White Pearl Anchuli Felicia King,2022-11-08 It's just a fun ad. Now the whole world is going crazy. In Singapore, Clearday(TM) has developed from a small startup into a leading international cosmetic brand in less than a year. But when a draft of the company's latest skin cream advert is leaked, the video goes viral globally for all the wrong reasons. YouTube views are in the thousands and keep climbing; anger is building on social media; and journalists are starting to cover the story. This is an international PR nightmare; the company cannot be seen to be racist, they've got to get it taken down before America wakes up.

Notes from the Hyena's Belly Nega Mezlekia,2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Typographic Systems of Design Kimberly Elam,2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility,

and contrast. In *Typographic Systems*, Kim Elam, author of our bestselling books, *Geometry of Design* and *Grid Systems*, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. *Typographic Systems* is the seventh title in our bestselling *Design Briefs* series, which has sold more than 100,000 copies worldwide.

Gorgias Encyclopedic Dictionary of the Syriac Heritage Sebastian P. Brock, 2011 The Gorgias Encyclopedic Dictionary of the Syriac Heritage (GEDSH) is the first major encyclopedia-type reference work devoted exclusively to Syriac Christianity, both as a field of scholarly inquiry and as the inheritance of Syriac Christians today. In more than 600 entries it covers the Syriac heritage from its beginnings in the first centuries of the Common Era up to the present day. Special attention is given to authors, literary works, scholars, and locations that are associated with the Classical Syriac tradition. Within this tradition, the diversity of Syriac Christianity is highlighted as well as Syriac Christianity's broader literary and historical contexts, with major entries devoted to Greek and Arabic authors and more general themes, such as Syriac Christianity's contacts with Judaism and Islam, and with Armenian, Coptic, Ethiopian, and Georgian Christianities.
