Rick Riordan

The CZ-75 Family J. M. Ramos,1990 Touted by arms producers and designers world-wide as the finest combat handgun ever made, the Czech Model 754 pistol is in a class of its own. It is the most widely copied autoloading pistol in existence -- rivalled only by the legendary US war-horse, the Colt .45. The book opens with a brief but complete historical perspective, beginning with Czechoslovakian rifles introduced in the early 1900s and progressing through submachine guns, machine guns, and automatic pistols and revolvers, from the CZ Model 1927 to the CZ Model 1950. This is followed by an in-depth discussion of the early- and late-model CZ-75s, as well as the newest addition to the Czech pistol family -- the Czech army's newly adopted CZ-82 service pistol and the current-model CZ-85. Also included are a sneak preview of the upcoming CZ-90 line and a look at the exciting line-up of CZ-75 clones.

The Shooter's Guide to the Browning Hi-Power Stephen A. Camp,2003-01-01

Cold War Pistols of Czechoslovakia James D. Brown,2009 This is the first English language work to examine the subject in detail and the first in any language to identify, describe, and quantify variations and production figures for the models covered. The book focuses on the Czechoslovak Communist period (1948-1989), but reaches back into the 1930s in order to trace the history of the 6.35 mm Duo pocket pistol, which remained in production under the name Z until 1974 with a total of thirteen distinct marking variations, and the 6.35 mm model 1945, which had its beginnings as the model 1936. The 7.65 mm model 50 police pistol and its successor, the model 70, are covered in depth, documenting both marking variations and a significant number of design changes introduced during their thirty-three-year production life. The 7.62 mm model 52 Army pistol is given extensive treatment based on data drawn from over 2,000 specimens; in addition to descriptions of both standard and rare variants, significant discussion of the pistol's mechanical characteristics and potential safety problems is presented. Also covered are the more modern commercial CZ 75 and CZ 85, the military model 82, and the commercial CZ 83, as are small calibre target pistols and signal pistols.

Olcott's Land Values Blue Book of Chicago and Suburbs Olcott (Geo. C.) and Co,1940

The Best Caliber Wars James M Volo,2019-05 Guns can be very effective tools, but they are each of limited utility. There is no one weapon that is perfect for every purpose. Private persons may own a number of guns that fulfill a variety of functions. Ballistics is important for soldiers, law enforcement, sportsmen, and anyone who seeks to protect their life, their home, their family, or

their workplace. If you are among these, this book is for you. Not surprisingly, gun owners and firearms enthusiasts are often part of a social gun culture in which certain facts, trends, and fads circulate and evolve with time, some stirring intense loyalty among shooters even when the realities suggest otherwise. For the average gun user some very popular myths, misconceptions, and miscalculations concerning ballistics and the terminal effects of bullets are strongly held, and it is not the purpose of this discussion to demonstrate why they are or are not true, only to lay out the parameters of the debate so that the readers can make their own judgments with increased confidence. The origin of ballistics is in the study of the flight path of projectiles, but its domain has been expanded in modern times. Among the modern ballistic sciences are areas of interest concerning how ammunition and weapons operate.

Nicolaes Witsen and Shipbuilding in the Dutch Golden Age A. J. Hoving, Diederick Wildeman, 2012-03-29 In 1671, Dutch diplomat and scientist Nicolaes Witsen published a book that served, among other things, as an encyclopedia for the "shell-first" method of ship construction. In the centuries since, Witsen's rather convoluted text has also become a valuable source for insights into historical shipbuilding methods and philosophies during the "Golden Age" of Dutch maritime trade. However, as André Wegener Sleeswyk's foreword notes, Witsen's work is difficult to access not only for its seventeenth-century Dutch language but also for the vagaries of its author's presentation. Fortunately for scholars and students of nautical archaeology and shipbuilding, this important but chaotic work has now been reorganized and elucidated by A. J. Hoving and translated into English by Alan Lemmers. In *Nicolaes Witsen and Shipbuilding in the Dutch Golden Age*, Hoving, master model builder for the Rijksmuseum in Amsterdam, sorts out the steps in Witsen's method for building a seventeenth-century pinas by following them and building a model of the vessel. Experimenting with techniques and materials, conducting research in other publications of the time, and rewriting as needed to clarify and correct some vital omissions in the sequence, Hoving makes Witsen's work easier to use and understand. *Nicolaes Witsen and Shipbuilding in the Dutch Golden Age* is an indispensable guide to Witsen's work and the world of his topic: the almost forgotten basics of a craftsmanship that has been credited with the flourishing of the Dutch Republic in the seventeenth century. That book is finally here. Author Paul Kirchner was working with Cirillo on this biography at the time of Jim's untimely death in 2007. Kirchner draws on his extensive interviews with Cirillo, his family, friends, ex-partner Bill Allard and other SOU officers to create a vivid portrait of an affable and gregarious

man who nonetheless was the last man many armed robbers saw on this earth. In previously unpublished accounts, Cirillo describes in detail numerous stakeouts and sets the record straight about what he and the other SOU members actually accomplished on the streets of New York. Cirillo also talks about his early years as a street cop and his service with the NYPD Emergency Service Unit; his successes as a lifelong competitive shooter; his distinguished career as a firearms trainer; his unique relationship with Jeff Cooper; his carry guns and the guns of the SOU; and much more. Cirillo's unique voice and humor enliven every page, resulting in a fitting, lasting tribute to a legendary police officer, shooting instructor, gunfighter and raconteur.
