**Field Notes from an Unintentional Birder** Julia Zarankin, 2020-09-12  
When Julia Zarankin saw her first red-winged blackbird at the age of thirty-five, she didn't expect that it would change her life. Recently divorced and

auditioning hobbies during a stressful career transition, she stumbled on birdwatching, initially out of curiosity for the strange breed of humans who wear multi-pocketed vests, carry spotting scopes and discuss the finer points of optics with disturbing fervour. What she never could have predicted was that she would become one of them. Not only would she come to identify proudly as a birder, but birding would ultimately lead her to find love, uncover a new language and lay down her roots. *Field Notes from an Unintentional Birder* tells the story of finding meaning in midlife through birds. The book follows the peregrinations of a narrator who learns more from birds than she ever anticipated, as she begins to realize that she herself is a migratory species: born in the former Soviet Union, growing up in Vancouver and Toronto, studying and working in the United States and living in Paris. Coming from a Russian immigrant family of concert pianists who believed that the outdoors were for “other people,” Julia Zarankin recounts the challenges and joys of unexpectedly discovering one’s wild side and finding one’s tribe in the unlikeliest of places. Zarankin’s thoughtful and witty anecdotes illuminate the joyful experience of a new discovery and the surprising pleasure to be found while standing still on the edge of a lake at six a.m. In addition to confirmed nature enthusiasts, this book will appeal to readers of literary memoir, offering keen insight on what it takes to find one’s place in the world.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting

armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
