European Hand Papermaking Timothy Barrett, 2019-06 In this important and long-awaited book, Timothy Barrett, internationally known authority in hand papermaking and Director of the University of Iowa Center for the Book, offers the first comprehensive how-to book about traditional European hand papermaking since Dard Hunter's renowned reference, *Papermaking: The History and Technique of an Ancient Craft*. This book, which includes an appendix on mould and deckle construction by Timothy Moore, is aimed at a variety of audiences: artisans and craftspeople wishing to make paper or to manufacture papermaking tools and equipment, paper and book conservators seeking detailed information about paper-production techniques, and other readers with a desire to understand the intricacies of the craft. *European Hand Papermaking* is the companion volume to Barrett's *Japanese Papermaking - Traditions, Tools and Techniques*. -- Publisher's description

Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth, 2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in “an age of ecocide” Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on “sustainability” rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth’s thinking. In them he

articulates a new vision that he calls “dark ecology,” which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed “Uncivilization” manifesto, asks hard questions about how we’ve lived and how we should live.

Wind Energy Explained James F. Manwell, Jon G. McGowan, Anthony L. Rogers, 2010-09-14 Wind energy’s bestselling textbook- fully revised. This must-have second edition includes up-to-date data, diagrams, illustrations and thorough new material on: the fundamentals of wind turbine aerodynamics; wind turbine testing and modelling; wind turbine design standards; offshore wind energy; special purpose applications, such as energy storage and fuel production. Fifty additional homework problems and a new appendix on data processing make this comprehensive edition perfect for engineering students. This book offers a complete examination of one of the most promising sources of renewable energy and is a great introduction to this cross-disciplinary field for practising engineers. “provides a wealth of information and is an excellent reference book for people interested in the subject of wind energy.” (IEEE Power & Energy Magazine, November/December 2003) “deserves a place in the library of every university and college where renewable energy is taught.” (The International Journal of Electrical Engineering Education, Vol.41, No.2 April 2004) “a very comprehensive and well-organized treatment of the current status of wind power.” (Choice, Vol. 40, No. 4, December 2002)

Dutch Utopia Annette Stott, Hollis Koons McCullough, 2009 Showcasing more than seventy paintings from public and private collections throughout the United States and Europe, Dutch Utopia: American Artists in Holland, 1880-1914 explores the work of forty-three American artists drawn to

Holland during the late nineteenth and early twentieth centuries. Escaping from the rapid urbanization of their time, these artists established colonies in six communities in the Netherlands—Dordrecht, Egmond, Katwijk, Laren, Rijsoord, and Volendam—with all but Dordrecht being small, preindustrial villages. Inspired by their pastoral surroundings as well as the great traditions of seventeenth-century Dutch art and the contemporary Hague school, these American artists created visions of Dutch society underpinned by a nostalgic yearning for a premodern way of life. Some even alluded to America's own colonial Dutch heritage, exploring shared histories and cultural connections between the two countries. Organized by the Telfair Museum of Art in Savannah, Georgia, Dutch Utopia examines the appeal of Holland for American artists during this period, through six pivotal themes: the influence of seventeenth-century Dutch painting; the impact of the contemporary Hague School; antimodernism and the American Progressive Movement; points of convergence in national identities; the proliferation of artist colonies in Holland; and the popular construction of "Dutchness" beyond the stereotypes of wooden shoes and windmills. Dutch Utopia includes works by artists who remain celebrated today, such as Robert Henri, William Merritt Chase, and John Singer Sargent, and by painters admired in their own time but less well-known now. These include accomplished women such as Elizabeth Nourse and Anna Stanley, as well as George Hitchcock, Gari Melchers, and Walter MacEwen, who built international reputations with Salon pictures of Dutch landscapes and costumed figures. These artists were among hundreds of Americans who traveled to the Netherlands between 1880 and 1914 to paint and to study. Some lived in Holland for decades, while others stayed only a week or two, but most passed quickly through the major cities to small rural communities, where they created picturesque idylls on canvas.

Old Houses in Holland Charles Holme, 1913

Norman Rockwell Laura Claridge, 2001-12-18 Norman Rockwell's tremendously successful, prolific career as a painter and illustrator has rendered him a twentieth-century American icon. However, the very popularity and accessibility of his idealized, nostalgic depictions of middleclass life have caused him to be considered not a serious artist but a "mere illustrator"—a disparagement only reinforced by the hundreds of memorable covers he drew for *The Sunday Evening Post*. Symptomatic of critics' neglect is the fact that Rockwell has never before been the subject of a serious critical biography. Based on private family archives and interviews and publishes to coincide with a major two-year travelling retrospective of his work, this book reveals for the first time the driven workaholic who had three complicated marriages and was a distant father—so different from the loving, all-American-dad image widely held to this day. Critically acclaimed author Laura Claridge also breaks new ground with her reappraisal of Rockwell's art, arguing that despite his popular sentimental style, his artistry was masterful, complex, and far more manipulative than people realize.

Adaptive Strategies for Water Heritage Carola Hein, 2019-10-18 This Open Access book, building on research initiated by scholars from the Leiden-Delft-Erasmus Centre for Global Heritage and Development (CHGD) and ICOMOS Netherlands, presents multidisciplinary research that connects water to heritage. Through twenty-one chapters it explores landscapes, cities, engineering structures and buildings from around the world. It describes how people have actively shaped the course, form and function of water for human settlement and the development of civilizations, establishing socio-economic structures, policies and cultures; a rich world of narratives, laws and practices; and an extensive network of infrastructure, buildings and urban form. The book is organized in five thematic sections that link practices of the past to the design of the present and visions of the future: part I discusses drinking water management; part II addresses water use in agriculture; part III explores

water management for land reclamation and defense; part IV examines river and coastal planning; and part V focuses on port cities and waterfront regeneration. Today, the many complex systems of the past are necessarily the basis for new systems that both preserve the past and manage water today: policy makers and designers can work together to recognize and build on the traditional knowledge and skills that old structure embody. This book argues that there is a need for a common agenda and an integrated policy that addresses the preservation, transformation and adaptive reuse of historic water-related structures. Throughout, it imagines how such efforts will help us develop sustainable futures for cities, landscapes and bodies of water.

Global Economic History: A Very Short Introduction Robert C. Allen, 2011-09-15 Together these countries pioneered new technologies that have made them ever richer.

Reformation Diarmaid MacCulloch, 2004-09-02 The Reformation was the seismic event in European history over the past 1000 years, and one which tore the medieval world apart. Not just European religion, but thought, culture, society, state systems, personal relations - everything - was turned upside down. Just about everything which followed in European history can be traced back in some way to the Reformation and the Counter-Reformation which it provoked. The Reformation is where the modern world painfully and dramatically began, and MacCulloch's great history of it is recognised as the best modern account.

The Money Plot Frederick Kaufman, 2020-11-24 Half fable, half manifesto, this brilliant new take on the ancient concept of cash lays bare its unparalleled capacity to empower and enthrall us. Frederick Kaufman tackles the complex history of money, beginning with the earliest myths and wrapping up with Wall Street's byzantine present-day doings. Along the way, he exposes a set of allegorical plots, stock characters, and stereotypical metaphors that have long been linked with money and commercial culture, from Melanesian trading rituals to the dogma of Medieval churchmen faced with global commerce, the rationales of Mercantilism and colonial expansion, and the U.S. dollar's 1971 unpinning from gold. The Money Plot offers a tool to see through the haze of modern banking and finance, demonstrating that the standard reasons given for economic inequality—the Neoliberal gospel of market forces—are, like dollars, euros, and yuan, contingent upon structures people have designed. It shines a light on the one percent's efforts to contain a money culture that benefits them within boundaries they themselves are increasingly setting. And Kaufman warns that if

we cannot recognize what is going on, we run the risk of becoming pawns and shells ourselves, of becoming characters in someone else's plot, of becoming other people's money.

Jan Brueghel and the Senses of Scale Elizabeth A. Honig, 2016 Examines the small-scale works of the Flemish painter Jan Brueghel the Elder, and the aesthetic and cognitive operation of smallness in art of the late sixteenth and early seventeenth centuries.

A Lost Lady Willa Cather, 2023-11-15 *A Lost Lady* is a novel by American author Willa Cather, first published in 1923. It centers on Marian Forrester, her husband Captain Daniel Forrester, and their lives in the small western town of Sweet Water, along the Transcontinental Railroad. However, it is mostly told from the perspective of a young man named Niel Herbert, as he observes the decline of both Marian and the West itself, as it shifts from a place of pioneering spirit to one of corporate exploitation. Exploring themes of social class, money, and the march of progress, *A Lost Lady* was praised for its vivid use of symbolism and setting, and is considered to be a major influence on the works of F. Scott Fitzgerald. It has been adapted to film twice, with a film adaptation being released in 1924, followed by a looser adaptation in 1934, starring Barbara Stanwyck. *A Lost Lady* begins in the small railroad town of Sweet Water, on the undeveloped Western plains. The most prominent family in the town is the Forresters, and Marian Forrester is known for her hospitality and kindness. The railroad executives frequently stop by her house and enjoy the food and comfort she offers while there on business. A young boy, Niel Herbert, frequently plays on the Forrester estate with his friend. One day, an older boy named Ivy Peters arrives, and shoots a woodpecker out of a tree. He then blinds the bird and laughs as it flies around helplessly. Niel pities the bird and tries to climb the tree to put it out of its misery, but while climbing he slips, and breaks his arm in the fall, as well as knocking himself

unconscious. Ivy takes him to the Forrester house where Marian looks after him. When Niel wakes up, he's amazed by the nice house and how sweet Marian smells. He doesn't see her much after that, but several years later he and his uncle, Judge Pommeroy, are invited to the Forrester house for dinner. There he meets Ellinger, who he will later learn is Mrs. Forrester's lover, and Constance, a young girl his age.

Dutch Paintings of the Seventeenth Century National Gallery of Art (U.S.), Arthur K. Wheelock, 1995 Heda's Banquet Piece, Frans Hals' Willem Coymans, and Rembrandt's Lucretia. Paintings by these and other masters attracted the American collectors P. A. B. Widener, his son Joseph, and Andrew W. Mellon, whose bequests form the heart of the National Gallery's distinguished and remarkably cohesive collection of ninety-one Dutch paintings.

Little Kingdom by the Sea Mark Zegeling, 2015-05 Since the 1950s, KLM Royal Dutch Airlines has presented Delft Blue miniature houses to its Business Class passengers. These replicas of historic houses and national monuments are considered to be iconic of the Netherlands worldwide. 'Little Kingdom by the Sea' offers an exclusive peek into the lives of the inhabitants of the KLM houses. These pioneers, bold adventurers and other colorful figures made their mark on Dutch history. Extensive research including interviews with architectural historians and current residents have yielded a wealth of new information, engaging anecdotes, unique and juicy stories.

The Temporary European Cameron Hewitt, 2022-02-01 Write guidebooks, make travel TV, lead bus tours? Cameron Hewitt has been Rick Steves' right hand for more than 20 years, doing just that. The Temporary European is a collection of vivid, entertaining travel tales from across Europe. Cameron zips you into his backpack for engaging and inspiring experiences: sampling spleen sandwiches at a Palermo street market; hiking alone with the cows high in the Swiss Alps; simmering in Budapest's

thermal baths; trekking across an English moor to a stone circle; hand-rolling pasta at a Tuscan agriturismo; shivering through Highland games in a soggy Scottish village; and much more. Along the way, Cameron introduces us to his favorite Europeans. In Mostar, Alma demonstrates how Bosnian coffee isn't just a drink, but a social ritual. In France, Mathilde explains that the true mastery of a fromager isn't making cheese, but aging it. In Spain, Fran proudly eats acorns, but never corn on the cob. While personal, the stories also tap into the universal joy of travel. Cameron's travel motto (inspired by a globetrotting auntie) is Jams Are Fun—the fondest memories arrive when your best-laid plans go sideways. And he encourages travelers to stow their phones and guidebooks, slow down, and savor those magic moments that arrive between stops on a busy itinerary. The stories are packed with inspiration and insights for your next trip, including how to find the best gelato in Italy, how to select the best produce at a Provençal market, how to navigate Spain's confusing tapas scene, and how to survive the experience of driving in Sicily (hint: just go numb). And you'll get a reality check for every traveler's dream job: researching and writing guidebooks; guiding busloads of Americans on tours around Europe; scouting and producing a travel TV show; and working with Rick Steves and his merry band of travelers. It's a candid account of how the sausage gets made in the travel business—told with warts-and-all honesty and a sense of humor. For Rick Steves fans, or anyone who loves Europe, *The Temporary European* is inspiring, insightful, and fun.

The Jewish Unions in America Bernard Weinstein, 2018-02-06 Newly arrived in New York in 1882 from Tsarist Russia, the sixteen-year-old Bernard Weinstein discovered an America in which unionism, socialism, and anarchism were very much in the air. He found a home in the tenements of New York and for the next fifty years he devoted his life to the struggles of fellow Jewish workers. *The Jewish Unions in America* blends memoir and history to chronicle this time. It describes how Weinstein

led countless strikes, held the unions together in the face of retaliation from the bosses, investigated sweatshops and factories with the aid of reformers, and faced down schisms by various factions, including Anarchists and Communists. He co-founded the United Hebrew Trades and wrote speeches, articles and books advancing the cause of the labor movement. From the pages of this book emerges a vivid picture of workers' organizations at the beginning of the twentieth century and a capitalist system that bred exploitation, poverty, and inequality. Although workers' rights have made great progress in the decades since, Weinstein's descriptions of workers with jobs pitted against those without, and American workers against workers abroad, still carry echoes today. The Jewish Unions in America is a testament to the struggles of working people a hundred years ago. But it is also a reminder that workers must still battle to live decent lives in the free market. For the first time, Maurice Wolfthal's readable translation makes Weinstein's Yiddish text available to English readers. It is essential reading for students and scholars of labor history, Jewish history, and the history of American immigration.
