Lunar Park Bret Easton Ellis, 2005-08-16 NATIONAL BESTSELLER • From the New York Times bestselling author of *American Psycho* and *Less Than Zero* comes a chilling tale that combines reality, memoir, and fantasy to create a fascinating portrait of this most controversial writer but also a deeply moving novel about love and loss, parents and children, and ultimately forgiveness. “John Cheever writes *The Shining*.” —Stephen King, *Entertainment Weekly* Bret Ellis, the narrator of *Lunar Park*, is the bestselling writer whose first novel *Less Than Zero* catapulted him to international stardom while he was still in college. In the years that followed he found himself adrift in a world of wealth, drugs, and fame, as well as dealing with the unexpected death of his abusive father. After a decade of decadence a chance for salvation arrives; the chance to reconnect with an actress he was once involved with, and their son. But almost immediately his new life is threatened by a freak sequence of events and a bizarre series of murders that all seem to connect to Ellis’s past. His attempts to save his new world from his own demons makes *Lunar Park* Ellis’s most suspenseful novel. Look for Bret Easton Ellis’s new novel, *The Shards*!

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—*The Washington Post* An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves,

coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Great Fighter Jets of the Galaxy 1 Tim Gibson, 2021-10-18 This book contains artwork based on the novels published by King Tiger Books, a small printshop specializing in fantasy and science fiction where world building and imaginative settings come first. King Tiger Books started off as a dream about books where the creative world building part continued right up to the end. I have personally read over 5,000 fantasy and science fiction novels and found many of them conformed to the same pattern - 2 or 3 awesome chapters where the world was presented to the reader, exciting stuff where I could almost see the author's hand putting his chess pieces down in preparation for whatever fantasy or science fiction battles were to come. The rest of the novels were often bland,

non-descript and painfully filled with conversations. Sometimes the rest of the books had the characters walking around, like in one famous novel where a little halfling-person walked all the way across a dangerous fantasy world to throw his wedding ring into a volcano. The movie adaptation was good though. King Tiger books did things differently. My brother and I worked out the plots to our books together, focusing on setting, environment and background and making sure that the entire novel was like the first 2 or 3 chapters from other novels that I loved so much. The result is a series of books that contain more world building in 1 chapter than many other books have in their entirety. Our first novel, War Machines of von Saarik, is illustrated here. I used a wonderful program called Vue 16 Esprit to bring the world of Imtrund to life, spending countless hours drawing the crystals, castles and magic swords so important to the book's plot. Penturian, our second novel, gets royal treatment here. A neat blend of science fiction and fantasy, Penturian showcased a fighter pilot named Tychon of Kalos who fought valiantly at 20,000 feet to defend his planet from fire elementals, high tech ships and greedy old gods that wouldn't die. The jets from many of our science fiction novels are here including the single seat ships that the Octopoid Empire used to explore the galaxy in Iliad 2030, an intoxicating mix of science fiction, aviation and world building. Achiliosa rampaged through the skies in that one, gunning her enemies down in battle after battle. The jets from Star Pilot - a science fiction novel about defending civilized space from an intergalactic race of merciless reptiles - are here, boldly entering battle despite overwhelming odds. So grab some coffee, sit back and look through the pictures, exploring the galaxy along with my brave fighter pilots. Or pick up the books from King Tiger Books and read about their adventures, narrow escapes and epic battles.

Eyes Behind the Lines: US Army Long-Range Reconnaissance and Surveillance Units James F. Gebhardt, 2005 *Eyes Behind the Lines: US Army Long-Range Reconnaissance and Surveillance Units* is the 10th study in the Combat Studies Institute (CSI) Global War on Terrorism (GWOT) Occasional Paper series. This work is an outgrowth of concerns identified by the authors of *On Point: The United States Army in Operation IRAQI FREEDOM*. Specifically, these authors called into question the use of long-range surveillance (LRS) assets by commanders during that campaign and suggested an assessment ought to be made about their continuing utility and means of employment. This revision contains some important additional information the author received after this book was originally published Major (Retired) James Gebhardt, of CSI, researched and wrote this Occasional Paper with that end in view. In this study, Gebhardt surveys the US Army's historical experience with LRRP and LRS units from the 1960s Cold War and Vietnam War, through their resurgence in the 1980s and use in Operations JUST CAUSE and DESERT STORM, to the advent of the GWOT. The paper's analytical framework examines each era of LRS units in terms of doctrine, organization, training, materiel, leadership, and personnel. In doing so, the author makes a strong case for continuing the LRS capability in the Army's force structure. The variety of environments and enemies likely to be faced by the military in the GWOT continues to demand the unique human intelligence abilities of trained

and organized LRS units. As the Army leads the Armed Forces of the United States in combating terrorists where they live, the lessons found in this survey remain timely and relevant.

A Man Called Destruction Holly George-Warren, 2014-03-20 The first biography of the artist who “essentially invented indie and alternative rock” (Spin) A brilliant and influential songwriter, vocalist, and guitarist, the charismatic Alex Chilton was more than a rock star—he was a true cult icon. Awardwinning music writer Holly George-Warren’s *A Man Called Destruction* is the first biography of this enigmatic artist, who died in 2010. Covering Chilton’s life from his early work with the charttopping Box Tops and the seminal power-pop band Big Star to his experiments with punk and roots music and his sprawling solo career, *A Man Called Destruction* is the story of a musical icon and a richly detailed chronicle of pop music’s evolution, from the mid-1960s through today’s indie rock.

Born to Be Good: The Science of a Meaningful Life Dacher Keltner, 2009-10-05 “A landmark book in the science of emotions and its implications for ethics and human universals.”—Library Journal, starred review In this startling study of human emotion, Dacher Keltner investigates an unanswered question of human evolution: If humans are hardwired to lead lives that are “nasty, brutish, and short,” why have we evolved with positive emotions like gratitude, amusement, awe, and compassion that promote ethical action and cooperative societies? Illustrated with more than fifty photographs of human emotions, *Born to Be Good* takes us on a journey through scientific discovery, personal narrative, and Eastern philosophy. Positive emotions, Keltner finds, lie at the core of human nature and shape our everyday behavior—and they just may be the key to understanding how we can live our lives better. Red Popcorn Strings and Gumball Rings Nell Iris, 2019-12-07 Young couple Ellis and Casey’s Christmas is set to be a lean one. Struggling financially, they’re only able to manage the most basic

needs for their holiday celebration. They can't afford luxuries like a turkey. Or decorations. Or presents. Between the recent death of Casey's beloved momma, and Ellis' estrangement from his family, all they have is each other. When Ellis finds the saddest looking Christmas tree south of the Mason-Dixon line thrown outside his workplace and brings it home to Casey, things look up. Because what more do you need to have a Merry Christmas than enthusiasm, ingenuity, and someone to love?

The Assassin's Cloak Irene Taylor, Alan Taylor, 2020-11-05 'A diary is an assassin's cloak which we wear when we stab a comrade in the back with a pen', wrote William Soutar in 1934. But a diary is also a place for recording everyday thoughts and special occasions, private fears and hopeful dreams. *The Assassin's Cloak* gathers together some of the most entertaining and inspiring entries for each day of the year, as writers ranging from Queen Victoria to Andy Warhol, Samuel Pepys to Adrian Mole, pen their musings on the historic and the mundane. Spanning centuries and international in scope, this peerless anthology pays tribute to a genre that is at once the most intimate and public of all literary forms. This new updated edition is published to mark the twentieth anniversary of the book's original publication.

A Taste of Home Town, 2017-08-31

Houses Under the Sea Caitlín R. Kiernan, 2019 Since H.P. Lovecraft first invited colleagues such

as Frank Belknap Long and Robert Bloch (among others) to join in his creation of what has come to be known as ¿The Cthulhu Mythos¿ (over Lovecraft's less invocative name of ¿Yog-Sothery¿), dozens of authors have tried their hand at adding to this vast tapestry with varying degrees of success. Some, like the then teen-aged Ramsey Campbell, used the Mythos as a starting point to his own career while still finding his own authorial voice (The Inhabitant of the Lake and Less Welcome Tenants, Arkham House 1964); others, like Stephen King and Neil Gaiman, did so at the height of their careers, paying homage to an author who had been such a tremendous inspiration to them. But no one, absolutely no one, has contributed such a body of brilliant and profoundly original work to the Mythos as has Caitlín R. Kiernan. In this remarkable collection the author has selected over two dozen of her best Lovecraftian tales ranging from 2000s ¿Valentia¿ to her more recent classic ¿A Mountain Walked¿ as well as including the complete Dandridge Cycle, as well as a new story, ¿M Is for Mars.¿ In short, this is a cornerstone volume for Kiernan fans and Mythos devotees alike.
