Battletech Era Report:3145 ,2015-04-01

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist

movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Battletech Technical Readout 3085 Catalyst Game Labs,2010-10-13
In December 3076, Devlin Stone marshaled the nations of the Inner Sphere and began Operation SCOUR. The two-year final push to Terra was the bloodiest fighting seen in centuries. In the end, Terra had been freed with the Word of Blake scattered to the darkest corners of the universe. Stepping into that vacuum, Stone forged a new Terran Hegemony in The Republic of the Sphere. With the end of the Jihad, the survivors are rebuilding their shattered armies, introducing new machines to replace those whose factories ceased to exist in the fires of the Jihad. **BattleTech Technical Readout: 3085** gives a detailed look at the machines introduced during the waning days of the Jihad and into the founding days of Devlin Stones Republic of the Sphere. This book includes the latest Mechs, battle armor, aerospace and vehicles as well as new late-Jihad support vehicles. In addition, this sourcebook heralds the long-awaited update of **Technical Readout: Project Phoenix**, featuring brand-new art and additional variants. Conventional infantry make their **Technical Readout** debut with fifty-six individual infantry formations from classic foot infantry to xeno-planetary soldiers. And finally, after more

than twenty years of silence, Land-Air BattleMechs explode back into a Technical Readout with a look at the original four LAMs and their Star League history.
