The Image of Chekhov Anton Pavlovich Chekhov,1967

Dziga Vertov John MacKay,2018 For 60 years, the Soviet filmmaker Dziga Vertov, creator of the famed *Man with a Movie Camera* (1929), has been recognized as a founding figure of documentary, avant-garde, and political-propaganda film. This book addresses Vertov's formative years in prerevolutionary and Soviet Russia, alongside his interests in music, poetry and technology.

Project for a Revolution in New York Alain Robbe-Grillet,2012-09-04 Part prophecy and part erotic fantasy, this classic tale of otherworldly depravity features New York itself—or a foreigner's nightmare of New York—as its true protagonist. Set in the towers and tunnels of the quintessential American city, Alain Robbe-Grillet's novel turns this urban space into a maze where politics bleeds into perversion, revolution into sadism, activist into criminal, vice into art—and back again. Following the logic of a movie half-glimpsed through a haze of drugs and alcohol, *Project for a Revolution in New York* is a Sadean reverie that bears an alarming resemblance to the New York, and the United States, that have actually come into being.

Perspectives on German Cinema Terri Ginsberg,Kirsten

Moana Thompson,1996 This series is devoted to supplying comprehensive coverage of several topics: directors, individual films, national film traditions, film genres, and other categories that scholars have devised for organizing the rich history of film as expressive form, cultural force, and industrial and technological enterprise. It offers perspectives on every significant aspect of its subject within the context of an innovative and exemplary organization of its contributions.

Treasury of Alphabets and Lettering Jan Tschichold,1995

Treasury of Alphabets and Lettering is a classic source book of the most beautiful type and letters of all time selected by Jan Tschichold, internationally renowned typographer and master of lettering. It contains only letters of timeless and lasting beauty--the true mainsprings of the art of lettering. One hundred and seventy-six type specimens are presented, most of them in complete alphabets.

The Book on the Bookshelf Henry Petroski,2010-12-01 From the author of the highly praised *The Pencil* and *The Evolution of Useful Things* comes another captivating history of the seemingly

mundane: the book and its storage. Most of us take for granted that our books are vertical on our shelves with the spines facing out, but Henry Petroski, inveterately curious engineer, didn't. As a result, readers are guided along the astonishing evolution from papyrus scrolls boxed at Alexandria to upright books shelved at the Library of Congress. Unimpeachably researched, enviably written, and charmed with anecdotes from Seneca to Samuel Pepys to a nineteenth-century bibliophile who had to climb over his books to get into bed, *The Book on the Bookshelf* is indispensable for anyone who loves books.

Dear Writer, Dear Actress Anton Pavlovich Chekhov, 1997

Letters between the playwright and the actress who eventually became his wife; chronicles love struggling against the handicap of distance and the ravages of terminal illness.

Point and Line Thalia Field, 2000 Some pieces use generative schemes, portraits of mental shapes, which create meaning out of noise. In *Hours and Setting, the Table*, Field uses indeterminate performance techniques to emphasize the categorical/conceptual nature of thought. Visually, each chapter is captivating, showing both the author's need for shapes and colors in her work, and her

fascination with the contours of speech.--BOOK JACKET.

Chekhov on the British Stage Patrick Miles, 1993-05-06 This is the first book to consider the whole subject of Chekhov's impact on the British stage. Recently Chekhov's plays have come to occupy a place in the British classical repertoire second only to Shakespeare. The British, American and Russian authors of these essays examine this phenomenon both historically and synchronically. First they discuss why Chekhov's plays were so slow to find an audience in Britain, what the early productions were really like, and how Bernard Shaw, Peggy Ashcroft, the Moscow Art Theatre and politics influenced the British style of Chekhov. They then address the often controversial issues of directing, acting, designing and translating Chekhov in Britain today. The volume concludes with a selective chronology of British productions of Chekhov's plays and will be of interest to students and scholars of the theatre, as well as theatre-goers, theatre-practitioners and Russianists.

Reading Chekhov Janet Malcolm, 2002-11-12 To illuminate the mysterious greatness of Anton Chekhov's writings, Janet Malcolm

takes on three roles: literary critic, biographer, and journalist. Her close readings of the stories and plays are interwoven with episodes from Chekhov's life and framed by an account of Malcolm's journey to St. Petersburg, Moscow, and Yalta. She writes of Chekhov's childhood, his relationships, his travels, his early success, and his self-imposed "exile"—always with an eye to connecting them to themes and characters in his work. Lovers of Chekhov as well as those new to his work will be transfixed by Reading Chekhov.

Young Chekhov Anton Chekhov, 2015-09-29 Young Chekhov contains a trilogy of plays by the Russian writer Anton Chekhov, written as he emerged as the greatest playwright of the late nineteenth century. The three works, *Platanov*, *Ivanov* and *The Seagull*, in contemporary adaptations by David Hare, will be staged at the Chichester Festival Theatre in the summer of 2015.

The Cambridge Companion to Chekhov Vera Gottlieb, Paul Allain, 2000-11-04 This volume of specially commissioned essays explores the world of Anton Chekhov - one of the most important dramatists in the repertoire - and the creation, performance and interpretation of his works. The Companion, first published in 2000, begins with an examination of Chekhov's life, his Russia, and the

original productions of his plays at the Moscow Art Theatre. Later film versions and adaptations of Chekhov's works are analysed, with valuable insights also offered on acting Chekhov, by Ian McKellen, and directing Chekhov, by Trevor Nunn and Leonid Heifetz. The volume also provides essays on 'special topics' such as Chekhov as writer, Chekhov and women, and the Chekhov comedies and stories. Key plays, such as *The Cherry Orchard* and *The Seagull*, receive dedicated chapters while lesser-known works and genres are also brought to light. The volume concludes with appendices of primary sources, lists of works, and a select bibliography.

The Undiscovered Chekhov Anton Chekhov, 2011-01-04 The

Undiscovered Chekhov gives us, in rich abundance, a new Chekhov. Peter Constantine's historic collection presents 38 new stories and with them a fresh interpretation of the Russian master. In contrast to the brooding representative of a dying century we have seen over and over, here is Chekhov's work from the 1880s, when Chekhov was in his twenties and his writing was sharp, witty and innovative. Many of the stories in *The Undiscovered Chekhov* reveal Chekhov as a keen modernist. Emphasizing impressions and the juxtaposition of incongruent elements, instead of the straight narrative his readers were used to, these stories upturned many of the assumptions of storytelling of the period. Here is *Sarah Bernhardt Comes to Town*, written as a series of telegrams, beginning with *Have been drinking to Sarah's health all week! Enchanting! She actually dies standing up!... In Confession...*, a thirty-nine year old bachelor recounts some of the fifteen times chance foiled his marriage plans. In *How I Came to be Lawfully Wed*, a couple reminisces about the day they vowed to resist their parents' plans that they should marry. And in the more familiarly Chekhovian *Autumn*, an alcoholic landowner fallen low and a peasant from his village meet far from home in a sad and haunting reunion in which the action of the story is far less important than

the powerful impression it leaves with the reader that each man must live his life and has his reasons.

Seeing Chekhov Michael C. Finke, 2018-07-05 Chekhov's keen powers of observation have been remarked by both memoirists who knew him well and scholars who approach him only through the written record and across the distance of many decades. To apprehend Chekhov means seeing how Chekhov sees, and the author's remarkable vision is understood as deriving from his occupational or professional training and identity. But we have failed to register, let alone understand, just what a central concern for Chekhov himself, and how deeply problematic, were precisely issues of seeing and being seen.—from the Introduction Michael C. Finke explodes a century of critical truisms concerning Chekhov's objective eye and what being a physician gave him as a writer in a book that foregrounds the deeply subjective and self-reflexive aspects of his fiction and drama. In exploring previously unrecognized seams between the author's life and his verbal art, Finke profoundly alters and deepens our understanding of Chekhov's personality and behaviors, provides startling new interpretations of a broad array of Chekhov's texts, and fleshes out Chekhov's simultaneous pride in his identity as a physician and

devastating critique of turn-of-the-century medical practices and ideologies. Seeing Chekhov is essential reading for students of Russian literature, devotees of the short story and modern drama, and anyone interested in the intersection of literature, psychology, and medicine.
