All Things Paper Ann Martin, 2013-05-21 Make decorative, simple do-it-yourself projects with this friendly guide to paper crafting. You and your family will love to spend hours making beautiful paper art, jewelry, and decorations with All Things Paper. This easy paper crafts book comes with simple-to-follow instructions and detailed photos that show you how to create colorful and impressive art objects to display at home—many of which have practical uses. It is a great book for experienced paper craft hobbyists looking for new ideas or for new folders who want to learn paper crafts from experts. Projects in this papercrafting book include: Candle Luminaries Citrus Slice Coasters Mysterious Stationery Box Everyday Tote Bag Silver Orb Pendant Fine Paper Yarn Necklace Wedding Cake Card Perfect Journey Journal And many more... All the projects in this book are designed by noted paper crafters like Benjamin John Coleman, Patricia Zapata, and Richela Fabian Morgan. They have all been creating amazing objects with paper for many years. Whether you're a beginner or have been paper crafting for many years, you're bound to find something you'll love in All Things Paper. Soon you will be on your way to creating your own designs and paper art.

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man's best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!”

Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Axolotl! Professor Susan Mason, 2016-11-10 Kids - want to be the expert on the world's coolest salamander amongst your friends? Find out what makes the Axolotl so special in this colourful picture book. Enjoy learning and sharing fun facts about this weirdly-named creature. Discover why Axolotls are so cool in this book especially dedicated to this group of Salamanders. Inside this book you will discover: The Axolotl's special healing ability It's ancient link with mythology Why Axolotls can have two ways to reproduce Its camouflage ability And much more! Fun facts about the world's coolest salamander. An info-picture book for 7 to 11 year olds.

After the Eclipse Sarah Perry, 2017-09-26 A New York Times Book Review Editors' Choice. “A heartfelt memoir and a suspenseful story” of a murdered mother (Gabourey Sidibe, Book of the Month Club). When Sarah Perry was twelve, she saw a partial eclipse; she took it as a good omen for her and her mother, Crystal. But that moment of darkness foreshadowed a much larger one: two days later, Crystal was murdered in their home in rural Maine. It took twelve years to find the killer. In that time, Sarah rebuilt her life amid abandonment, police interrogations, and the exacting toll of trauma. She dreamed of a trial, but when the day came, it brought no closure. It was not

her mother's death she wanted to understand, but her life. She began her own investigation, one that drew her back to Maine, deep into the darkness of a small American town. "Pull[ing] the reader swiftly along on parallel tracks of mystery and elegy" in *After the Eclipse*, "Perry succeeds in restoring her mother's humanity and her own" (The New York Times Book Review). "Raw and perfect . . . After the Eclipse [has] an eerie, heartbreaking power that it shares with the very best of true crime." –Laura Miller, *Slate* "A gut punch . . . A heartbreaking yet hopeful testament to human resilience." –Samantha Irby, *Marie Claire* "With clear, powerful prose, Perry paints a portrait of unconventional motherhood while questioning society's handling of violence against women. Reminiscent of Maggie Nelson's *The Red Parts*, *After the Eclipse* tells the very human story at the center of a needless crime." –*W Magazine*

Hybrid Animation Tina O'Hailey, 2012-11-12 Artist imaginations continue to grow and stretch the boundaries of traditional animation. Successful animators adept and highly skilled in traditional animation mediums are branching out beyond traditional animation workflows and will often use multiple forms of animation in a single project. With the knowledge of 3D and 2D assets and the integration of multiple animation mediums into a single project, animators have a wealth of creative resources available for a project that is not limited to a specific animation medium, software package or workflow processes. Enhance a poignant scene by choosing to animate the scenic background in 2D while the main character is brought to life with 3D techniques. Balance the budget demands of a project by choosing to integrate a 2D or 3D asset to save time and expense. Choose which medium Hybrid Animation, learn the systematic development of the 2D and 3D assets and the issues surrounding choices made during the creative process.

Specters of Marx Jacques Derrida, 2012-10-12 Prodigiously influential, Jacques Derrida gave rise to a comprehensive rethinking of the basic concepts and categories of Western philosophy in the latter part of the twentieth century, with writings central to our understanding of language, meaning, identity, ethics and values. In 1993, a conference was organized around the question, 'Whither Marxism?', and Derrida was invited to open the proceedings. His plenary address, 'Specters of Marx', delivered in two parts, forms the basis of this book. Hotly debated when it was first published, a rapidly changing world and world politics have scarcely dented the relevance of this book.

A Guide to the Principles of Animal Nutrition Gita Cherian, 2020

Material Obsession Kathy Doughty, Sarah Fielke, 2008 Explains how anyone, even those who don't think they are 'creative' can confidently choose colours and patterns to create bold, easy-to-make quilts, perfect for today's busy craftspeople.

Dictionary of the British English Spelling System Greg Brooks, 2015-03-30 This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and

various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

Ecology Michael Begon, Colin R. Townsend, 2020-11-11 A definitive guide to the depth and breadth of the ecological sciences, revised and updated The revised and updated fifth edition of *Ecology: From Individuals to Ecosystems* - now in full colour - offers students and practitioners a review of the ecological sciences. The previous editions of this book earned the authors the prestigious 'Exceptional Life-time Achievement Award' of the British Ecological Society - the aim for the fifth edition is not only to maintain standards but indeed to enhance its coverage of Ecology. In the first edition, 34 years ago, it seemed acceptable for ecologists to hold a comfortable, objective, not to say aloof position, from which the ecological communities around us were simply material for which we sought a scientific understanding. Now, we must accept the immediacy of the many environmental problems that threaten us and the responsibility of ecologists to play their full part in addressing these problems. This fifth edition addresses this challenge, with several chapters devoted entirely to applied topics, and examples of how ecological principles have been applied to problems facing us highlighted throughout the remaining nineteen chapters. Nonetheless, the authors remain wedded to the belief that environmental action can only ever be as sound as the ecological principles on which it is based. Hence, while trying harder than ever to help improve preparedness for addressing the environmental problems of the years ahead, the book remains, in its essence, an exposition of the science of ecology. This new edition incorporates the results from more than a thousand recent studies into a fully up-to-date text. Written for students of ecology, researchers and practitioners, the fifth edition of *Ecology: From Individuals to Ecosystems* is an essential reference to all aspects of ecology and addresses environmental problems of the future.

Animal Weapons Douglas J. Emlen, 2014-11-11 An exploration of the extreme weapons we see in the animal world-teeth, horns and claws-draws parallels to the way humans develop and employ our own weapons.

Wild Animals at Home Ernest Thompson Seton, 1913

In My Backyard Margriet Ruurs, 2011-11-24 From the singing of little wrens in spring to paper wasps building their nests in summer; from baby bats drinking mother's milk in fall to baby possums climbing into mother's pouch in winter, *In My Backyard* celebrates nature and backyard animals through the seasons. Wildlife artist Ron Broda's detailed paper-sculpture art beautifully complements Margriet Ruurs' lyrical text, and young readers will discover a captivating variety of animals and insects. Find the ladybug in each illustration, along with a hidden animal, which becomes featured on the next page. A detailed legend and helpful hints on how to turn your own backyard into an inviting place for animals to live make this book a must-have for wildlife and nature lovers alike.

The Art of Fallout 4 Various, 2015-12-08 Bethesda Game Studios, the award-winning creators of *Fallout® 3* and *The Elder Scrolls V: Skyrim®*, welcome you to the world of *Fallout® 4* - their most ambitious game ever, and the next generation of open-world gaming. *The Art of Fallout 4* is a must-have collectible for fans and a trusty companion for every Wasteland wanderer. Featuring never-before-seen designs and concept art from the game's dynamic environments, iconic characters, detailed weapons, and more -- along with commentary from the developers themselves.

Successful Scientific Writing Janice R. Matthews, Robert W. Matthews, 2007-10-11 The detailed, practical, step-by-step advice in this user-friendly guide will help students and researchers to communicate their work more effectively through the written word. Covering all aspects of the writing process, this concise, accessible resource is critically acclaimed, well-structured, comprehensive, and entertaining. Self-help exercises and

abundant examples from actual typescripts draw on the authors' extensive experience working both as researchers and with them. Whilst retaining the user-friendly and pragmatic style of earlier editions, this third edition has been updated and broadened to incorporate such timely topics as guidelines for successful international publication, ethical and legal issues including plagiarism and falsified data, electronic publication, and text-based talks and poster presentations. With advice applicable to many writing contexts in the majority of scientific disciplines, this book is a powerful tool for improving individual skills and an eminently suitable text for classroom courses or seminars.

The Maggie B Irene Haas, 1975-09 The Maggie B is Irene Haas' creation of a world in which children will eagerly go to share in a little girl's dream come true. In a beautifully constructed story, a little girl's wish to sail for a day on a boat named for her with someone nice for company comes true.

Shark Girl Kelly Bingham, 2011-04-26 A teenager struggles through physical loss to the start of acceptance in an absorbing, artful novel at once honest and insightful, wrenching and redemptive. (Age 12 and up) On a sunny day in June, at the beach with her mom and brother, fifteen-year-old Jane Arrowood went for a swim. And then everything -- absolutely everything -- changed. Now she's counting down the days until she returns to school with her fake arm, where she knows kids will whisper, That's her -- that's Shark Girl, as she passes. In the meantime there are only questions: Why did this happen? Why her? What about her art? What about her life? In this striking first novel, Kelly Bingham uses poems, letters, telephone conversations, and newspaper clippings to look unflinchingly at what it's like to lose part of yourself -- and to summon the courage it takes to find yourself again.

Game of Thrones Mask: House Stark Direwolf (3D Mask & Wall Mount)

Wintercrafter, 2017-10-10 The North remembers, thanks to these unique Game of Thrones gifts. Inspired by the sigil from the award-winning television series Game of Thrones, this official book contains a full-sized 3D House Stark Direwolf mask and wall mount. Assemble it yourself from the beautifully illustrated push-out pieces, then wear it, mount it on the wall, or simply admire it. But be quick, because winter is coming. . . .

Cross Body Lead Elie Axelroth, 2021-11-14 How far would you go to right an injustice? At a college campus across the bay from San Francisco, Billie Ochoa teaches Cold War politics and Cuban history. She is charismatic, unapologetic, resolute. Inspired by her dead father's love for his Cuban homeland, she is a regular at a salsa dancing class at the local community center, and an advocate for the vulnerable, marginalized and exploited. But when one of her students, Evelyn Davis, needs her help, Billie gets more than she's bargained for. One of the few Black students on campus, Evelyn is used to being followed in drug stores and clothing shops, but it's different when Eddie Pike, another student in Ochoa's class, follows her home, posts photos of her on social media, and texts her multiple times a day, repeatedly asking her out on a date. Evelyn tries to keep her cool but is becoming frustrated and scared as Eddie refuses to take no for an answer. She confides her fears to her professor as the stalking escalates. Trash cans are overturned. Someone has broken into her apartment, but campus police and college officials continue to dismiss Evelyn's concerns. Even the campus counselor, bound by confidentiality laws, is unable to reassure Billie--or anyone else--about the risk Eddie poses. Seemingly out of options, Ochoa is forced to take matters into her own hands. Lyrical and poignant, edgy, bold and honest, Cross Body Lead is a story at once cautionary and all too real. Where indifference leads to tragedy, but the ultimate lessons learned are ones of compassion and love.
