40M Nimrod Tank Destroyer and Armoured Anti Aircraft Gun Attila Bonhardt, 2019-04-19 The M40 NIMRÓD self-propelled armored autocannon was constructed and redesigned by Hungarian engineers of Swedish origin. This armored fighting vehicle was originally designed for antitank and antiaircraft role, but from 1943 it was used against tanks and self-propelled guns only for self defense. However, the NIMRÓD proved to be an excellent self-propelled antiaircraft weapon and has been very effective in the fire support of own infantry units. It was a real Hungarian Flakpanzer of WW2.

Michael Wittmann & the Waffen SS Tiger Commanders of the Leibstandarte in WWII Patrick Agte, 2021-09-15 German Panzer ace Michael Wittmann was by far the most famous tank commander on any side in World War II, destroying 138 enemy tanks and 132 anti-tank guns with his Tiger. In this continuation of his story, Volume Two follows Wittmann and his unit into Normandy to defend against the Allied invasion and provides maps, official documents, newspaper clippings, and orders of battle. A week after D-Day, Wittmann achieved his greatest success. On June 13, 1944, near Villers Bocage, the panzer ace and his crew attacked a British armored unit, single-handedly destroying more than a dozen tanks and preventing an enemy breakthrough. The exploit made Wittmann a national hero in Germany and a legend in the annals of war. He was killed two months later while attempting to repulse an Allied assault, but the book continues beyond his death until the Leibstandarte's surrender.

"Ironsides" Harold A. Skaarup, 2011-08-12 Major Hal Skaarup has woven together an informative and detailed synopsis of the carefully preserved and restored armoured fighting vehicles on display in Canada. He highlights the importance of these upon key turning points in history when these AFVs were in use as tools of war at home and overseas. We often associate the evolution of military prowess with the advancement of sophisticated technology. Major Skaarup's descriptions of Canadian armour as it evolved to the level it has today reveals that military planners have had to be continuously creative in adapting to the changes in modern combat. They had to devise many intricate techniques, tactics and procedures to overcome the insurgents and opposition forces faced in Afghanistan and future overseas missions where Canadian armour will be brought into play. This guide book will show the interested reader where to find examples of the historical armour preserved in Canada, and perhaps serve as a window on how Canada's military contribution to safety and security in the world has evolved.

Hetzer & G-13 George Parada, Robert Wroblewski, Stefan Draminski, Mike Koenig, 2009-12-15 * Includes free decals and masking foil Highly detailed publication covering the World War II German tank destroyers, the Hetzer and the G-13. The Hetzer (baiter), was a German light tank destroyer of the Second World War based on a modified prewar Czechoslovakian Panzer 38(t) chassis. It was intended to be more cost-effective than the much more ambitious Jagdpanther and Jagdtiger designs of the same period. Using a proven chassis, it avoided the mechanical problems of the larger armored vehicles. Containing dozens of archive black and white and color photos, including both close-up and walk-around shots, as well as color artwork profiles, this is an ideal reference for both the enthusiast and modeler, with masking foil included. About the Series Photosniper is a classic series of highly illustrated photo books on the best machines of war, creating, with numerous images, a close-up, walk-around view for each aircraft or vehicle. With emphasis on the key features of each machine, including their variations, artwork, markings, insignia and modifications, customizing and creating a model could not be easier. Includes a free decal sheet.

With Hitler in the West Heinrich Hoffmann, 2015-04-30 In May 1940, the German Army swept over Europe, unleashing a campaign of battles of annihilation on a hitherto unheralded scale. France was quickly overcome and Holland, along with Belgium, fell in a matter of days. At the head of this vast operation was the Führer with his Supreme Command, and on hand to document the highlights of their inimitable campaign was Heinrich Hoffmann, Hitler's close friend and official photographer. This is an invaluable photographic record of the events of Spring 1940, originally published as *Mit Hitler im Westen*, which was regarded as Heinrich Hoffman's finest work. The striking images displayed within provide both an intimate view inside the life of the Führer, and present a chilling glimpse into one of history's most vicious campaigns, and darkest hours. An important historic work, *With Hitler in the West* provides a fascinating insight into the events of 1940, that shook the world.

Panzers in Berlin 1945 Lee Archer, Mario Lippert, Robert Kraska, 2019-09-19 This 392-page book is lavishly illustrated with 360 mostly unpublished photographs that take the reader from the retreat at Seelow to collecting wrecks from central Berlin. Years of painstaking research and a network of like-minded researchers from across the globe have enabled the authors to piece together the who, where and why, including lists of

Big Gun Monitors Ian Buxton, 2008-03-30 "Extremely well researched . . . a total account of the design, building, service, refits, and fates of the big gun monitors built for WW1 and WW2." —Malcolm Wright, author of *British and Commonwealth Warship Camouflage of WWII* In the history of naval warfare probably no type of ship has provided more firepower per ton than the monitor—indeed they were little more than a huge gun mounting fitted on a simple, self-propelled raft. Designed and built rapidly to fulfil an urgent need for heavy shore-bombardment during World War I, they were top secret in conception, and largely forgotten when the short-lived requirement was over. Nevertheless, they were important ships, which played a significant role in many Great War campaigns and drove many of the advances in long-range gunnery later applied to the battle fleet. Indeed, their value was rediscovered during the Second World War when a final class was built. Monitors were largely ignored by naval historians until Ian Buxton produced the first edition of this book in 1978. Although published privately, this became an established classic and copies of the first edition are now almost unobtainable, so this new edition will be welcomed by many. It has been completely revised, extended and redesigned to a generous large format which allows material deleted from the original edition for lack of space to be restored. "This book looks in detail at the technical and economic aspects of the 42 monitors built, and is, without a doubt, the definitive work on the subject." —Ships Monthly "Ian Buxton's work has set the standard in celebrating these big gun ships . . . It makes an invaluable contribution to the study of naval and land operations." —Warships International

Panther & Its Variants Walter J. Spielberger, 2004-09 The first two volumes of this definitive history of German armor are now available in English! Known for its emphasis on detail, the Spielberger series shows in factory, test and combat photographs, and detailed line drawings, all production models, prototypes and modifications of specific armor and military vehicles. Volume I covers all variations of the Panther tanks, including all vehicles that used the Panther chassis. Volume II on the Sturmgeschütz assault guns, shows all short and long gun versions, as well as the various support vehicles of the Sturmartillerie. Upcoming volumes include: Volume III on the Panzer IV, and Volume IV and the Panzer III.

Death Traps Belton Y. Cooper, 2007-12-18 "An important contribution to the history of World War II . . . I have never before been able to learn so much about maintenance methods of an armored division, with precise details that underline the importance of the work, along with descriptions of how the job was done."—Russell F. Weigley, author of *Eisenhower's Lieutenants* "Cooper saw more of the war than most junior officers, and he writes about it better than almost anyone. . . . His stories are vivid, enlightening, full of life—and of pain, sorrow, horror, and triumph."—Stephen E. Ambrose, from his Foreword "In a down-to-earth style, *Death Traps* tells the compelling story of one man's assignment to the famous 3rd Armored Division that

spearheaded the American advance from Normandy into Germany. Cooper served as an ordnance officer with the forward elements and was responsible for coordinating the recovery and repair of damaged American tanks. This was a dangerous job that often required him to travel alone through enemy territory, and the author recalls his service with pride, downplaying his role in the vast effort that kept the American forces well equipped and supplied. . . . [Readers] will be left with an indelible impression of the importance of the support troops and how dependent combat forces were on them.”—Library Journal “As an alumnus of the 3rd, I eagerly awaited this book’s coming out since I heard of its release . . . and the wait and the book have both been worth it. . . . Cooper is a very polished writer, and the book is very readable. But there is a certain quality of ‘you are there’ many other memoirs do not seem to have. . . . Nothing in recent times—ridgerunning in Korea, firebases in Vietnam, or even the one hundred hours of Desert Storm—pressed the ingenuity and resolve of American troops . . . like WWII. This book lays it out better than any other recent effort, and should be part of the library of any contemporary warrior.”—Stephen Sewell, Armor Magazine “Cooper’s writing and recall of harrowing events is superb and engrossing. Highly recommended.”—Robert A. Lynn, The Stars and Stripes “This detailed story will become a classic of WWII history and required reading for anyone interested in armored warfare.”—Publishers Weekly (starred review) “[Death Traps] fills a critical gap in WWII literature. . . . It’s a truly unique and valuable work.”—G.I. Journal

Panzerwrecks 20 Lee Archer,Kamen Nevenkin,2016 Kamen Nevenkin and Lee Archer join forces to bring you hitherto unseen photos from the depths of the Russian archives in Panzerwrecks 20: Ostfront 3. This book is exclusively about the havoc and wreckage inflicted on the Panzerwaffe by the Russian airforce around Lake Balaton in Hungary. Lots of late war German AFVs in varying stages of destruction - perfect for the modeler or student of armored conflict. Specially commissioned colour artwork by Felipe Rodna show selected Panzers and the weapons used by the Soviet airforce. Includes a map of the battlefield.
