The Maharajas & Their Magnificent Motor Cars Gautam Sen, 2011-08-01 This book is a full history of the automobile in India, and gives a complete study of India's automotive elite, The Maharajas, who purchased many exotic and exclusive cars from British, European, and American car makers mainly before their independence in 1947. Packed with interest and insight, there are 592 photos both period and contemporary, including the 1912 Brooke Swan (bodywork inspired by a swan). This book has been written by a leading expert Indian author who has meticulously studied the subject.

Parallel Tracks Lynne Kirby, 1997 In wide-ranging and provocative analyses of dozens of silent films - icons of film history like *The General* and *The Great Train Robbery* as well as many that are rarely discussed - Kirby examines how trains and rail travel embodied concepts of spectatorship and mobility grounded in imperialism and the social, sexual, and racial divisions

of modern Western culture.

Family Business on the Couch Manfred F. R. Kets de Vries, Randel S. Carlock, 2010-03-02 The challenge faced by family businesses and their stakeholders, is to recognise the issues that they face, understand how to develop strategies to address them and more importantly, to create narratives, or family stories that explain the emotional dimension of the issues to the family. The most intractable family business issues are not the business problems the organisation faces, but the emotional issues that compound them. Applying psychodynamic concepts will help to explain behaviour and will enable the family to prepare for life cycle transitions and other issues that may arise. Here is a new understanding and a broader perspective on the human dynamics of family firms with two complementary frameworks, psychodynamic and family systematic, to help make sense of family-run organisations. Although this book includes a conceptual section, it is first and foremost a practical book about the real world issues faced by business families. The book begins by demonstrating that many years of achievement through generations can be destroyed by the next, if the family fails to address the psychological issues they face. By exploring cases from famous and less well known family businesses across the world, the authors discuss entrepreneurs, the entrepreneurial family and the lifecycles of the individual and the organisation. They go on to show how companies going through change and transition can avoid the pitfalls that endanger both

family and company. The authors then apply tools that will help family businesses in transition and offer their analyses and conclusions. Readers should draw their own conclusions from careful examination of the cases, identifying the problems or dilemmas faced and the options for improved business performance and family relationships. They should ask what they might have done in the given situation and what new insight into individual or family behaviour each case offers. The goal is to avoid a bitter ending.

The Automobile and American Life, 2d ed. John Heitmann, 2018-07-31 Now revised and updated, this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time. It details cars' inception as a mechanical curiosity and later a plaything for the wealthy; racing and the promotion of the industry; Henry Ford and the advent of mass production; market competition during the 1920s; the development of roads and accompanying highway culture; the effects of the Great Depression and World War II; the automotive Golden Age of the 1950s; oil crises and the turbulent 1970s; the decline and then resurgence of the Big Three; and how American car culture has been represented in film, music and literature. Updated notes and a select bibliography serve as valuable resources to those interested in automotive history.

A Reference Grammar of French R. E. Batchelor, M. Chebli-Saadi, 2011-07-14 A Reference Grammar of French is a lively, wide-ranging and original handbook on the structure of the French language. It includes new information on

register, pronunciation, gender, number, foreign words (Latin, Arabic, English, Spanish, Italian), adjectives and past participles used as nouns, texting, word order, frequency of occurrence of words, and usage with all geographical names. Examples come not only from France, but also from Quebec, Belgium and Switzerland. Readers will appreciate the initial passages illustrating the grammatical features of a given chapter. Also included is a user-friendly introduction to the French language, from its Latin origins to modern times. A full glossary explains any terms that might confuse the less experienced reader, and the index leads the student through the detailed labyrinth of grammatical features. This handbook will be an invaluable resource for students and teachers who want to perfect their knowledge of all aspects of French grammar.

Strategic Brand Management Jean-Noel Kapferer, 2000-07-01 Strategic Brand Management deals with the concept and practice of brand management in its totality. The new edition is packed with fresh examples and case studies of brands from throughout the world, and pays particular attention to the development of global brands. Three new chapters have been included which concentrate on the life span of brands by looking at: the sources of challenges to brand equity; factors which dictate a brand's life expectancy; and revitalisation strategies for declining brands. More attention is now given to multi-brand strategies and there is a new chapter on the growing practice of merging brands. Given the increasing attention paid to brands by

the business to business sector, the service sector and producers of luxury goods, much more reference is made to these markets.

The Godwulf Manuscript Robert B. Parker, 2009-09-30 New York Times bestselling author of the Spenser series of crime thrillers—Book 1 in the series “The toughest, funniest, wisest, private eye in the field these days.”—Houston Chronicle Spenser earned his degree in the school of hard knocks, so he is ready when a Boston university hires him to recover a rare, stolen manuscript. He is hardly surprised that his only clue is a radical student with four bullets in his chest. The cops are ready to throw the book at the pretty blond coed whose prints are all over the murder weapon but Spenser knows there are no easy answers. He tackles some very heavy homework and knows that if he doesn't finish his assignment soon, he could end up marked “D”—for dead.

The Automobile Age James J. Flink, 1990-07-19 In this sweeping cultural history, James Flink provides a fascinating account of the creation of the world's first automobile culture. From Steam to Screen Rebecca Harrison, 2018-03-22 In late nineteenth and early twentieth century Britain, there was widespread fascination with the technological transformations wrought by modernity. Films, newspapers and literature told astonishing stories about technology, such as locomotives breaking speed records and moving images seemingly springing into life onscreen. And, whether in films about train travel, or in newspaper articles about movie theatres on trains, stories about the convergence of the railway and cinema were especially prominent. Together, the two technologies radically transformed how people interacted with the world around them, and became crucial to how British media reflected the nation's modernity and changing role within the empire. Rebecca Harrison draws on archival sources and an extensive corpus of films to trace the intertwined histories of the train and the screen for the first time. In doing so, she presents a new and illuminating material and cultural history of the period, and demonstrates the myriad ways railways and cinema coalesced to transform the population's everyday life. With examples taken from more than 240 newsreels and 40 feature-length films, *From Steam to Screen* is essential reading for students and researchers working on film studies and British history at the turn of the century and beyond.

Brave New Car Karl Smith, 2021-09-27 The best years of the automobile lie before us. But it will be a new kind of car and a new kind of automotive experience. There will be a new powertrain dominating the motoring world.

Driving will gradually be ceded to the on-board electronics, and, in response, interiors will become more luxurious and sociable. The car will connect with other cars, and infrastructure, a community and ecology of mobility. *Brave New Car* outlines the possibilities, and opportunities, that lie before us. A premium quality book for the professional, student, and enthusiast alike, *Brave New Car* is sure to challenge and inspire new thinking in the automotive world and beyond.

The Cinema of Attractions Reloaded Wanda Strauven, 2006 Twenty years ago, noted film scholars Tom Gunning and André Gaudreault introduced the phrase "cinema of attractions" to describe the essential qualities of films made in the medium's earliest days, those produced between 1895 and 1906. Now, *The Cinema of Attractions Reloaded* critically examines the term and its subsequent wide-ranging use in film studies. The collection opens with a history of the term, tracing the collaboration between Gaudreault and Gunning, the genesis of the term in their attempts to explain the spectacular effects of motion that lay at the heart of early cinema, and the pair's debts to Sergei Eisenstein and others. This reconstruction is followed by a look at applications of the term to more recent film productions, from the works of the Wachowski brothers to virtual reality and video games. With essays by an impressive collection of international film scholars—and featuring contributions by Gunning and Gaudreault as well—*The Cinema of Attractions Reloaded* will be necessary reading for all scholars of early film and its

continuing influence.
