Blood calls to blood; charm calls to charm. It is the way of the world. Come close and tell us your dreams. Sanna is a mermaid — but she is only half seavish. The night of her birth, a sea-witch cast a spell that made Sanna's people, including her landish mother, forget how and where she was born. Now Sanna is sixteen and an outsider in the seavish matriarchy, and she is determined to find her mother and learn who she is. She apprentices herself to the witch to learn the magic of making and unmaking, and with a new pair of legs and a quest to complete for her teacher, she follows a clue that leads her ashore on the Thirty-Seven Dark Islands. There, as her fellow mermaids wait in the sea, Sanna stumbles into a wall of white roses thirsty for blood, a hardscrabble people hungry for miracles, and a baroness who will do anything to live forever. Inside the Painter's Studio Joe Fig, 2012-06-19 Inside an art gallery, it is easy to forget that the paintings there are the end products of a process involving not only creative inspiration, but also plenty of physical and logistical details. It is these cruder, more mundane aspects of a painter's daily routine that motivated Brooklyn artist Joe Fig to embark almost ten years ago on a highly unorthodox, multilayered exploration of the working life of the professional artist. Determined to ground his research in the physical world, Fig began constructing a series of diorama-like miniature reproductions of the studios of modern art's most legendary painters, such as Jackson Pollock and Willem de Kooning. A desire for firsthand references led Fig to approach contemporary artists for access to their studios. Armed with a camera and a self-made Artist's Questionnaire, Fig began a journey through the workspaces of some of today's most exciting contemporary artists.

The Secret Subway Shana Corey, 2016-03-08 From an acclaimed author and a New York Times Best Illustrated artist comes the fascinating, little-known—and true!—story of New York City's first subway. New York City in the 1860s was a mess: crowded, disgusting, filled with garbage. You see, way back in 1860, there were no subways, just cobblestone streets. That is, until Alfred Ely Beach had the idea for a fan-powered train that would travel underground. On February 26, 1870, after fifty-eight days of drilling and painting and plastering, Beach unveiled his masterpiece—and throngs of visitors took turns swooshing down the track. The Secret Subway will wow readers, just as Beach's underground train wowed riders over a century ago. A New York Public Library Best Book for Kids, 2016

The Guns of Normandy George Blackburn, 2012-03-26 In the weeks after D-Day, the level of artillery action in Normandy was unprecedented. In what was a relatively small area, both sides bombarded each other relentlessly for three months, each trying to overwhelm the other by sheer fire power. The Guns of Normandy puts the reader in the front lines of this horrific battle. In the most graphic and authentic detail, it brings to life every aspect of a soldier's existence, from the mortal terror of impending destruction, to the unending fatigue, to the giddy exhilaration at finding oneself still, inexplicably, alive. The story of this crucial battle opens in England, as the 4th Field Regiment receives news that something big is happening in France and that after long years of training they are finally going into action. The troop ships set out from besieged London and arrive at the D-Day beaches in the appalling aftermath of the landing. What follows is the most harrowing and realistic account of what it is like to be in action, as the very lead man in the attack: an artillery observer calling in fire on enemy positions. The story unfolds in the present tense, giving the uncomfortably real sense that "You are here." The conditions under which the troops had to exist were horrific. There was near-constant terror of being hit by incoming shells; prolonged lack of sleep; boredom; weakness from dysentery; sudden and gruesome deaths of close friends; and severe physical privation and mental anguish. And in the face of all this, men were called upon to perform heroic acts of bravery and they did. Blackburn provides genuine insight to the nature of military service for the average Canadian soldier in the Second World War – something that is all too often lacking in the accounts of armchair historians and television journalists. The result is a classic account of war at the sharp end. From the Hardcover edition.

Red Sky at Night Elly MacKay, 2018-05-01 A memorable collection of weather sayings, beautifully arranged in story form and illustrated by renowned paper artist Elly MacKay. Red sky at night, sailor's delight. And, the next morning, when the dew is on the grass, no rain will come to pass. These are the perfect conditions for a grandfather to take his grandchildren out on a fishing trip. Especially since, as the saying goes, when the wind is from the West, then the fishes bite the best. The family takes a boat out on the lake, fishing and swimming and eventually camping out on a nearby island, taking full advantage of the gorgeous weather. But the next day . . . red sky in the morning, sailors take warning! The family ventures back home just in time to avoid a rainstorm. But not to worry -- the more rain, the more rest. Fair weather's not always best. Acclaimed paper artist Elly MacKay illustrates a lovely family narrative through the use of weather aphorisms, creating a beautiful and informational story which will appeal to children's timeless fascination with the natural world.
