*Mosques: The 100 Most Iconic Islamic Houses Of Worship (Special Edition)* Bernard O’Kane,2019-06-01 While all mosques stem from a common tradition of reverence, differing sects, regions and practices have led to many innovations and novel architectural forms. Mosques is the latest addition to the “Ultimate collection,” and is a journey through centuries and continents that brings readers to the threshold of 100 of the world’s most historically significant buildings that are home to worshippers of the fastest growing, and second largest, religion in the world.

**Across the Sahara** Klaus Braun,Jacqueline Passon,2020-08-14 This open access book provides a multi-perspective approach to the caravan trade in the Sahara during the 19th century. Based on travelogues from European travelers, recently found Arab sources, historical maps and results from several expeditions, the book gives an overview of the historical periods of the caravan trade as well as detailed information about the infrastructure which was necessary to establish those trade networks. Included are a variety of unique historical and recent maps as well as remote sensing images of the important trade routes and the corresponding historic oases. To give a deeper understanding of how those trading networks work, aspects such as culturally influenced concepts of spatial orientation are discussed. The book aims to be a useful reference for the caravan trade in the Sahara, that can be recommended both to students and to specialists and researchers in the field of Geography, History and African Studies.

**Armenia, Travels and Studies** Harry Finnis Blossie Lynch,1901 The author's account describes two separate journeys, from August 1893 to March 1894 and from May to September 1898.

Afghanistan's Islam Nile Green,2017 This book provides the first ever overview of the history and development of Islam in Afghanistan. It covers every era from the conversion of Afghanistan through the medieval and early modern periods to the present day. Based on primary sources in Arabic, Persian, Pashto, Urdu and Uzbek, its depth and scope of coverage is unrivalled by any existing publication on Afghanistan. As well as state-sponsored religion, the chapters cover such issues as the rise of Sufism, Sharia, women's religiosity, transnational Islamism and the Taliban. Islam has been one of the most influential social and political forces in Afghan history. Providing idioms and organizations for both anti-state and anti-foreign mobilization, Islam has proven to be a vital socio-political resource in modern Afghanistan. Even as it has been deployed as the national cement of a multi-ethnic 'Emirate' and then 'Islamic Republic,' Islam has been no less a destabilizing force in dividing Afghan society. Yet despite the universal scholarly recognition of the centrality of Islam to Afghan history, its developmental trajectories have received relatively little sustained attention outside monographs and essays devoted to particular moments or movements. To help develop a more comprehensive, comparative and developmental picture of Afghanistan's Islam from the eighth century to the present, this edited volume brings together specialists on different periods, regions and languages. Each chapter forms a case study 'snapshot' of the Islamic beliefs, practices, institutions and authorities of a particular time and place in Afghanistan--Provided by publishe

**Muslim Mafia** P. David Gaubatz,Paul E. Sperry,2009 As part of an undercover operation, Gaubatz and his team revealed a well-funded conspiracy to destroy American society and promote radical Islam.

Early Islamic Qiblas Dan Gibson,2017 For the first time in history Dan Gibson has undertaken a comprehensive survey of Islamic mosques from the first two centuries of Islam. Using this data, Gibson demonstrates that Muhammad and the first four caliphs never knew of Mecca in Saudi Arabia. This book shatters old perspective about Islamic history and is unlocking the truth about Islam.

**Environmental Simulation** R.W. Marans,Daniel Stokols,2013-06-29 This volume is intended to provide an overview and scholarly analysis of state-of-the-art developments within the field of environmental simulation research. Environmental simulation involves the presentation of scale model previews, full-scale mock-ups, and computer images of planned environments and activities taking place within them to designers and to prospective users of those settings. Environmental simulations are under taken for many purposes, including (1) the training of environmental design students and professionals, (2) the assessment of people's environmental preferences, and (3) the incorporation of observers' assessments of simulated settings into the planning, design, and renovation of actual environments to maximize the degree of fit between occupants' needs and the arrangement of their physical surroundings. Environmental simulation research has expanded rapidly during the past two decades as the result of increasing collaboration between behavioral and social scientists, environmental designers, and professional planners. During this period, alternative conceptual and methodological approaches to environmental simulation have emerged, and numerous programs of simulation research have been initiated worldwide. To date, however, no attempt has been made to present a comprehensive review and assessment of these research developments and an analysis of their implications for design and public policy. Accordingly, the major objectives of this volume are to provide an overview of key conceptual and methodological advances within the field of environmental simulation research and to place these diverse developments within a broader scientific and public policy context.

al Ittiba Wasiullah ibn Muhammad Abbaas,2013-07-01 This book is an English translation of the book (الاتباع و أصول فقه السلف) ‘Al Ittiba and the Principles of ‘Fiqh’ of the Righteous Predecessors’ by the great noble scholar, muhaddith, faqeeh, professor sheikh Wasiullah ibn Muhammad Abaas, may Allah preserve him and raise his status in this world and the next. I depended upon the first (2010/1431H) ‘Dar ul Istiqaamah’ printing of this book while translating.

**Bringing Up Children In Islam** Maulana Habibullah Mukhtar,2000

**Revelation, Rationality, Knowledge & Truth** Hazrat Mirza Tahir Ahmad,1998-06-30 Any divide between revelation and rationality, religion and logic has to be irrational. If religion and rationality cannot proceed hand in hand, there has to be something deeply wrong with either of the two. Does revelation play any vital role in human affairs? Is not rationality sufficient to guide man in all the problems which confront him? Numerous questions such as these are examined with minute attention. All major issues which intrigue the modern mind are attempted to be incorporated in this fascinatingly comprehensive statute. Whatever the intellectual or educational background of the reader, this book is bound to offer him something of his interest. It examines a very diverse and wide range of subjects including the concept of revelation in different religions, history of philosophy, cosmology, extraterrestrial life, the future of life on earth, natural selection and its role in evolution. It also elaborately discusses the advent of the Messiah, or other universal reformers, awaited by different religions. Likewise, many other topical issues which have been agitating the human mind since time immemorial are also incorporated. The main emphasis is on the ability of the Quran to correctly discuss all important events of the past, present and future from the beginning of the universe to its ultimate end. Aided by strong incontrovertible logic and scientific evidence, the Quran does not shy away from presenting itself to the merciless scrutiny of rationality. It will be hard to find a reader whose queries are not satisfactorily answered. We hope that most readers will testify that this will always stand out as a book among books – perhaps the greatest literary achievement of this century.

**Islam in the Contemporary World** Zafarullāh Khān,2016

**Mosques in Europe** Stefano Allievi,Ethnobarometer Programme,NEF Initiative on Religion and Democracy in Europe,Alliance Publishing Trust,2010

**Inside the Gender Jihad** Amina Wadud,2013-10-01 A world-renowned professor of Islamic studies, Amina Wadud has long been at the forefront of what she calls the 'gender jihad,' the struggle for justice for women within the global Islamic community. In 2005, she made international headlines when she helped to promote new traditions by leading the Muslim Friday prayer in New York City, provoking a firestorm of media controversy and kindling charges of blasphemy among conservative Muslims worldwide. In this provocative book, *Inside the Gender Jihad*, Wadud brings a wealth of experience from the trenches of the jihad to make a passionate argument for gender inclusiveness in the Muslim world. Knitting together scrupulous scholarship with lessons drawn from her own experiences as a woman, she explores the array of issues facing Muslim women today, including social status, education, sexuality, and leadership. A major contribution to the debate on women and Islam, Amina Wadud's vision for changing the status of women within Islam is both revolutionary and urgent.

**The Caspian Sea Encyclopedia** Igor S. Zonn,Aleksey N Kosarev,Michael Glantz,Andrey G. Kostianoy,2010-05-26 “The Caspian Sea Encyclopedia” is the second one in the new series of encyclopedias about the seas of the former Soviet Union published by Springer-Verlag. The first volume – “The Aral Sea Encyclopedia” was published by Springer in 2009. The series will be continued by “The Black Sea Encyclopedia” in 2010. Today the Caspian Sea is known to readers thanks to its oil and gas resources, sturgeon and caviar, significant sea-level variations, socio-economic and political problems. The Caucasus and Central Asia ([http://eurodialogue.org/?les/fckeditor\\_?les/Caspian-s-map2.png](http://eurodialogue.org/?les/fckeditor_?les/Caspian-s-map2.png)) vii viii Introduction For more than 250 years the Caspian Sea was shared by two states: Russia (the Soviet Union) and Persia (Iran). After the disintegration of the USSR in 1992, the new independent states of Azerbaijan, Turkmenistan and Kazakhstan have radically changed the political and economic situation in the region. In addition to Russia and Iran, who had determined the situation on the Caspian for a long period, Azerbaijan, Turkmenistan and Kazakhstan are now interested parties, beginning a new stage in the historical development of the Caspian region. This increase in the number of the Caspian legal entities from two to five has given rise to a whole tangle of geopolitical, economic, international legal, ethnic and environmental problems, each of which demands its own approach and settlement mechanism.

**Deconstructing the American Mosque** Akel Ismail Kahera,2010-01-01 From the avant-garde design of the Islamic Cultural Center in New York City to the simplicity of the Dar al-Islam Mosque in Abiquiu, New Mexico, the American mosque takes many forms of visual and architectural expression. The absence of a single, authoritative model and the plurality of design nuances reflect the heterogeneity of the American Muslim community itself, which embodies a whole spectrum of ethnic origins, traditions, and religious practices. In this book, Akel Ismail Kahera explores the history and theory of Muslim religious aesthetics in the United States since 1950. Using a notion of deconstruction based on the concepts of *jamal* (beauty), subject, and object found in the writings of Ibn Arabi (d. 1240), he interprets the forms and meanings of several American mosques from across the country. His analysis contributes to three debates within the formulation of a Muslim aesthetics in North America—first, over the meaning, purpose, and function of visual religious expression; second, over the spatial and visual affinities between American and non-American mosques, including the Prophet's mosque at Madinah, Arabia; and third, over the relevance of culture, place, and identity to the making of contemporary religious expression in North America.

*Faith-Based Violence and Deobandi Militancy in Pakistan* Jawad Syed,Edwina Pio,Tahir Kamran,Abbas Zaidi,2016-11-09 This book documents and highlights the Deobandi dimension of extremism and its implications for faith-based violence and terrorism. This dimension of radical Islam remains largely ignored or misunderstood in mainstream media and academic scholarship. The book addresses this gap. It also covers the Deobandi diaspora in the West and other countries and the role of its radical elements in transnational incidents of violence and terrorism. The specific identification of the radical Deobandi and Salafi identity of militants is useful to isolate them from the majority of peaceful Sunni and Shia Muslims. Such identification provides direction to governmental resources so they focus on those outfits, mosques, madrassas, charities, media and social media channels that are associated with these ideologies. This book comes along at a time when there is a dire need for alternative and contextual discourses on terrorism.

**Constitutional Reform and Political Participation in the Gulf** Abdulhadi Khalaf,Giacomo Luciani,2008-05-15 The debate on political reform in the Gulf states has intensified dramatically in recent years. However, discourse on the topic is usually couched in terms of authoritarianism vs. democratisation. However, a more appropriate angle from which to view it, argues this new book, is in terms of the evolution of Gulf constitutions and the widening of political participation. The contributors demonstrate that constitutional reforms have so far served the purpose of consolidating the absolute power of the rulers but have also allowed the progressive development of institutions whose representative character and influence on the policy-making process has been growing. Political participation has considerably widened – partly thanks to these new or strengthened institutions – but even more so because of the increased access to information and freedom of expression brought about by the IT revolution. None of the Gulf regimes is truly democratic, and a long evolution will probably be necessary before they can be recognised as such. Nevertheless, this book demonstrates that real change is taking place and that prospects for political reform in the Gulf may even be better than in the rest of the Arab world.

**Denial** Jessica Stern,2011-06-07 Hailed by critics and readers alike, Jessica Stern's riveting memoir examines the horrors of trauma and denial as she investigates her own unsolved adolescent sexual assault at the hands of a serial rapist. Alone in an unlocked house, in a safe suburban Massachusetts town, two good, obedient girls, Jessica Stern, fifteen, and her sister, fourteen, were raped on the night of October 1, 1973. The rapist was never caught. For over thirty years, Stern denied the pain and the trauma of the assault. Following the example of her family, Stern—who lost her mother at the age of three, and whose father was a Holocaust survivor—focused on her work instead of her terror. She became a world-class expert on terrorism and post-traumatic stress disorder who interviewed extremists around the globe. But while her career took off, her success hinged on her symptoms. After her ordeal, she no longer felt fear in normally frightening situations. Stern believed she'd disassociated from the trauma altogether, until a dedicated police lieutenant reopened the case. With the help of the lieutenant, Stern began her own investigation to uncover the truth about the town of Concord, her own family, and her own mind. The result is *Denial*, a candid, courageous, and ultimately hopeful look at a trauma and its aftermath.

**Sea of Pearls** Robert A. Carter,2012 Since Antiquity the natural pearls of the Gulf have been famed as the finest, most lustrous and most plentiful that the world can offer. From the beginnings of trade until the 1930s, these pearls were a major product of the Gulf's coastal peoples. Latterly, from the 17th to the early 20th centuries, rising international demand turned pearling into their economic mainstay. By this time pearls were fished in their millions, and pearling became the pillar of the regional economy, dominating the lives, health and expectations of entire shajdhoms. The influx of people and wealth to the coast permanently transformed the Gulf, providing the manpower and capital to germinate and nurture the city-states - notably Kuwait, Bahrain, Qatar, Abu Dhabi, Dubai, Sharjah and Ras al-Khaimah - which endure there today. Despite its formative role, there has until now been no book taking the entire history of pearling as its subject. Dr Carter's ground-breaking work traces its evolution on both the Arabian and the Persian sides of the Gulf, and explores the role it played in shaping the political, social and urban configuration that we see in the region today. It shows the extent to which the Gulf economy became dependent on a single commodity, and how, in that respect, pearling resembled the oil industry that would replace it. Lavishly illustrated, this book covers in unprecedented detail the history, development, conduct, florescence and catastrophic collapse of the industry in the early 20th century. It will fascinate not only those wishing to understand the growth and conduct of the pearl fishery, but also those interested in the history of the region and the origins of the Gulf states, and in the colourful story of the global taste for one of mankind's most highly prized precious stones.
