Schneider + Schumacher Schneider + Schumacher (Firm),2011 One of Germany's leading architectural firms, schneider+schumacher has created an impressive portfolio of buildings, as can be seen in this book, which gives an in-depth overview of their projects, including ones that have not been completed yet. One of Germany's leading architectural firms, schneider+schumacher has created an impressive portfolio of buildings, as can be seen in this book, which gives an in-depth overview of their projects, including ones that have not been completed yet. schneider+schumacher rose to international fame through the design of the red info box at Potsdamer Platz in Berlin, for years the symbol of the reunified city. Since then the architects have executed numerous spectacular projects. Their buildings adapt well to their surroundings while retaining their own identity. This monograph includes texts, sketches and photographs, and covers recent projects such as the Silvertower and the new Städel Museum in Frankfurt am Main.

Faith Is Not Blind Bruce C. Hafen,Marie K. Hafen,2018-11-26

Critical Theory Max Horkheimer,1972-01-01 These essays, written in the 1930s and 1940s, represent a first selection in English from the major work of the founder of the famous Institute for Social Research in Frankfurt. Horkheimer's writings are essential to an understanding of the intellectual background of the New Left and the to much current social-philosophical thought, including the work of Herbert Marcuse. Apart from their historical significance and even from their scholarly eminence, these essays contain an immediate relevance only now becoming fully recognized.

Building Skins Christian Schittich,2006-01-01 The external facades of a building are more than a protective mantle, or an intelligent skin regulating temperature and light, they also determine its very appearance. By unusual choices of materials and the use of complex technology, facades have become increasingly significant in recent years. External surfaces are being perceived as an integral part of the building and are therefore being designed as such. This volume focuses on the wide-ranging aspects of facade design, from the selection and use of materials to the advanced technical possibilities now open to the architect. A wide array of carefully selected international examples show the theory in the practice. All plans, details, and large scale sections of the facades have been researched with the high degree of competence typical of the editorial staff from the review Detail. Expert authors provide the essential information needed to plan and design facades and elucidate on the latest developments in technology and materials.

Gaudi Unseen Mark Burry,2007 For the lay person, Antoni Gaudi is known as the creator of fairy-tale architecture, which not only fascinates in its completed form, but also as a fragment, like his best known work, the church of Sagrada Familia in Barcelona, which attracts countless visitors every year.

The Next Mormons Jana Riess,2019-02-01 American Millennials--the generation born in the 1980s and 1990s--have been leaving organized religion in unprecedented numbers. For a long time, the Church of Jesus Christ of Latter-day Saints was an exception: nearly three-quarters of people who grew up Mormon stayed that way into adulthood. In *The Next Mormons*, Jana Riess demonstrates that things are starting to change. Drawing on a large-scale national study of four generations of current and former Mormons as well as dozens of in-depth personal interviews, Riess explores the religious beliefs and behaviors of young adult Mormons, finding that while their levels of belief remain strong, their institutional loyalties are less certain than their parents' and grandparents'. For a growing number of Millennials, the tensions between the Church's conservative ideals and their generation's commitment to individualism and pluralism prove too high, causing them to leave the faith-often experiencing deep personal anguish in the process. Those who remain within the fold are attempting to carefully balance the Church's strong emphasis on the traditional family with their generation's more inclusive definition that celebrates same-sex couples and women's equality. Mormon families are changing too. More Mormons are remaining single, parents are having fewer children, and more women are working outside the home than a generation ago. *The Next Mormons* offers a portrait of a generation navigating between traditional religion and a rapidly changing culture.

Bloodlines of the Illuminati: Fritz Springmeier,2019-03-04 The iLLamanati have emerged from hidden places of the Earth to shed light on the dark side of human endeavors by collating and publishing literature on the secrets of the Illuminati. Representing the Grand Llama, an omniscient, extradimensional light being who is channeled by our Vice-Admiral, Captain Space Kitten, the iLLamanati is organized around a cast of interstellar characters who have arrived on Earth to wage a battle for the light.Bloodlines of the Illuminati was written by Fritz Springmeier. He wrote and self-published it as a public domain .pdf in 1995. This seminal book has been republished as a three-volume set by the iLLamanati.Volume 1 has the first eight of the 13 Top Illuminati bloodlines: Astor, Bundy, Collins, DuPont, Freeman, Kennedy, Li, and Onassis.Volume 2 has the remaining five of the 13 Top Illuminati bloodlines: Rockefeller, Rothschild, Russell, Van Duyn, and Merovingian.Volume 3 has four other prominent Illuminati bloodlines: Disney, Reynolds, McDonald, and Krupps.

Anne Frank Anne Frank,1997 Thirteen year old Anne Frank, with her parents and sister and four other people, went into hiding in the sealed-off building in 1942, when the Nazi invaders intensified their persecution of Jews. For two years they remained safe. In August 1944 they were betrayed. Anne's diary was found, and it reveals her life and her spirit.

Samuel Yellin, Metalworker Jack Andrews,2000 A photographic essay and documentation about the master artist-blacksmith Samuel Yellin representing the culmination of 19th-century wrought iron design and fabrication.

Overdrive Wim de Wit,Christopher James Alexander,2013 From 1940 to 1990, Los Angeles rapidly evolved into one of the most populous and influential industrial, economic, and creative capitals in the world. During this era, the region was transformed into a laboratory for cutting-edge architecture. *Overdrive: L. A. Constructs the Future, 1940-1990* examines these experiments and their impact on modern design, reframes the perceptions of Los Angeles's dynamic built environment, and amplifies the exploration of the city's vibrant architectural legacy. The drawings, models, and images highlighted in the *Overdrive* exhibition and catalogue reveal the complex and often underappreciated facets of Los Angeles and illustrate how the metropolis became an internationally recognized destination with a unique design vocabulary, canonical landmarks, and a coveted lifestyle. This investigation builds upon the groundbreaking work of generations of historians, theorists, curators, critics, and activists who have researched and expounded upon the development of Los Angeles. In this volume, thought-provoking essays shed more light on the exhibition's narratives, including Los Angeles's physical landscape, the rise of modernism, the region's influential residential architecture, its buildings for commerce and transportation, and architects' pioneering uses of bold forms, advanced materials, and new technologies. Los Angeles's ability to facilitate change, experiment, recalibrate, and forge ahead is one of its greatest strengths. Future generations are destined to harness the region's enviable resources to create new layers of architectural innovations. The related exhibition will be held at the J. Paul Getty Museum from April 9 to July 21, 2013.

Hitler's American Model James Q. Whitman,2017-02-14 How American race law provided a blueprint for Nazi Germany Nazism triumphed in Germany during the high era of Jim Crow laws in the United States. Did the American regime of racial oppression in any way inspire the Nazis? The unsettling answer is yes. In *Hitler's American Model*, James Whitman presents a detailed investigation of the American impact on the notorious Nuremberg Laws, the centerpiece anti-Jewish legislation of the Nazi

regime. Contrary to those who have insisted that there was no meaningful connection between American and German racial repression, Whitman demonstrates that the Nazis took a real, sustained, significant, and revealing interest in American race policies. As Whitman shows, the Nuremberg Laws were crafted in an atmosphere of considerable attention to the precedents American race laws had to offer. German praise for American practices, already found in Hitler's *Mein Kampf*, was continuous throughout the early 1930s, and the most radical Nazi lawyers were eager advocates of the use of American models. But while Jim Crow segregation was one aspect of American law that appealed to Nazi radicals, it was not the most consequential one. Rather, both American citizenship and antimiscegenation laws proved directly relevant to the two principal Nuremberg Laws—the Citizenship Law and the Blood Law. Whitman looks at the ultimate, ugly irony that when Nazis rejected American practices, it was sometimes not because they found them too enlightened, but too harsh. Indelibly linking American race laws to the shaping of Nazi policies in Germany, Hitler's American Model upends understandings of America's influence on racist practices in the wider world.

Anne Frank Anne Frank, 1993–06–01 The classic text of the diary Anne Frank kept during the two years she and her family hid from the Nazis in an Amsterdam attic is a powerful reminder of the horrors of war and an eloquent testament to the human spirit.

Dialectic of Enlightenment Max Horkheimer, Theodor W. Adorno, 1993 A major study of modern culture, Dialectic of Enlightenment for many years led an underground existence among the homeless Left of the German Federal Republic until its definitive publication in West Germany in 1969. Originally composed by its two distinguished authors during their Californian exile in 1944, the book can stand as a monument of classic German progressive social theory in the twentieth century.>

Mobility, Vigilance, and Justice Combat Studies Institute Press, Kendall D Gott, 2019–07–29 Mobility, Vigilance, and Justice: The US Army Constabulary in Germany, 1946–1953 is another in a series of military case studies published by the Combat Studies Institute at Fort Leavenworth, Kansas. This work examines the establishment and operations of the US Constabulary in post-World War II Germany. It outlines the planning involved in the early stages and showcases some of the difficulties involved with implementing the command guidance. The occupation of Germany after World War II is perhaps the paradigm of a successful postcombat operation in modern American history. After four years of bitter fighting, the US Army rapidly shifted from its combat missions and literally reorganized and retrained its forces for its new peacetime role. The US Constabulary in Europe effectively bridged the gap between the victorious Allies and the defeated populace through aggressive law enforcement, border control, and assistance to the Germans in rebuilding their own law enforcement infrastructure. The distinctive uniforms and insignia of the Circle C soldiers also served as a constant symbol of the United States' resolve to reconstruct a devastated Germany and help shape it into a trusted friend and ally.

Tourism in the City Nicola Bellini, Cecilia Pasquinelli, 2016–08–29 This book critically explores the interconnections between tourism and the contemporary city from a policy-oriented standpoint, combining tourism perspectives with discussion of urban models, issues, and challenges. Research-based analyses addressing managerial issues and evaluating policy implications are described, and a comprehensive set of case studies is presented to demonstrate practices and policies in various urban contexts. A key message is that tourism policies should be conceived as integrated urban policies that promote tourism performance as a means of fostering urban quality and the well-being of local communities, e.g., in terms of quality spaces, employment, accessibility, innovation, and learning opportunities. In addition to highlighting the significance of urban tourism in relation to key urban challenges, the book reflects on the risks and tensions associated with its development, including the rise of anti-tourism movements as a reaction to touristification, cultural commodification, and gentrification. Attention is drawn to asymmetries in the costs and benefits of the city tourism phenomenon, and the supposedly unavoidable trade-off between the interests of residents and tourists is critically questioned.

21st Century Manufacturing National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on 21st Century Manufacturing: The Role of the Manufacturing Extension Partnership Program of the National Institute of Standards and Technology, 2013–09–27 The Manufacturing Extension Partnership (MEP) – a program of the U.S. Department of Commerce's National Institute of Standards and Technology – has sought for more than two decades to strengthen American manufacturing. It is a national network of affiliated manufacturing extension centers and field offices located throughout all fifty states and Puerto Rico. Funding for MEP Centers comes from a combination of federal, state, local and private resources. Centers work directly with manufacturing firms in their state or sub-state region. MEP Centers provide expertise, services and assistance directed toward improving growth, supply chain positioning, leveraging emerging technologies, improving manufacturing processes, work force training, and the application and implementation of information in client companies through direct assistance provided by Center staff and from partner organizations and third party consultants. 21st Century Manufacturing seeks to generate a better understanding of the operation, achievements, and challenges of the MEP program in its mission to support, strengthen, and grow U.S. manufacturing. This report identifies and reviews similar national programs from abroad in order to draw on foreign practices, funding levels, and accomplishments as a point of reference and discusses current needs and initiatives in light of the global focus on advanced manufacturing,
