Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Illustrators Unlimited Robert Klanten,Hendrik Hellige,2011 A lavish showcase of cutting-edge illustration talents from around the world.

Mexican Cartonería Leigh Ann Thelmadatter,2019 Bilingual, to appeal to the Spanish-speaking market in the US and in Mexico. The first book (in either English or Spanish) dedicated solely to this branch of handcraft ingenuity, in spite of its long importance to the Mexican festival calendar. In the past 20 years, the craft has experienced a renaissance, resulting in new forms, monumental sizes, cartonería events, and the spread of working with paper and paste in other parts of the country. This book is the first to document the craft's importance, and its revival.

Managing the Wild Charles M. Peters,2018-02-20 Drawn from ecologist Charles M. Peters's thirty-five years of fieldwork around the globe, these absorbing stories argue that the best solutions for sustainably managing tropical forests come from the people who live in them. As Peters says, "Local people know a lot about managing tropical forests, and they are much better at it than we are." With the aim of showing policy makers, conservation advocates, and others the potential benefits of giving communities a more prominent conservation role, Peters offers readers fascinating backstories of positive forest interactions. He provides examples such as the Kenyah Dayak people of Indonesia, who manage subsistence orchards and are perhaps the world's most gifted foresters, and communities in Mexico that sustainably harvest agave for mescal and demonstrate a near-heroic commitment to good practices. No forest is pristine, and Peters's work shows that communities have been doing skillful, subtle forest management throughout the tropics for several hundred years.

This Girl for Hire G.G. Fickling,2024-04-02 In the bustling streets of 1950s Los Angeles, Honey West emerges as a dazzling beacon of wit, charm, and unwavering courage. *This Girl for Hire* marks the thrilling debut of the first female private eye in popular fiction. Honey isn't just any detective; she's a trailblazer in a man's world, combining unparalleled intellect with a femme fatale's allure. Whether she's navigating the shadowy alleys of crime or the intricate puzzles of love, West proves time and again that she's more than capable of cracking the toughest cases.

Suggestivism ,2011 SUGGESTIVISM is the companion catalogue to a vibrantly fresh exhibition presented by Cal State University's Grand Central Art Center from February to April 2011. The exhibit coins this new art term to refer to a genre of artwork encompassing the rising stars of the contemporary art world. Often intricate and evocative of the richness and languid decadence of historical tableaux, the artwork in SUGGESTIVISM contains elements of world-weariness, isolation and a sense of the absurd. Featuring more than fifty artists including studio shots and artist interviews.

Conquer the Crash Robert R. Prechter, Jr.,2009-11-20 Today's financial and economic tribulations were a long time in the making. Many people ask, Why didn't someone see it coming? A New York Times bestselling book did see it coming. Over 100,000 people read it in time to protect their wealth. The book foresaw and explained the collapse in home prices, plunge in stocks, subprime debacle, liquidity crisis, the demise of Fannie and Freddie, the Federal Reserve's failure to turn the trend, and lots more. The book was Robert Prechter's Conquer the Crash, published in early 2002, when the Dow was above 10,000 and the financial world was partying around-the-clock. Fast forward to today: the average U.S. homeowner has suffered a decline of 30% to 40% in property value. Stocks and commodities had their biggest fall since 1929-1932. Fannie Mae is a zombie corporation under the government's protection. The Fed has pushed every button at its disposal (and then some), to no avail. If Prechter thought a whole new book would help, he'd have written one. But Conquer the Crash is a book-length forecast that's still coming true -- only some of the future has caught up with the specific predictions he published back then. There is much more to come. That means more danger, but also great opportunity. Conquer the Crash, 2nd edition offers you 188 new pages of vital information (480 pages total) plus all the original forecasts and recommendations that make the book more compelling and relevant than the day it published. In every disaster, only a very few people prepare themselves beforehand. Think about investor enthusiasm in 2005-2008, and you'll realize it's true. Even fewer people will be ready for the soon-approaching, next leg down of the unfolding depression. In this 2nd edition, Prechter gives a warning he's never had to include in 30 years of publishing -- namely, that the doors to financial safety are closing all over the world. In other words, prudent people need to act while they can. Conquer the Crash, 2nd Edition readers will receive exclusive online access to the Conquer the Crash Readers Page, where Prechter continually updates the book's recommended services and institutions.

Visual Harmony Sendpoints SENDPOINTS,2018-09-14 Proportion as a basic element in the field of design has been widely studied. Taking mathematical theories, the golden ratio, and sequence principles into consideration in design and art often helps improve visual aesthetics, and the beauty of well-used proportions can be found in a variety of design projects. Visual Harmony presents outstanding design works highlighting well-crafted proportions, presenting projects that will be solid references to readers worldwide. It elaborates on the subject with information in the form of descriptive text and diagrams. Brand logos, visual identities, illustrations, and other artistic works featured in this book stand out from others because of the designers' in-depth understanding of proportions, reflecting the importance of rational thinking in the ever-changing creative world.

Scarlet Citadel for 5th Edition Steve Winter,2021-08-17 Once a functional fortress where wizards honed their eldritch craft, little now remains of the Scarlet Citadel--on the surface. The place now has a sinister and deadly reputation among adventurers and lorekeepers,

and for good reason. The dungeon's well-trod stairs have seen few return from their journeys below. Here, deep underground, dwarven mercenaries once bred their owlbears for war, sorcerers from the White Forest practiced their arts, and strange cults from other realms drew from mysterious nodes of power. Ancient treasures and secrets are still scattered everywhere. Malevolent creatures spin shadowy webs, enchant foul magics, and summon forth dark gods. The Scarlet Citadel for 5th Edition hardcover is: * A massive hardcover tome containing a classic-style adventure for 10 levels of play, fully compatible for D&D 5E. * Easily paired with the Scarlet Citadel Map Folio, a fold-out set of playable battle maps from Kobold Press. * Suited for newcomers to tabletop RPGs as well as long-time Game Masters. * Optimized for evocative combats and magical mysteries, and brimming with plots and subplots to uncover. * Full of original traps and new monsters as well as a complete write-up of the nearby town of Redtower, where the adventurers can set up a home base.
