*Vietnamese Organized Crime in the Czech Republic* Miroslav Nožina,Filip Kraus,2020-06-17 This book provides a complex, socio-anthropological analysis of organized crime operating in the Vietnamese diaspora in the Czech Republic, and its international implications. Currently, there are about four million people of Vietnamese descent living in this diaspora and many other countries, looking for an opportunity to improve their lives. This book draws upon original and primary research including interviews, participant observation and documentary analysis to trace the migration and history of the Vietnamese diaspora in the Czech Republic. It highlights the influence of crime, criminality and Vietnamese organized crime on the social organization and everyday life of the diaspora. It also examines the whole range of organized crime activities that they engage in and argues that they develop contemporary diasporic Asian crime networks which are shaped by the social environment of the host countries. This unique book contributes to the discourse on the changing identities of the migrants and analyses this crime in a comparative perspective - particularly focusing on Central Europe - to provide insights on migration and crime for a wider international audience.

**The Exotic Other and Negotiation of Tibetan Self** Kamila Hladíková,2013-12-31 This study examines various representations of Tibet in Tibetan and Chinese fiction from the 1980s. With its analysis of some of the first Tibetan short stories published approximately a decade after the end of the Cultural Revolution it greatly contributes to the scholarly research of the rise of modern Tibetan literature. The image of Tibet that appears in the works of Tibetan authors is there compared with the Chinese representations of Tibet from the same period. The analysis is informed by postcolonial theories of literature and is focused mainly on the stereotypes that appear in representation of Tibet both in China and in the west. The primary aim of this study is to examine the influence of such stereotypes on Tibetan literary negotiations of their own newly reshaped identity. Studie se zabývá zobrazování Tibetu v tibetské a čínské literatuře o Tibetu z 80. let 20. století. Prostřednictvím analýzy tibetských povídek vznikajících v době počátečního formování moderní tibetské literatury po skončení kulturní revoluce mapuje samotný vznik moderní literatury v Tibetu. Obraz Tibetu, který se objevuje v dílech tibetských autorů, je zde srovnáván s vyobrazením Tibetu v díle čínských autorů tvořících ve stejném období. Analýza vycházející z postkoloniální teorie literatury se zaměřuje především na stereotypy, jež panují v zobrazování Tibetu jak v Číně, tak na Západě, a klade si za cíl posoudit, nakolik tyto stereotypy ovlivňují vlastní představy autorů o tibetskosti, a nakolik se odrážejí v nově utvářené moderní tibetské identitě.

**My Crazy Century** Ivan Klíma,2013-11-04 An intimate, politically vital memoir by the acclaimed Czech author “of enormous power and originality” explores his life under Nazi and Communist regimes (The New York Times Book Review). In the 1930s on the outskirts of Prague, Ivan Klíma was unaware of his concealed Jewish heritage until the invading Nazis transported him and his family to the Terezín concentration camp. Miraculously, most of them survived. But they returned home to a city that was falling into the grip of another totalitarian ideology: Communism. Along this harrowing journey, Klíma discovered his love of literature and matured as a writer. But as the regime further encroached on daily life, arresting his father and censoring his work, Klíma recognized the party for what it was: a deplorable, colossal lie. The true nature of oppression became clear to him and many of his peers, among them Josef Škvorecký, Milan Kundera, and Václav Havel. From the brief hope of freedom during the Prague Spring of 1968 to Charter 77 and the eventual collapse of the regime in 1989’s Velvet Revolution, Klíma’s revelatory account provides a profoundly rich personal and national history. Klíma’s memoir provides “a sweeping, revealing look at one man’s personal struggle as writer and individual, set against the backdrop of political turmoil” (Booklist) and a “searching exploration of a warped era . . . rich in irony—and dogged hope.” (Publishers Weekly).

*Early European Castles* Oliver Creighton,2015-10-20 Medieval castles were, alongside the great cathedrals, the most recognisable buildings of the medieval world. Closely associated with concepts of justice, lordship and authority as well as military might, castles came to encapsulate the period's very essence. Looking at above and below-ground evidence and examining a wide variety of sites - from towering donjons to earth and timber castles - in different parts of western Europe, this book explores the relationship between early castle building and the emergence of a new aristocracy and investigates the impact of authority on the organisation of the landscape. A particular focus is on the social context of early private fortifications: Europe's earliest castles came to embody a new and radically different form of power – an aristocratic authority that was highly personal in nature, glaringly visible in its presence, and enforceable through violence, both threatened and real. The volume reassesses traditional models of castle origins; examines aspects of elite lifestyle in and around these structures, including pastimes and diet; considers medieval visual experiences of sites and their settings; and explores some future directions for research.
