Rocketman Weldon Owen, 2019-05-21 Rocketman: The Official Movie Companion contains a wealth of amazing photographs from throughout the development and shooting of the movie along with quotes and interviews from the cast and crew. The book provides fascinating insight into how the film was made, including locations, choreography, costumes and—of course—the music. In May 2019, audiences are invited to discover the fantastical story of Sir Elton John's life, from his years as a prodigy at the Royal Academy of Music, to global superstar, through his influential and enduring partnership with his songwriting collaborator Bernie Taupin. Rocketman, an epic musical fantasy from Paramount Pictures, Marv Studios and Rocket Pictures, stars Taron Egerton who plays Elton John, Jamie Bell (Bernie Taupin), Richard Madden (John Reid) and Bryce Dallas Howard (Sheila Eileen). Rocketman is written by Lee Hall (Billy Elliot, War Horse) and directed by Dexter Fletcher (Eddie the Eagle). This is the official book of the movie and features on-set and behind-the-scenes photos, quotes and more.

Integration of the Armed Forces, 1940–1965 Morris J. MacGregor, 2020-06-18 In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection

between inefficiency and discrimination that, even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy. Morris J. MacGregor, Jr., received the A.B. and M.A. degrees in history from the Catholic University of America. He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant. Before joining the staff of the U.S. Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff.

Yalman,2018-09-22 At the foot of Mount Ararat on the crossroads of the eastern and western worlds, medieval Armenians dominated international trading routes that reached from Europe to China and India to Russia. As the first people to convert officially to Christianity, they commissioned and produced some of the most extraordinary religious objects of the Middle Ages. These objects—from sumptuous illuminated manuscripts to handsome carvings, liturgical furnishings, gilded reliquaries, exquisite textiles, and printed books—show the strong persistence of their own cultural identity, as well as the multicultural influences of Armenia’s interactions with Romans, Byzantines, Persians, Muslims, Mongols, Ottomans, and Europeans. This unprecedented volume, written by a team of international scholars and members of the Armenian religious community, contextualizes and celebrates the compelling works of art that define Armenian medieval culture. It features breathtaking photographs of archaeological sites and stunning churches and monasteries that help fill out this unique history. With groundbreaking essays and exquisite illustrations, Armenia illuminates the singular achievements of a great medieval civilization. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

Times Remembered Joe La Barbera, Charles Levin, 2021-10-15 In the late 1970s legendary pianist Bill Evans was at the peak of his career. He revolutionized the jazz trio (bass, piano, drums) by giving each part equal emphasis in what jazz historian Ted Gioia called a “telepathic level” of interplay. It was an ideal opportunity for a sideman, and after auditioning in 1978, Joe La Barbera was ecstatic when he was offered the drum chair, completing the trio with Evans and bassist Marc Johnson. In *Times Remembered*, La Barbera and co-author Charles Levin provide an intimate fly-on-the-wall peek into Evans’s life, critical recording sessions, and behind-the-scenes anecdotes of life on the road. Joe regales the trio’s magical connection, a group that quickly gelled to play music on the deepest and purest level imaginable. He also watches his dream gig disappear, a casualty of Evans’s historical drug abuse when the pianist dies in a New York hospital emergency room in 1980. But La Barbera tells this story with love and respect, free of judgment, showing Evans’s humanity and uncanny ability to transcend physical weakness and deliver first-rate performances at nearly every show.
