*Artists' Film (World of Art)* David Curtis, 2021-10-05 Artists' Film offers a lucid, accessible account of artists' unique contribution to the art of the moving image in the twentieth and early twenty-first centuries. International in scope and accessibly written by a renowned authority on the subject, Artists' Film is an introductory guide to the exciting and expanding field of artists' film and an alternative history of the moving image, chronicling artists' ever-evolving fascination with filmmaking from the early twentieth century to now. From early pioneers to key artists of today, writer and curator David Curtis offers a vivid account of the many creators who have been inspired by the cinematic medium and who have felt compelled to interpret and respond to it in their own way. In doing so, Curtis discusses these artists' widely differing achievements, aspirations, theories, and approaches. Featuring over four hundred international moving-image makers and drawing on examples from across the arts, including experimental film, video, installation, and multimedia, this generously illustrated account offers an incomparable introduction to this continually evolving art form. A perfect read for anyone with an interest in the intersection of contemporary art and film.

*Open Codes* Blanca Giménez, 2022 Today we live in a globalized world, controlled and created by digital codes. From communication to transportation (of people, goods, and messages), everything is guided by codes that use electromagnetic waves and computers. With the *Open Codes. Living in Digital Worlds*± exhibition, the ZKM Karlsruhe is once again addressing the subject of digitalization and the recording of the world through the binary code. Everyone should have the chance to understand what lies behind today's digital world. The exhibition will present artworks and scientific works based on digital as well as on analog codes. The works visualize and explain the complex dynamics of code, and the way in which they are increasingly shaping the way we live and perceive the world. Exhibition: ZKM - Zentrum für Kunst und Medien, Karlsruhe, Germany (19.10.2017 - 06.01.2019).

**Karin Sander - Gebrauchsbilder** Karin Sander, 2011 Karin Sander's Patina Paintings are created at--and by--the site of their exhibition. Sander transports blank canvases to the exhibition venue and leaves them outside, unprotected, to accumulate the patina of their location as chance and the whims of nature determine. The results are delicate abstractions resembling the mark-making of John Cage or Cy Twombly. This handsome monograph records the series.

*The Amden Atelier, 1999-2015* Roman Kurzmeyer, 2015 The mountain community of Amden am Walensee (Switzerland) was a place of social and artistic experiments as early as the beginning of the 20th century. In the last 15 years, many artists have been invited to exhibit in the Amden Atelier, a small farm, or to use the facilities for the production of a work of art. This publication includes all exhibitions and installations staged since 1999 and describes and discusses the individual art projects. The work is complemented by essays on the landscape, the place and its change of use to an exhibition space, on the curating concept and its development in recent years.

واليد رااد Atlas Group, 2004 Collects the archival documents from the Atlas Group attributed to the fictitious Lebanese historian, Dr. Fadl Fakhouri.

*Ausst. in Göppingen u.d.T.: Pietro Sanguineti - the center* Pietro Sanguineti, Oliver Zybok, 2010 Pietro Sanguineti's language-oriented work evokes the bold aesthetic of advertising but also incorporates a variety of historical and contemporary artistic references, from Ren Magritte to Ken Lum. Using words as visual motifs, Sanguineti explores the interplay between these almost polar approaches. This monograph surveys Sanguineti's work in installation, video and sculpture in addition to his trademark verbal images.

*Day of the Rangers Ambush Alley* Ambush Alley Games, 2012-03-20 In the early 90s, Somalia was a country in chaos. As civil war raged, warlords carved out their own territories, enforcing their will through militia gangs, while famine compounded the situation. As a joint US-UN mission struggled to maintain order, the warlords began to unite behind Mohamed Farrah Aidid, who was to proclaim

himself President of Somalia and embark upon a campaign to force the peacekeepers out of the country. Operations against Aidid and his strongholds intensified, culminating in the famous Operation Gothic Serpent, and the rescue mission to save a downed Black Hawk helicopter carried out by US Rangers and Delta Force operatives. Day of the Rangers, the latest companion for Force on Force, provides wargamers with all the background, orders of battle, and scenarios they need to immerse themselves in the epic battle for Mogadishu.

**Cold War Gone Hot** Ambush Alley Ambush Alley Games, 2011-11-20 My fellow Americans, I'm pleased to tell you today that I've signed legislation that will outlaw Russia forever. We begin bombing in five minutes.†? – Ronald Reagan, 1984. With these words, spoken as a sound check to a radio broadcast, President Reagan came dangerously close to igniting the long-simmering Cold War. Although Soviet forces were placed on alert following reports of this comment, the full-scale conflict between the West and the Soviet Bloc did not break out. Cold War Gone Hot, the latest companion volume for Force on Force, looks at the 44-year history of the Cold War and asks: what if?†? With the orders of battle, vehicle stats and missions included in this volume, Force on Force players can simulate the advance of Soviet tanks across Western Europe, a thrust into Alaska, or any number of other plausible scenarios where history took a slightly different path.

**Jana Sophia Nolle: Living Room**, 2021-03-09 Jana Sophia Nolle's (\*1986) Living Room is a conceptual photographic study documenting temporary homeless shelters recreated in various San Francisco living rooms. The artist worked closely with unhoused persons to understand their improvised dwellings and subsequently approached wealthy people to reconstruct and photograph these shelters in their homes. While Nolle forms an aesthetically striking photographic inventory, a typology of improvised dwellings, cataloging their various attributes, her photographs confront the urging socio-political dichotomy of lives most precious and lives most precarious.

The Turn of the Century Louisa Hutton, Matthias Sauerbruch, 2021-09 A concise reader on European architecture's defining forces of the past 30 years German designer Matthias Sauerbruch (born 1955) and British designer Louisa Hutton (born 1957) have asked a diverse group of authors to reflect on the various conditions that have shaped the conception, production and circulation of European architecture over the past 30 years. While the essays collected in this volume include observations of Sauerbruch Hutton's buildings, the scope of the authors' conclusions about European design trends far exceeds the work of this particular agency. The text is supplemented by a photographic essay by Finnish artist Ola Kolehmainen, offering readers an immersive experience of the firm's most impressive accomplishments.
