*Ford Transcontinental at Work* Patrick W. Dyer, 2012-02 This is the full story of the Ford Transcontinental - affectionately known as the Transconti - a big lorry, magnificent to drive and unusual in its time for its Eaton-Fuller gear-box and a high-spec cab. The Ford Transconti nearly got it right; nearly made a profit for Ford. Never-the-less, the Transconti remains a memorable model, loved by truckers and truck enthusiasts alike. For Patrick's new book celebrating the model he has gathered over 200 photographs to show the truck in its full glory over the years and in a variety of liveries and locations. Each photograph has an extensive caption. When read together these give the complete story of the introduction, development, and decline of the model. There is extensive information on bodywork and engine specifications, the little differences that changed over time and the details which made the model so special to those who drove it. Photographs show the trucks at work abroad and there are many shots of them on the productions line. To set the Transcontinental in context, Patrick also considers the models which came before and after. Patrick's informative and friendly writing style gives the impression of sharing this story with a fellow enthusiast. The entertaining foreword is by George Bennett.

The Iran-Iraq War Rob Johnson, 2010-11-24 The Iran-Iraq War was personified by the determination and ambition of the key leaders, Saddam Hussein and Ayatollah Khomeini, and characterised by mass casualties, the repression of the civilian populations and chemical warfare. Fought with lucrative oil money, it left the belligerents with crippling debts. In this important reappraisal, Rob Johnson explores the major issues surrounding the war, offers a fresh analysis of the military aspects and assesses the far-reaching consequences for the wider world. It is essential reading for anyone who wishes to understand the ensuing conflicts in the region, including the invasion of Iraq in 2003.

*The Watery Maze* Bernard Fergusson, 1961 During Britain's darkest hour, in 1940, extraordinary measures were necessary for survival. This bleak period of defense against the Axis led to the formation of Combined Operations, a semi-independent unit composed of admirals, generals, and air marshals. It became Britain's offensive team which, in the end, was instrumental in the successful invasions of North Africa, Sicily, and Normandy. Here is the complete story of the creation of that unit, beginning with a series of daring raids on the coasts of Norway, France, Africa, and Madagascar. These raids often resulted in great loss of life, but the lessons they taught the command led to dramatic successes. Combined Operations grew up with the war and played a part in the ultimate Allied victory in Europe and also in the Suez campaign of 1956--Taken from the book jacket flap.
