Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

More Things in the Heavens Michael Werner, Peter Eisenhardt, 2019-06-25 A sweeping tour of the infrared universe as seen through the eyes of NASA's Spitzer Space Telescope. Astronomers have been studying the heavens for thousands of years, but until recently much of the cosmos has been invisible to the human eye. Launched in 2003, the Spitzer Space Telescope has brought the infrared universe into focus as never before. Michael Werner and Peter Eisenhardt are among the scientists who worked for decades to bring this historic mission to life. Here is their inside story of how Spitzer continues to carry out cutting-edge infrared astronomy to help answer fundamental questions that have intrigued humankind since time immemorial: Where did we come from? How did the universe evolve? Are we alone? In this panoramic book, Werner and Eisenhardt take readers on a breathtaking guided tour of the cosmos in the infrared, beginning in our solar system and venturing ever outward toward the distant origins of the expanding universe. They explain

how astronomers use the infrared to observe celestial bodies that are too cold or too far away for their light to be seen by the eye, to conduct deep surveys of galaxies as they appeared at the dawn of time, and to peer through dense cosmic clouds that obscure major events in the life cycles of planets, stars, and galaxies. Featuring many of Spitzer's spectacular images, *More Things in the Heavens* provides a thrilling look at how infrared astronomy is aiding the search for exoplanets and extraterrestrial life, and transforming our understanding of the history and evolution of our universe.

Letters and Letter Fragments Jean de Pins, 2007 R  unissant plus de cent trente lettres et fragments de lettres de la correspondance priv  e et diplomatique de l'humaniste toulousain Jean de Pins, Jan Pendergrass ouvre une perspective unique sur quelque quarante ans d'histoire fran  aise et europ  enne. Humaniste, juriste, diplomate et homme d'Eglise sous les r  gnes de Louis XII et Fran  ois Ier, de Pins fit de longues   tudes en France et en

Italie du nord avant de devenir, tour à tour, sénateur aux Parlements de Toulouse et Milan, puis ambassadeur français à Venise et à Rome. Consacré à l'épave de Rieux en 1524, il se démit de ses fonctions parlementaires et finit ses jours à Toulouse, entouré d'étudiants et de gens de lettres apprivoisés de littérature classique. Cette édition de sa correspondance révèle l'étendue considérable de ses rapports, non seulement avec les représentants de l'humanisme européen, mais aussi avec les chefs de la diplomatie française, avec des parlementaires, des gens de loi et d'Eglise exceptionnels.

Urban Anthropology in China Gregory Eliyu Guldin, Aidan Southall, 2023-07-24 This book is based on the papers that were presented at the First International Urban Anthropology Conference, which was opened in Beijing on December 28, 1989. It contains twenty-two papers and six introductory contributions, dealing with the following subjects: 'Comparative Urbanism: Socialist and Asian Cities'; 'Chinese Urbanization'; 'Chinese Urban Ethnicity'; 'Chinese Urban Culture and Life Cycle'. These papers are written by Chinese and non-Chinese authors. The conference of 1989/1990 marked the

beginning of urban anthropology in China. Before this, the objects of ethnological, sociological and anthropological research in China were rural, rather than urban. Besides, the attention of scholars was mostly directed towards the ethnic minorities in China. In the late 1970's however, contacts with Western anthropologists helped in redirecting part of Chinese anthropology towards the study of urban conglomerations. The congress of 1989/90 marked the acceptance of this new approach in China.

Fabulous! Mitchell Owens, 2017-10-10 This first book on the famed designer, renowned for rooms with bold color palettes, strongly graphic style contrasts, multicultural allusions, and stylish innovations, is a sweeping survey of his fifty-year career. Ever since Tom Britt opened his New York-based firm in 1964, he has been creating dramatic environments for his high-profile clients on multiple continents. His masterful design palette, with a wonderfully exotic slant, includes plush upholstered furniture, boldly patterned carpets, seductive lighting, and an elegantly theatrical use of mirrors. The resulting spaces are perfect for luxuriating and entertaining. From a chic pied-à-terre in San Francisco and tantalizing rooms at New York's famed Dakota apartment building to suburban manses in America's Midwest and a palace apartment in Jaipur, Britt's inimitable style merges saturated colors with an easy luxury. This book is necessary reading for anyone interested in the modern masters of interior design.
