Make Animal Sculptures with Paper Mache Clay Jonni Good,2010 If you've always wanted to create life-like animal sculptures, but you thought it would be too hard or too expensive, you're in for a very pleasant surprise. This book contains step-by-step instructions and over 250 photos to guide you through the enjoyable process of making realistic animal sculptures in a whole new way. Jonni Good's easy techniques help you create stunning wildlife art without the mess usually associated with papier mache - and the patterns included in each chapter guarantee that your sculptures will be perfectly shaped and proportioned from the very start. Paper mache clay takes about 5 minutes to make, using inexpensive ingredients. Applying the clay to your form is as easy as frosting a cake. It goes on smooth, and dries hard and strong. It's easy to form life-like details like eyes and noses, fur and scales. Then finish your sculptures with acrylic paints to bring them to life. Jonni even shows you how to create your own patterns from original drawings or photos, so you can use her techniques to sculpt any animal you like. Creating life-like animal sculptures has never been so easy, or so much fun!

The Great Cat & Dog Massacre Hilda Kean, 2017-03-14 The tragedies of World War II are well known. But at least one has been forgotten: in September 1939, four hundred thousand cats and dogs were massacred in Britain. The government, vets, and animal charities all advised against this killing. So why would thousands of British citizens line up to voluntarily euthanize household pets? In *The Great Cat and Dog Massacre*, Hilda Kean unearths the history, piecing together the compelling story of the life—and death—of Britain's wartime animal companions. She explains that fear of imminent Nazi bombing and the desire to do something to prepare for war led Britons to sew blackout curtains, dig up flower beds for vegetable patches, send their children away to the countryside—and kill the family pet, in theory sparing them the suffering of a bombing raid. Kean's narrative is gripping, unfolding through stories of shared experiences of bombing, food restrictions, sheltering, and mutual support. Soon pets became key to the war effort, providing emotional assistance and helping people to survive—a contribution for which the animals gained government recognition. Drawing extensively on new research from animal charities, state archives, diaries, and family stories, Kean does more than tell a virtually forgotten story. She complicates our understanding of World War II as a “good war” fought by a nation of “good” people. Accessibly written and generously illustrated, Kean's account of this forgotten aspect of British history moves animals to center stage—forcing us to rethink our assumptions about ourselves and the animals with whom we share our homes.

Heating with Wolves, Cooling with Cacti Negin Imani,Brenda Vale,2022-01-27 This book describes the detailed process behind the development of a comprehensive thermo-bio-architectural framework (the ThBA). This framework systematically connects the thermal performance requirements of a building to relevant solutions found in the natural world. This is the first time that architecture has been connected to biology in this manner. The book provides an in-depth understanding of thermoregulatory strategies in animals and plants and links these to equivalent solutions in architectural design. The inclusion of this fundamental knowledge, along with the systematic process of accessing it, should open up new avenues for the generation of energy efficient and sustainable buildings.
