020-06-23 Modelling and simulation in acoustics is currently gaining importance. In fact, with the development and improvement of innovative computational techniques and with the growing need for predictive models, an impressive boost has been observed in several research and application areas, such as noise control, indoor acoustics, and industrial applications. This led us to the proposal of a special issue about "Modelling, Simulation and Data Analysis in Acoustical Problems", as we believe in the importance of these topics in modern acoustics' studies. In total, 81 papers were submitted and 33 of them were published, with an acceptance rate of 37.5%. According to the number of papers submitted, it can be affirmed that this is a trending topic in the scientific and academic community and this special issue will try to provide a future reference for the research that will be developed in coming years.

The Temporary European Cameron Hewitt, 2022-02-01 Write guidebooks, make travel TV, lead bus tours? Cameron Hewitt has been Rick Steves' right hand for more than 20 years, doing just that. The Temporary European is a

collection of vivid, entertaining travel tales from across Europe. Cameron zips you into his backpack for engaging and inspiring experiences: sampling spleen sandwiches at a Palermo street market; hiking alone with the cows high in the Swiss Alps; simmering in Budapest's thermal baths; trekking across an English moor to a stone circle; hand-rolling pasta at a Tuscan agriturismo; shivering through Highland games in a soggy Scottish village; and much more. Along the way, Cameron introduces us to his favorite Europeans. In Mostar, Alma demonstrates how Bosnian coffee isn't just a drink, but a social ritual. In France, Mathilde explains that the true mastery of a fromager isn't making cheese, but aging it. In Spain, Fran proudly eats acorns, but never corn on the cob. While personal, the stories also tap into the universal joy of travel. Cameron's travel motto (inspired by a globetrotting auntie) is Jams Are Fun—the fondest memories arrive when your best-laid plans go sideways. And he encourages travelers to stow their phones and guidebooks, slow down, and savor those magic moments that arrive between stops on a busy itinerary. The stories are packed with inspiration and insights for your next trip, including how to find the best gelato in Italy, how to select the best produce at a Provençal market, how to navigate Spain's confusing tapas scene, and how to survive the experience of driving in Sicily (hint: just go numb). And you'll get a reality check for every traveler's dream job: researching and writing guidebooks; guiding busloads of Americans on tours around Europe; scouting and producing a travel TV show; and working with Rick Steves and his merry band of travelers. It's a candid account of how the sausage gets made in the travel business—told with warts-and-all honesty and a sense of humor. For Rick Steves fans, or anyone who loves Europe, *The Temporary European* is inspiring, insightful, and fun.

Jefferson and Palladio Guido Beltramini, Fulvio Lenzo, 2016-01-31 Thomas Jefferson (1743–1826), a cosmopolitan figure with rural roots, was a master of the knowledge of his time. He drafted The Declaration of Independence (1776), and thus founded a new view of the proper relation between governed and government. Jefferson was the architect of the new America, not just in a political sense, but in a literal sense as well. Architecture had an important place in his personal and public agenda. A self-taught architect, Jefferson buildings are amongst America's most famous: Monticello, the Virginia State Capitol and the University of Virginia are the starting points of American classical architecture. Jefferson was guided by his admiration for Palladio's *Four Books on Architecture*, which provided him with key architectural forms and ideas. Palladio showed him how the admired building types of the ancient Romans could be adapted to modern purposes and provide a rational, harmonious framework for living and for building a new society. Contents: Palladio in America by James S. Ackerman; Jefferson and Palladio by Guido Beltramini; Jefferson: Architecture and Democracy by Fulvio Lenzo; Photographing Jefferson by Filippo Romano; Palladianism in America Before Jefferson by Bruce Boucher; The National Survey Grid and the American Democracy by Catherine Maumi; Jefferson's Creation of American Classical Architecture by Richard Guy Wilson; Jefferson and the First Public Statues in the United States by Giovanna Capitelli; Canova and the Monument to George Washington by Mario Guderzo; Palladio: Materials and Building Techniques Damiana by Lucia Paterno; Jefferson Builder by Travis McDonald. ENTRIES: Monticello; Virginia State Capitol; President's House; Poplar Forest; Bremond; Barboursville; University of Virginia Bibliography of works cited List of the Exhibits

American Landmarks: Miniature Models to Cut and Assemble Matt Bergstrom, 2012-03-15 Sixteen miniature scale models of famous U.S. architectural landmarks will captivate young and old alike. Includes the Statue of Liberty, Space Needle, Gateway Arch, Chicago Water Tower, Lincoln Memorial, Boston's Faneuil Hall, and more.

The Choice Edith Eva Eger, 2017-09-05 A New York Times Bestseller “I’ll be forever changed by Dr. Eger’s story...The Choice is a reminder of what courage

looks like in the worst of times and that we all have the ability to pay attention to what we've lost, or to pay attention to what we still have."—Oprah "Dr. Eger's life reveals our capacity to transcend even the greatest of horrors and to use that suffering for the benefit of others. She has found true freedom and forgiveness and shows us how we can as well." —Desmond Tutu, Nobel Peace Prize Laureate "Dr. Edith Eva Eger is my kind of hero. She survived unspeakable horrors and brutality; but rather than let her painful past destroy her, she chose to transform it into a powerful gift—one she uses to help others heal." —Jeannette Walls, New York Times bestselling author of *The Glass Castle* Winner of the National Jewish Book Award and Christopher Award At the age of sixteen, Edith Eger was sent to Auschwitz. Hours after her parents were killed, Nazi officer Dr. Josef Mengele, forced Edie to dance for his amusement and her survival. Edie was pulled from a pile of corpses when the American troops liberated the camps in 1945. Edie spent decades struggling with flashbacks and survivor's guilt, determined to stay silent and hide from the past. Thirty-five years after the war ended, she returned to Auschwitz and was finally able to fully heal and forgive the one person she'd been unable to forgive—herself. Edie weaves her remarkable personal journey with the moving stories of those she has helped heal. She explores how we can be imprisoned in our own minds and shows us how to find the key to freedom. *The Choice* is a life-changing book that will provide hope and comfort to generations of readers.

Vitamin P3: New Perspectives in Painting Phaidon Editors, 2019-09-11 The indispensable guide to the most exciting painters of recent years, chosen by leading arts professionals – now in paperback Despite its long history, painting continues to evolve and excite, with new generations taking it in unexpected directions. A central pillar of artistic practice, painting also has enduring appeal for collectors and still dominates the art market. *Vitamin P3* takes the conversation forward, spotlighting more than 100 outstanding artists who are pushing the boundaries of the medium of paint. In its new paperback format, it's sure to inspire a wider-than-ever audience.

Understanding Media Marshall McLuhan, 2016-09-04 When first published, Marshall McLuhan's *Understanding Media* made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

The Armed Forces Officer Richard Moody Swain, Albert C. Pierce, 2017 In 1950, when he commissioned the first edition of *The Armed Forces Officer*, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that American military officers, of whatever service, should share common ground ethically and morally. In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution.

Why Civil Resistance Works Erica Chenoweth, Maria J. Stephan, 2011-08-09 For more than a century, from 1900 to 2006, campaigns of nonviolent resistance were more than twice as effective as their violent counterparts in achieving their stated goals. By attracting impressive support from citizens, whose activism takes the form of protests, boycotts, civil disobedience, and other forms of nonviolent noncooperation, these efforts help separate regimes from their main sources of power and produce remarkable results, even in Iran, Burma, the Philippines, and the Palestinian Territories. Combining statistical analysis with case studies of specific countries and territories, Erica Chenoweth and Maria J. Stephan detail the factors enabling such campaigns to succeed and, sometimes, causing them to fail. They find that nonviolent resistance presents fewer obstacles to moral and physical involvement and commitment, and that higher levels of participation contribute to enhanced resilience, greater opportunities for tactical innovation and civic disruption (and therefore less incentive for a regime to maintain its status quo), and shifts in loyalty among opponents' erstwhile

supporters, including members of the military establishment. Chenoweth and Stephan conclude that successful nonviolent resistance ushers in more durable and internally peaceful democracies, which are less likely to regress into civil war. Presenting a rich, evidentiary argument, they originally and systematically compare violent and nonviolent outcomes in different historical periods and geographical contexts, debunking the myth that violence occurs because of structural and environmental factors and that it is necessary to achieve certain political goals. Instead, the authors discover, violent insurgency is rarely justifiable on strategic grounds.

Flesh and Blood So Cheap: The Triangle Fire and Its Legacy Albert Marrin, 2015-02-10 On March 25, 1911, the Triangle Shirtwaist Factory in New York City burst into flames. The factory was crowded. The doors were locked to ensure workers stay inside. One hundred forty-six people—mostly women—perished; it was one of the most lethal workplace fires in American history until September 11, 2001. But the story of the fire is not the story of one accidental moment in time. It is a story of immigration and hard work to make it in a new country, as Italians and Jews and others traveled to America to find a better life. It is the story of poor working conditions and greedy bosses, as garment workers discovered the endless sacrifices required to make ends meet. It is the story of unimaginable, but avoidable, disaster. And it the story of the unquenchable pride and activism of fearless immigrants and women who stood up to business, got America on their side, and finally changed working conditions for our entire nation, initiating radical new laws we take for granted today. With *Flesh and Blood So Cheap*, Albert Marrin has crafted a gripping, nuanced, and poignant account of one of America's defining tragedies.

Monotowns David Navarro, Martyna Sobecka, Zupagrafika, 2021

Eastern Blocks Zupagrafika, 2019 Sleeping districts? of Moscow, Plattenbauten of East Berlin, modernist estates of Warsaw, Kyiv's Brezhnevki: although these are home to the vast majority of city dwellers, post-war suburbs of central and eastern Europe have been invisible for decades.00'Eastern Blocks' by Zupagrafika is a photographic journey through the cityscapes the former Eastern Bloc, inviting readers to explore the districts and peripheries that became a playground for mass housing development after WW2, including objects like Soviet?flying saucers?, houses?on chicken legs? or hammer-shaped tower blocks.00Showcasing modernist and brutalist architecture scattered around the cities of Moscow, (East) Berlin, Warsaw, Budapest, Kyiv and Saint Petersburg, the book contains over 100 photographs taken by Zupagrafika throughout the last decade as a reference archive for their illustrated kits and books, with special contributions by local photographers. Divided into 6 chapters, 'Eastern Blocks' includes a foreword by writer and journalist Christopher Beanland, orientative maps, index of architects and informative texts on the featured cities and constructions.
