50 Years of CFD in Engineering Sciences Akshai Runchal, 2020-03-09 Prof. D. Brian Spalding, working with a small group of students and colleagues at Imperial College, London in the mid-to late-1960's, single-handedly pioneered the use of Computational Fluid Dynamics (CFD) for engineering practice. This book brings together advances in computational fluid dynamics in a collection of chapters authored by leading researchers, many of them students or associates of Prof. Spalding. The book intends to capture the key developments in specific fields of activity that have been transformed by application of CFD in the last 50 years. The focus is on review of the impact of CFD on these selected fields and of the novel applications that CFD has made possible. Some of the chapters trace the history of developments in a specific field and the role played by Spalding and his contributions. The volume also includes a biographical summary of Brian Spalding as a person and as a scientist, as well as tributes to Brian Spalding by those whose life was impacted by his innovations. This volume would be of special interest to researchers, practicing engineers, and graduate students in various fields, including aerospace, energy, power and propulsion, transportation, combustion, management of the environment, health and pharmaceutical sciences.

Jim Clark Eric Dymock, 2017-04-01 Out of print for twenty years, a new edition of *Jim Clark 'Tribute to a Champion'* by Eric Dymock will be published in the spring. Lightly edited and completely redesigned in colour throughout, this eagerly sought classic of motor racing celebrates the life and achievements of Jim Clark (1936-1968), World Champion 1963 and 1965. In the new book, Eric Dymock details his place in motor racing history and total

command of Formula 1, portraying him as an individual, nail-biting and insecure, yet the greatest driver in any sort of motor sport. From a Scottish farming family Clark rewrote the annals of American racing at Indianapolis, coming second at his first attempt in 1963, winning in 1965. He seemed a match for any odds during eight dangerous years at the top of motor racing, yet died in an unlikely accident at a minor event at Hockenheim on April 7th 1968. Genius at the wheel was not enough. Rivals' subsequent safety campaigns saved countless lives on and off the track. Eric Dymock observed Clark from before he ever sat in a racing car, covering his professional career as member of The Motor magazine staff from 1962, and then as specialist motor racing correspondent from 1966. This book has photographs of Jim Clark's birthplace, home, memorabilia and archive material from the Jim Clark Room at Duns. The measured analysis throws light on the tense mood of Formula 1 in the hazardous 1960s when Clark narrowly missed four consecutive world titles. Misfortune in the closing laps of the final race of the season twice denied him a unique quartet. Some of his other records remain secure however. Clark's eight grand slams (pole position, leading every lap, fastest lap and winning a Grand Prix - his closest rivals Alberto Ascari and Michael Schumacher managed only five) is unlikely to be matched. The new edition will go on sale in the spring at regular bookshop prices for a new generation of Formula 1 fans, as the 50th anniversary of Clark's accident approaches.

Indy Split: The Big Money Battle That Nearly Destroyed Indy Racing John Oreovicz, 2021-05-30 Tradition, technology, and personal bravery combined to make the Indianapolis 500 one of the world's most famous sporting events. However, political infighting within the industry--which climaxed with a 12-year Split from 1996 to 2007 between competing forms of Indy car racing--prevented the sport from achieving its potential. The Split seriously tarnished the reputation of the Indianapolis 500 and allowed NASCAR to become America's most popular form of motorsport. But Indy car racing's dysfunction didn't originate in 1996. The story begins in 1945, when a businessman from Terre Haute, Indiana named Tony Hulman rescued the Indianapolis Motor Speedway from potential redevelopment. Over the next 75 years, the Hulman-George family used the stature of the Speedway to carve out a powerful position in American auto racing. Stewardship of the IMS often brought the family into conflict with Indy car competitors. A volatile period in the late 1970s resulted in the formation of Championship Auto Racing Teams (CART), and tensions ramped up even more when Hulman's grandson, Tony George, assumed power in 1990. The Split forced Indy car fans, sponsors, broadcasters and participants to choose sides. It created confusion and animosity and caused tremendous damage to the sport. With negotiations driven by legendary racer Mario Andretti and actor/racer Paul Newman, The Split was finally resolved in 2008, only for George to walk away less than three years later from the role he so desperately coveted. The long struggle for stability and leadership was finally resolved in 2020 when Roger Penske acquired IMS and the IndyCar Series.

Stirling Moss Stirling Moss, Simon Taylor, 2015-05-15 In this very personal book, Stirling Moss guides the reader through his motor racing life with a fascinating, insightful and often amusing commentary to an unrivalled collection of over 300 photographs, many of which will be unfamiliar to even his most ardent fans. He takes us from his childhood to the height of his

fame as 'Mr Motor Racing' and then to the sudden end of his career with that crash at Goodwood in 1962. Along the way we dwell on his finest moments as well as the setbacks, and delight in the sheer variety of machinery - almost 100 different cars - in which he competed during his rollercoaster racing life. This is a book that all motor racing enthusiasts will treasure. - Starting in 1948, he made his name in little 500cc Coopers, moving towards stardom in HWM, ERA and Cooper F2 cars, then his own F1 Maserati 250F. - The 1955 Mercedes season and its twin highlights - winning the Mille Miglia and the British Grand Prix. - His longing to win in British cars was rewarded with two fine F1 seasons at Vanwall (1957-58), with whom he came very close to winning the F1 World Championship, and sports car successes with Aston Martin. - Rear-engined Cooper and Lotus F1 cars with Rob Walker (1958-62), including two celebrated Monaco GP wins. - Two-seater variety: the amazing range of sports cars he drove included Jaguars (XK120, C-type and D-type), Maseratis (150S to 450S), Ferraris (250 GT SWB and Testa Rossa) and Porsches (550 Spyder to RS61), plus Frazer Nash Le Mans Replica, Osca, Healey 100S, Cooper 'Bobtail' and more. - Ever busy and versatile: rallying with Sunbeams, trialling a Harford special, Bonneville record-breaking with MG EX181, saloon car racing in a humble Standard Ten - and even a kart race. - Published to mark the 60th anniversary of Moss's famous win in the 1955 Mille Miglia road race in a Mercedes 300SLR. Foreword by 2014 Formula One World Champion Lewis Hamilton.

Dreaming Of Jupiter Ted Simon, 2012-12-20 Ted Simon is the author of the classic travel book JUPITER'S TRAVELS. It documents his four-year journey round the world by motorbike, travelling through Europe, Africa, South and North America, and Asia. A number one bestseller in the late 1970s, it is still regarded as one of the greatest motorcycle books - indeed, one of the greatest travel books - ever written. In 2001, at the age of 69, Ted Simon decided to retrace his journey, and DREAMING OF JUPITER is the result. It took him two and a half years - during which time he revisited all the countries he had travelled through in the 1970s. He found much had changed, and he reflects upon the increased poverty, political upheavals, environmental issues and indeed the changes in himself. But ultimately, DREAMING OF JUPITER is a hugely inspiring read with a positive message at its heart - that even at the age of 70 you can still set off on an adventure, and be surprised and excited by what life throws at you along the way.

Jenson Button: Life to the Limit Jenson Button, 2017-10-19 LONGLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR 2018 This is my life, not the stuff you've seen, but the things you haven't. This is my childhood growing up in the West Country, my struggles, my doubts and my hopes. It's the people I've met in my seventeen years in Formula One, many of whom I've loved, some of whom I definitely haven't. It's the laughs I've shared, the battles I've fought, some on the track with rivals and friends like Fernando Alonso, Lewis

Hamilton and Sebastian Vettel. It's the pressure I struggled with as I closed in on my World Championship in 2009, it's the calm I felt every time I settled into the cockpit. It's my dad - the many times he saved me, the one moment he doubted me, the hole in my life he left me. It's everything in one go, the good days as well as the bad. A life lived not just as a racing driver but, ultimately, as a human being.

Crusader Steve Holter, 2021-06-15 The tale of Crusader, the jet-powered boat of 1952, appears to be a simple one about the ambition of John Cobb and Reid Railton, two unassuming but deeply gifted men, to break the water speed record on Loch Ness only for their efforts to end in tragedy. In fact the story behind that fateful outcome -- Cobb's death on his first high-speed run -- is a complex web of clever design and inspirational endeavour mixed with personality clashes and errors of judgment. After many years of research, including access to a wealth of original documentation, Steve Holter unravels the entire saga of the ill-fated Crusader and presents a compelling detective story. John Cobb: the modest businessman with such a thirst for speed that he wanted to become the fastest man on water as well as on wheels after setting his land speed record of 396.196mph in 1947. Reid Railton: inspired designer and long-time friend behind Cobb's greatest speed accomplishments, notably with the Napier-Railton (holder of the lap record at Brooklands) and the Railton Mobil Special (land speed record car). In-depth study of Railton's innovative 'three-point' hull design for Crusader, with two rear sponsons and a single 'planing shoe' at the front -- plus a De Havilland Ghost jet engine delivering 5,000lb of thrust. Evolution of the design in parallel with testing of scale models, including a miniature jet-powered version evaluated near Portsmouth Harbour. Assessment and description of boat-builder Vosper's wooden construction, under Peter Du Cane's direction. An exhaustive account of proceedings at Loch Ness, where Cobb finally attempted a high-speed run on 29 September 1952 and achieved 206.89mph, faster than anyone had previously gone on water. Analysis of the structural failure that destroyed Crusader and killed Cobb. Much of the story is told in the words of the key protagonists, drawing in particular on correspondence and written accounts from the key people involved, most notably John Cobb, Reid Railton and Peter Du Cane.

Murray Walker: Unless I'm Very Much Mistaken Murray Walker, 2003 The voice of motor racing and much loved public figure - and the man responsible for introducing millions of viewers to the previously inaccessible world of Formula 1 - tells the story of his incident-packed life, with a brand new chapter on his globetrotting adventures since retirement. Murray Walker is a national treasure. When the man who made famous the catch phrase 'Unless I'm very much mistaken... I AM very much mistaken!!!' announced that he was retiring as ITV's Grand Prix commentator, the media reacted as if the sport itself was losing one of its biggest stars. His reputation for mistakes was the making of Walker. He was the fan who happened to be given the keys to the commentary box - and never wanted to give them back. His high-octane delivery kept viewers on the edge of their seats, while his passion for talking about the sport he loved was matched by an all-encompassing knowledge gained through hours of painstaking research before every race. In his book he writes about his childhood and the influence that his father, British motorcycle champion Graham Walker, had on his career. Failing to match his father's achievements on the track after active service in World War II, he made a successful career for himself in advertising which catapulted him to the top of his profession. An offer from the BBC to take over the commentary seat for their F1 broadcasts was too good to turn down, and it wasn't long before the infamous 'Murrayisms' enlivened a sport which until then had been shrouded in a cloak of unfathomable technical jargon and mind-numbing statistics. He also talks about the biggest changes in the sport over the last 50 years, in particular the safety issues which came to the fore after the tragic death of Ayrton Senna, which he witnessed first hand. His partnership with James Hunt behind the microphone is the subject of some

hilarious anecdotes, while his views on drivers past and present such as Stirling Moss, Jackie Stewart, Damon Hill and Michael Schumacher make for fascinating reading.

Jupiter's Travels in Camera Ted Simon, 2013-11-01 For four years during the 1970s Ted Simon rode a motorcycle around the world, something no-one had ever done before. He described his adventures first in regular bulletins for The Sunday Times and then, after his return, in Jupiter's Travels, a book that has become revered as a classic of travel writing. Published by Penguin, Jupiter's Travels has sold nearly a million copies in the intervening years and has remained in print throughout that time, remaining a strong seller even today. Ted Simon took a decent SLR camera on the trip, but only a handful of his several thousand color photographs were included in Jupiter's Travels. These are now included in the book published to coincide with the 40th anniversary of his ground breaking trip.
