Mermaid Moon Susann Cokal,2020-03-03 An award-winning author tells of a mermaid who leaves the sea in search of her landish mother in a captivating tale spun with beautiful prose, lush descriptions, empathy, and keen wit. Blood calls to blood; charm calls to charm. It is the way of the world. Come close and tell us your dreams. Sanna is a mermaid — but she is only half seavish. The night of her birth, a sea-witch cast a spell that made Sanna’s people, including her landish mother, forget how and where she was born. Now Sanna is sixteen and an outsider in the seavish matriarchy, and she is determined to find her mother and learn who she is. She apprentices herself to the witch to learn the magic of making and unmaking, and with a new pair of legs and a quest to complete for her teacher, she follows a clue that leads her ashore on the Thirty-Seven Dark Islands. There, as her fellow mermaids wait in the sea, Sanna stumbles into a wall of white roses thirsty for blood, a hardscrabble people hungry for miracles, and a baroness who will do anything to live forever. From the author of the Michael L. Printz Honor Book *The Kingdom of Little Wounds* comes a gorgeously told tale of belonging, sacrifice, fear, hope, and mortality.

Scar Night Alan Campbell,2007-11-27 Suspended by chains over a seemingly bottomless abyss, the ancient city of Deepgate is home to a young angel, an assassin, and a psychotic murderer hungry for revenge—or redemption. But soon a shocking betrayal will unite all three in a desperate quest. . . . The last of his line, Dill is descended from legendary Battle-archons who once defended the city. Forbidden to fly and untrained even to wield the great sword inherited from his forebears, he has become a figurehead for a dying tradition. Now he lives a sheltered existence in one of Deepgate’s crumbling temple spires under the watchful eye of the Presbyter who rules the city. Spine assassin Rachel Hael has better things to do than oversee the Presbyter’s angel. Each dark moon she must fight for her life among the city chains, hunting an immortal predator with a taste for blood. But when a traitor brings enemies to Deepgate’s doorstep, Dill and Rachel are forced into an uneasy alliance with the city’s oldest and most dangerous foe. They must journey down into the uncharted chasm to save their sprawling metropolis—and themselves—from annihilation. Once they descend however, they learn that what lies below is far more sinister than what they’ve been taught to expect.

The Men Who Would Be Kings Daniel Mersey,2016-09-22 The Men Who Would Be Kings is a set of rules designed for fighting historical or Hollywood colonial battles in the mid to late 19th Century, from the Indian Mutiny to the Boxer Rebellion. Large scale colonial clashes tended to be one-sided affairs, but there are countless reports of brief, frantic skirmishes in every colonial war, where either side could be victorious, and these are the battles that The Men Who Would Be Kings seeks to recreate. Although focusing on the British colonial wars against the Zulus, Maoris and others, these rules will also permit players to explore the empires of France, Germany, and other nations, as well as allowing for battles between rival native factions. Gameplay is very simple, and is driven by the quality of the officers leading your units, in the true spirit of Victorian derring-do and adventure, where larger than life characters such as the (real) Fred Burnaby and the (fictional) Harry Flashman led their troops to glory and medals or a horrible end at the point of a spear tip.

Drawing Futures Bob Sheil,Frédéric Migayrou,Luke Pearson,Laura Allen,2016-11-11 Drawing Futures brings together international designers

and artists for speculations in contemporary drawing for art and architecture.Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie.Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

Japanese Wooden Boatbuilding Douglas Brooks,2021-09 This is the story of the author's apprenticeships with Japanese masters to build five unique and endangered traditional boats. It is part ethnography, part instruction, and part the personal story of a wooden boatbuilder fueled by a passion to preserve a craft tradition on the brink of extinction. Over the course of 17 trips to Japan, Douglas Brooks traveled over 30,000 miles to seek out and interview Japan's elderly master boatbuilders; he built boats with five of them, all in their seventies and eighties, between 1996 and 2010. For most of them, Brooks was their sole and last apprentice. Part I introduces significant aspects of traditional Japanese boatbuilding: design, workshop and tools, wood and materials, joinery and fastenings, propulsion, ceremonies, and the apprenticeship system. Part II details each of his five apprenticeships, concluding with a poignant chapter on Japan's sole remaining traditional shipwright. This fascinating book fills a large and long-standing gap in the literature on Japanese crafts, and will be of interest to boatbuilders, woodworkers, and all those impressed with the marvels of Japanese design and workmanship.
