Fado Resounding Lila Ellen Gray,2013-10-25 Fado, Portugal's most celebrated genre of popular music, can be heard in Lisbon clubs, concert halls, tourist sites, and neighborhood bars. Fado sounds traverse the globe, on internationally marketed recordings, as the soul of Lisbon. A fadista might sing until her throat hurts, the voice hovering on the break of a sob; in moments of sung beauty listeners sometimes cry. Providing an ethnographic account of Lisbon's fado scene, Lila Ellen Gray draws on research conducted with amateur fado musicians, fadistas, communities of listeners, poets, fans, and cultural brokers during the first decade of the twenty-first century. She demonstrates the power of music to transform history and place into feeling in a rapidly modernizing nation on Europe's periphery, a country no longer a dictatorship or an imperial power. Gray emphasizes the power of the genre to absorb sounds, memories, histories, and styles and transform them into new narratives of meaning and soul.

The Social Cancer Jose Rizal,2016-09-01 We travel rapidly in these historical sketches. The reader flies in his express train in a few minutes through a couple of centuries. The centuries pass more slowly to those to whom the years are doled out day by day. Institutions grow and beneficently develop themselves, making their way into the hearts of generations which are shorter-lived than they, attracting love and respect, and winning loyal obedience; and then as gradually forfeiting by their shortcomings the allegiance which had been honorably gained in worthier periods. We see wealth and greatness; we see corruption and vice; and one seems to follow so close upon the other, that we fancy they must have always co-existed. We look more steadily, and we perceive long periods of time, in which there is first a growth and then a decay, like what we perceive in a tree of the forest. FROUDE, Annals of an English Abbey.

Biomimetics for Architecture & Design Göran Pohl,Werner Nachtigall,2015-10-30 This book provides the readers with a timely guide to the application of biomimetic principles in architecture and engineering design. As a result of a combined effort by two internationally recognized authorities, the biologist Werner Nachtigall and the architect Göran Pohl, the book describes the principles which can be used to compare nature and technology, and at the same time it presents detailed explanations and examples showing how biology can be used as a source of inspiration and “translated” in building and architectural solutions (biomimicry). Even though nature cannot be directly copied, the living world can provide architects and engineers with a wealth of analogues and inspirations for their own creative designs. But how can analysis of natural entities give rise to advanced and sustainable design? By reporting on the latest bionic design methods and using extensive artwork, the book guides readers through the field of nature-inspired architecture, offering an extraordinary resource for professional architects, engineers, designers and urban planners, as well as for university teachers, researchers and students. Natural evolution is seen throughout the book as a powerful resource that can serve architecture and design by providing innovative, optimal and sustainable solutions.

Roads to Rome Jenny Franchot,2024-03-29 The mixture of hostility and fascination with which native-born Protestants viewed the foreign practices of the immigrant church is the focus of Jenny Franchot's cultural, literary, and religious history of Protestant attitudes toward Roman Catholicism in nineteenth-century America. Franchot analyzes the effects of religious attitudes on historical ideas about America's origins and

destiny. She then focuses on the popular tales of convent incarceration, with their Protestant maidens and lecherous, tyrannical Church superiors. Religious captivity narratives, like those of Indian captivity, were part of the ethnically, theologically, and sexually charged discourse of Protestant nativism. Discussions of Stowe, Longfellow, Hawthorne, and Lowell—writers who sympathized with Romanism and used its imaginative properties in their fiction—further demonstrate the profound influence of religious forces on American national character. MiniEco Kate Lilley,2013 MiniEco is the sensational craft blog of Kate Lilley. With over 250,000 followers it has taken on cult status in the international craft community, and that is purely down to Kates fresh, contemporary and beautifully explained and executed craft projects. With a book for children already under her belt, this publication focuses more on adults with 33 pieces including paper gems, an origami lampshade, macrame hangings, pop-up pixel cards, hama bead candle holders, and tie-dyed furoshiki cloths. The ideas range in complexity from the simple to the advanced, but each one is totally unique and has never before been published. The look of the book will reflect the immaculate, Japanese-inflected minimalism of the MiniEco website, with some high-end production finishes including a die-cut, dust-jacketed paperback binding and boldly pared-back photography. QR codes will link to animated gifs of the craft being made.

A World of Many Worlds Marisol de la Cadena,Mario Blaser,2018-11-23 A World of Many Worlds is a search into the possibilities that may emerge from conversations between indigenous collectives and the study of science's philosophical production. The contributors explore how divergent knowledges and practices make worlds. They work with difference and sameness, recursion, divergence, political ontology, cosmopolitics, and relations, using them as concepts, methods, and analytics to open up possibilities for a pluriverse: a cosmos composed through divergent political practices that do not need to become the same. Contributors. Mario Blaser, Alberto Corsín Jiménez, Déborah Danowski, Marisol de la Cadena, John Law, Marianne Lien, Isabelle Stengers, Marilyn Strathern, Helen Verran, Eduardo Viveiros de Castro

Biography of a Mexican Crucifix Jennifer Scheper Hughes,2010 In 1543, in a small village in Mexico, a group of missionary friars received from a mysterious Indian messenger an unusual carved image of Christ crucified. The friars declared it the most poignantly beautiful depiction of Christ's suffering they had ever seen. Known as the Cristo Aparecido (the Christ Appeared), it quickly became one of the most celebrated religious images in colonial Mexico. Today, the Cristo Aparecido is among the oldest New World crucifixes and is the beloved patron saint of the Indians of Totolapan. In Biography of a Mexican Crucifix, Jennifer Scheper Hughes traces popular devotion to the Cristo Aparecido over five centuries of Mexican history. Each chapter investigates a single incident in the encounter between believers and the image. Through these historical vignettes, Hughes explores and reinterprets the conquest of and mission to the Indians; the birth of an indigenous, syncretic Christianity; the violent processes of independence and nationalization; and the utopian vision of liberation theology. Hughes reads all of these through the popular devotion to a crucifix that over the centuries becomes a key protagonist in shaping local history and social identity. This book will be welcomed by scholars and students of religion, Latin American history, anthropology, and theology.

The Rediscovery of North America Barry Lopez,2011-09-14 Five hundred years ago an Italian whose name, translated into English, meant Christopher Dove, came to America and began a process not of discovery, but incursion -- a ruthless, angry search for wealth that continues to the present day. This provocative and superbly written book gives a true assessment of Columbus's legacy while taking the first steps toward its redemption. Even as he draws a direct line between the atrocities of Spanish conquistadors and the ongoing pillage of our lands and waters, Barry Lopez challenges us to adopt an ethic that will make further depredations impossible. The Rediscovery of North America is a ringingly persuasive call for us, at long last, to make this country our home.

Suffrage Ellen Carol DuBois,2021-02-23 Honoring the 100th anniversary of the 19th amendment to the Constitution, this “indispensable” book (Ellen Chesler, Ms. magazine) explores the full scope of the movement to win the vote for women through portraits of its bold leaders and devoted activists. Distinguished historian Ellen Carol DuBois begins in the pre-Civil War years with foremothers Lucretia Mott, Elizabeth Cady Stanton, Susan B. Anthony, and Sojourner Truth as she “meticulously and vibrantly chronicles” (Booklist) the links of the woman suffrage movement to the abolition of slavery. After the Civil War, Congress granted freed African American men the right to vote but not white and African American women, a crushing disappointment. DuBois shows how suffrage leaders persevered through the Jim Crow years into the reform era of Progressivism. She introduces new champions Carrie Chapman Catt and Alice Paul, who brought the fight to the 20th century, and she shows how African American women, led by Ida B. Wells-Barnett, demanded voting rights even as white suffragists ignored them. DuBois explains how suffragists built a determined coalition of moderate lobbyists and radical demonstrators in forging a strategy of winning voting rights in crucial states to set the stage for securing suffrage for all American women in the Constitution. In vivid prose, DuBois describes suffragists’ final victories in Congress and state legislatures, culminating in the last, most difficult ratification, in Tennessee. “Ellen DuBois enables us to appreciate the drama of the long battle for women’s suffrage and the heroism of many of its advocates” (Eric Foner, author of *The Second Founding: How the Civil War and Reconstruction Remade the Constitution*). DuBois follows women’s efforts to use their voting rights to win political office, increase their voting strength, and pass laws banning child labor, ensuring maternal health, and securing greater equality for women. *Suffrage: Women’s Long Battle for the Vote* is a “comprehensive history that deftly tackles intricate political complexities and conflicts and still somehow read with nail-biting suspense,” (The Guardian) and is sure to become the authoritative account of one of the great episodes in the history of American democracy.

Agents of Transculturation Sebastian Jobs,Gesa Mackenthun,2013 Ever since antiquity, but increasingly since the global transformation of the world order in the early modern period, communication between members of different cultural groups depended on translators, diplomats, traders, and other specialists with a knowledge of both cultures. Successful communication and traffic relied on the mediating agency of persons who had been exposed, often in their childhood or through captivities, to the customs and languages of both cultures involved in the contact. Other border crossers and go-betweens acted as missionaries, traders, political refugees, beachcombers, pirates, anthropologists, actors in zoos, runaway slaves, and itinerant doctors. Because of their frequently precarious lives, the written traces left by these figures are often thin. While some of their lives have to be carefully reconstructed through critical readings of the documents left by others (frequently by their enemies), others have left autobiographical texts which allow for a richer assessment of their function as cultural border crossers and mediators. With examples covering from various historical periods between the early modern period and the present, as well as geographical areas such as the Mediterranean, Africa, the Americas, Hawaii, New Zealand and northern Europe, scholars from various disciplines and methodological backgrounds - reaching from history to religious studies and from literary studies to ethnology - fathom the intricacies of in-betweenness and reflect on the impact which agents of transculturation have in situations of cultural, social and political encounters.
